The stay-at-homes ought to be satisfied with the tickets named at the recent primaries, and so ought the voter who believes in Democratic government—rule by the majority.

The good market for all kinds of berries has encouraged Clarence A. Houz to set out between eight and ten thousand berry plants, the varieties being strawberry, raspberry and blackberry.

Philadelphia will need more than a single religious revival to impress its people that the extreme political corruption in that city should be wiped out. Remember, political blindness is a stubborn disease.

F. M. Crawford, traveling salesman for the Potter-Hoy Hardware Company, was in town Friday to call on the merchants, and of course, did not leave an opportunity go by to spend a few minutes with old friends.

At noon, Monday, the roof of the dwelling house of J. W. Ishler, at Dale Summit, took fire from a spark from a flue. A small portion of the roof was burned, when the heroic actions of those present extinguished the flames.

Miss Flora Love, the latter part of last week, underwent an operation in the Bellefonte hospital. The disease was found to be chronic appendicitis, which had caused chronic peritonitis. Her condition ever since the operation has been altogether favorable.

The Centre Reporter is indebted to B. H. Arney for a rare treat of a basket of choice apples. They were buried, and are as crisp and rich in flavor as they were in the regular season. Among the lot were several pound apples, in perfect condition.

Quite a disastrous fire occurred at the "Cross Roads" near Moshannon, recently which destroyed a dwelling house, blacksmith shop, stable, and an old dwelling, abandoned some time ago. The house was occupied by John Arno, whose loss was almost total, being unable to cope with the flames. The fire started from an over-heated stove while baking.

John Noll and family and his son-in-law, Benjamin June, who for a number of years have been residents of Litze, Louisiana, have decided to make Centre county their home after May 1st. Mr. June is a lawyer, and expects to find employment on one of the local saw mills.

The cement walks laid last summer and the year before have withstood the frosts without perceptible damage. In some instances not as much care in construction was given as might have been, yet the repeated freezing and thawing did no harm. Where ordinary care is used in construction the cement walk is no longer a problematical question. Considerable labor and expense might be saved if an iron or metal frame were constructed to take the place of the scantlings used as a guide for height and width of the walks. It appears such frames are in the market, and it would be a good investment for some one in the borough to purchase a set, or, perhaps, it would be economy to the townspeople to have the borough authorities secure them.

Portland Cement.

The undersigned offers for sale the best grade of Portland Cement, in small or large quantities. This cement is suited for the building of walks, etc.

BURGLARS AT WORK.

Beech Creek and Bellefonte Done by the "Cian-Montgomery & Co. and Zellers Visited.

Sometime during Monday night burglars gained entrance to the store of F. Edward Sykes in Beech Creek by raising a window sash in the rear of the building.

Mr. Sykes handles a general line of clothing and gents furnishings and carries an extensive line of jewelry and they made a large haul on the latter stock. Among the articles stolen were watches, watch movements, rings, razors, chains, etc. The owner places his loss at about \$500. Several suspicious characters were seen in that town during that day and the robbery is credited to them. A widow with several children lives over the store but she did not hear anything during the night.

In Bellefonte, the same night, the clothing store of Montgomery & Company and Zellers's drug store was broken into, entrance having been gained by breaking a window in the rear. From the Montgomery store several suits of clothing, a rain coat, suit case and a number of small articles. The cash register, the drawers of which were open and empty, was tampered with and damaged to some extent.

So far as is known nothing was taken from Zeller's drug store except cigars, the burglars evidently having been after cash only.

Evangelist Boston's Meetings

Rev. S. L. Boston, Evangelist of the Presbytery of Huntingdon, began a two weeks' series of meetings in the Presbyterian church on Sunday morning. Rev. Boston is a strong preacher of the word of God; he dwells on the practical, every day duties of religion rather than on the theory of Christianity. Religion with him means life, eternal life; but a life that begins here and now, and finds its full fruition in eternity. He is not at all sensational, but he gets the attention from the start and holds it to the end by his lucid manner and intense earnestness in dealing with facts that every one must face some day.

Services each evening except Saturday, the hour, during the week is 7:45 p. m., on Sunday at 7 p. m. On Sunday there will also be services at 10:30 a. m., and 2:30 p. m. The afternoon meeting will be for men only. In addition to addressing the meeting, Mr. Boston will sing a solo; other music by a male chorus. To this meeting all men are cordially invited, and the other meetings are open to everybody. So far the sermons have been more particularly addressed to church members, but there is something in each for everybody.

Wake up, Prosperity.

A call comes from William Harsbarger, of Bellwood, to wake up the Republican party and prosperity. Among other things, Mr. Harsbarger says: "Times are very dull up here; business is at a standstill. We are conducting a dairy, and six months ago we kept thirty-four cows, and daily sold sixty gallons of milk. We now have but twenty-one cows and sell only thirty-five gallons each day, making quite a difference in the returns. Wake up the Republican party, and have it give us the prosperity talked of at the last election."

House cleaning time is here. You can touch up your home by using Sherwin-Williams paints, floor finishes and stains. PHYSICIANS DISCUSS NEW THEORY

Cooper's Views of Human Stomach Noted by Medical Men.

A recent article in the New Orleans Item gives an account of the effect upon the medical profession of that city with regard to L. T. Cooper's theory that the human stomach is responsible for most ill health. The article is as follows: "The astonishing sale of Cooper's preparation in this city has now reached such immense figures that the medical fraternity have been forced into open discussion of the man's theories and medicines. "The physicians seem to be divided with regard to the young man's success in New Orleans—some being willing to credit him for what he has accomplished, while others assert that the interest he has aroused is but a passing fad that will die out as quickly as it has sprung up. "In a statement recently obtained from a well-known physician of this city, the position of those in favor of Cooper is well voiced. The doctor said: 'I am not a believer in proprietary medicines, but I must admit that some-

of the facts recently brought to my attention concerning this Cooper medicine have gone far toward removing the prejudice I had formed against them when I first heard of Cooper's new ideas and medicines. "Numbers of my patients whom I have treated for chronic liver, kidney and stomach troubles have met me and stated that Cooper's medicine has accomplished wonderful results for them. I notice particularly in cases of stomach trouble that the man has relieved several cases that were of years' standing and proved very obstinate to treatment. "I do not wish to stand in the way of something that may be for the public good, simply through professional prejudice, and I am inclined to give Cooper and his preparations credit as deserving to some extent the popular demonstration that has been accorded them in this city." We sell the Cooper medicines. They are proving remarkably successful throughout the entire United States. —T. D. Murray.
