A Whistler Story.

Artist William M. Chase tells a really new one on Jimmy Whistler. It was at a dinner party, after all the guests had been seated, when Chase gently drew Whistler's attention to the fact that he had forgotten his tie. "Forgotten?" shrieked "Nothing of the kind. Whistler. Why should I spoil the effect of a good linen collar with excellent lines by sticking on a foolish little piece of flimsy lawn?" And the dinner proceeded .- Boston Herald.

THE FIRST TASTE Learned to Drink Coffee When a Baby

If parents realized the fact that coffee contains a drug-caffeinewhich is especially harmful to children, they would doubtless hesitate before giving the babies coffee to

drink. "When I was a child in my mother's arms and first began to nibble things at the table, mother used to give me sips of coffee. As my parents used coffee exclusively at meals I never knew there was anything to drink

but coffee and water. "And so I contracted the coffee habit early. I remember when quite young, the continual use of coffee so affected my parents that they tried roasting wheat and barley, then ground it in the coffee-mill, as a substitute for coffee.

"But it did not taste right and then went back to coffee again. That was long. before Postum was ever heard of. I continued to use coffee until I was 27, and when I got into office work, I began to have nervous spells. Especially after breakfast I was so nervous I could scarcely attend to my correspondence.

"At night, after having coffee for supper, I could hardly sleep, and on rising in the morning would feel weak and nervous.

"A friend persuaded me to try Postum. My wife and I did not like it at first, but later when boiled good and strong it vas fine. Now we would not give up Postum for the best coffee we ever tasted.

"I can now get good sleep, am free from nervousness and headaches. I recommend Postum to all coffee drinkers.

"DRYS" FAVOR POSTAL BANK.

Sayre (Special). - The platform adopted by the Pennsylvania State Prohibition convention, reaffirms allegiance to the National Prohibition

It affirms that the liquor traffic made: s not a business; that the license system is a crime and a financial ailure, in that it places a burden of taxation on the Commonwealth which exceeds its revenues, and declares for the enactement of State and national laws prohibiting the manufacture, transportation, imporation and exportation of intoxicat-

ing liquors as a beverage. The platform also favors the election of the President and Vice President of the United States by a direct vote of the people.

No specific local option plank is incorporated in the platform, but favors all movements that have for their object the overthrow of the liquor traffic. It demands further the immediate prohibition of the liquor traffic in the District of Columbia and at all other places under Federal jurisdiction.

The establishment of postal saving banks is favored, as it is also the enforcement of the law requiring instruction in the public schools of physiology and hygiene with reference to the effect of alcoholic liquors and narcotics upon the human sys-

More Than Quinine.
Quinine is simply one of the products of the Cinchona Bark, and the drug which is used in Grove's Tasteless Chill Tonic contains more of the active principles of Cinchona Bark than ordinary Quinine. Everyone knows that Whole Wheat and Graham Flour contain more nutriment than ordinary white flour, as part of the properties of the wheat are lost in rendering the flour white. This same thing is true of Quinine, and the drug used in this preparation is a special product which contains more valuable properties than ordinary Quinine. The Standard for 30 years. 50c.

Limbs Below the Knees Were Raw— Feet Swollen—Sleep Broken— Cured in 2 Days by Cuticura.

"Some two months ago I had a humor break out on my limbs below my knees. They came to look like raw beefsteak, all red, and no one knows how they itched and burned. They were so swollen that I could not get my shoes on for a week or more. I used five or six different remedies and got no help, only when applying them the burning was worse and the itching less. For two or three weeks the suffering was intense and during that time I did not sleep an hour at a time. Then one morning I tried a bit of Cuticura. From the moment it touched me the itching was gone and I have not felt a bit of it since. The swelling went down and in two days I had my shoes on and was about as usual. George B.
