SCATTERING VOTES.

All Candidates for President Get Recognition in Centre County.

The six candidates for president received recognition at the polls in Centre county, Debs, candidate appeared, and in some instances a candidate was supplied.

The seven votes cast for Col. D. F. Fortney, for parties presumably favoring Taylor's election. This circular letter stated in effect that the Prohibition organization in the county wished its knowledge of the Prohibition leaders or Mr. Fortney, and was r pudiated by them.

The scattering votes not in the table above are noted here

Put Out of Commission.

Abernethy was supposed to influence people by a brusqueness amounting to absolute rudeness. It is related that one day a very voluble lady took her daughter, who was ill, to see him. "Which of you two wants to consult

me?" said Abernethy. "My daughter," replied the elder wo-

Abernethy then put a question to the girl. Before she had a chance to reply her mother began a long story. Abernethy told her to be quiet and repeated his question to the girl. A second time the woman began a story, and a second time he told her to be quiet Then she interrupted him a third time.

"Put your tongue out," he said to the mother. "But there's nothing the matter with

me," she exclaimed. "Never mind, put your tongue out," he commanded.

A Queer Complication.

In Sydney, a town of 500,000 inhabitants, one can get nothing to eat on a Sunday. Certain restaurants supply time the guests are in danger of being arrested. Once an Italian was in such a restaurant on Sunday when suddenly the police entered. The Italian was promptly pushed by the proprietor into a room where a waitress happened to room the police invaded, but the waitress saved the situation by declaring that the young man was her fiance. The young man, by the way, had been married some time. He thought that he had deceived the policeman; but, as a matter of fact, he had got out of the frying pan into the fire. One fine day the waitress called him before the courts and claimed \$2,500 for breach of promise. The Italian had to pay. And then came the worst of all. His wife sued for a divorce and shortly after married another man.

Tackle This One.

The following paragraph of a hundred words is an excellent test in pronunciation. Try it first, and then go over it again, every word, in company with a good dictionary:

"Cleopatra, isolated in the oasis. soon became acclimated and had ample leisure to contemplate all the economic details of her inextricable sword. The wound resisted the allopathic misogynist, who gave a courteous diagnosis and humbly craved precedence for a tiny ldyl in the form of a vase with an aesthetic acousting apparatus. This told the news like a book, but it might have been a dog living in squalor from wrote down his address. She ate ber breakfast and then fraternized with a national expert in appendicitis, who attended the obsequies."

A Plot That Failed.

A story of a plot to kidnap Queen Victoria and turn England into a republic is told in Peter Latouche's book, "Anarchy; Its Methods and Exponents." This coup d'état was planned to take place in 1888, the year of the great dock strike in London, but was frustrated by the success of the strikers and the unexpected sympathy and help shown them by the moneyed classes. This did much to conciliate the masses, on whose help the revolutionists relied.
