Catarrh Twenty-five Years---

Had a Bad Cough Miss Sophia Kittlesen, Evanston, Ill.,

writes:
"I have been troubled with catarrh for nearly twenty-five years and have tried many cures for it, but obtained very little elp.

"Then my brother advised me to try Peruna, and I did.

"My health was very poor at the time I began taking Peruna, My throat was very sore and I had a bad cough.

"Peruna has cured me. The chronic

catarrh is gone and my health is very much improved. "I recommend Peruna to all my friends who are troubled as I was."

Belief And Blisters. It is not generally known that thought may produce a blister on the hand or an ulcer on the foot, as well as many other actual physical changes in one's organism which are little short of miraculous. I have no doubt that St. Francis of Assisi received the stigmata of the crucifixion on his hands and feet, as historically described. I have no doubt, because its possibility has been put to the proof within the past few years, and by a friend of mine whom I will name. Prof. Krafft-Ebing, of Vienna, told a young woman he would place a small fly-plaster upon her which would produce a blister in a few hours. He actually only put a postage stamp upon the skin, without her knowledge, and covered it over so securely with bandages that she could not interfere with it. The blister appeared as suggested .-

Disappointed.

Dr. Frederick Peterson, in Collier's.

At a small dinner of a legal association held in Washington not long ago one of he speakers told of a farmer's son in Illinois who conceived a desire to shine as a legal light. Accordingly he went up to Springfield, where he accepted employment at a small sum from a fairly-well-known attorney. At the end of three days' study he

returned to the farm. "Well, Bill, how'd ye like the law?" asked his father.

"It ain't what it's cracked up to be," responded Billy gloomily. "I'm sorry I learned it."

"Six years ago I was in a very bad condition," writes a Tenn. lady, "I suffered from indigestion, nervousness and insomnia. "I was then an inveterate coffee

drinker, but it was long before I could be persuaded that it was coffee that hurt me. Finally I decided to leave it off a few days and find out the truth.

"The first morning I left off coffee I had a raging headache, so I decided I must have something to take the place of coffee." (The headache was caused by the reaction of the coffee drug-caffeine).

'Having heard of Postum through a friend who used it, I bought a package and tried it. I did not like it at first, but after I learned how to make it right, according to directions on pkg., I would not change back to coffee for anything.

"When I began to use Postum ! weighed only 117 lbs. Now I weigh 170, and as I have not taken any tonic in that time I can only attribute my recovery of good health to the use

of Postum in place of coffee. "My husband says I am a living advertisement for Postum. I am glad to be the means of inducing my many friends to use Postum, too."

Weekly Review of Trade and Latest Market Reports.

Bradstreet's says:

Enlargement and expansion are still the dominating influences in trade and industry, and the volume of sales and of orders booked by wholesalers and manufacturers continues to show gains, particularly in the commercial and manufacturing centers. Still, certain evidences of irregularity are found in the reports that mild weather is restricting sales of winter goods at retail in the above sections, and Southern advices are that improvement in that section is rather slower than expected, and that low cotton prices and holding of that product by producers are checking trade and collections. Idle cars are reported growing fewer in number rapidly. Heavier buying of pig iron is reported at the East and Lake markets are more active, but Pittsburg reports transactions smaller. Prices are higher.

The beginning of the tariff hearings at Washington brings to the attention of the business community the fact that revision of some kind is promised and that Congress, early in 1909, will have this matter in di-

Seedless Apple Discovered.

A seedless apple tree, bearing a like the sheep-nose, has been found on the farm of C. E. Bell, at Esk-

Samples of the apple were received by the State Horticultural Society, and next spring an effort is to be made to propagate them by grafting the buds from this tree, the same as grafting is done in other trees. It is believed a variety of seed;

less apples will be developed. The tree on Mr. Bell's farm has been bearing three years. There is no sign of a seed, but there is a small core, which apple men think can be entirely removed by careful propagation.-Chicago Inter Ocean.

## HAD BAD ITCHING HUMOR.

Limbs Below the Knees Were Raw-Feet Swollen-Sleep Broken-Cured in 2 Days by Cuticura.

"Some two months ago I had a humor break out on my limbs below my knees. They came to look like raw beefsteak, all red, and no one knows how they itched and burned. They were so swollen that I could not get my shoes on for a week or more. I used five or six different remedies and got no help, only when applying them the burning was worse and the itching less. For two or three weeks the suffering was intense and during that time I did not sleep an hour at a time. Then one morning I tried a bit of Cutieura. From the moment it touched me the itching was gone and I have not felt a bit of it since. The swelling went down and in two days I had my shoes on and was about as usual, George B. SIGN OF RETURNING CONFIDENCE

Parker M. White, the humorous advertisement writer, was talking in Pittsburg about the universality of advertising.

"Doctors, lawyers, clergymen," he said, "claim not to advertise, but, somehow or other, we see their advertisements occasionally. Am I not

"The millionaire proprietor of a patent tonic called on a well-known doctor one day.

"'Look here,' he said, 'you are the Dr. Leroy Fisher who is attending Senator Stoxton, are you not?" "'I am, sir,' the physician answer-

"'Well,' said the tonic man, what'll you take to put on the daily bulletins that you give out about the Senator this sentence-"Use Blood Bitters. They Ward Off Disease?" "'Why man,' said the famous doctor, indignantly, 'I wouldn't do that for anything. Those bulletins are not advertisements.'

"The other chuckled harshly.
"'Ain't they?' he said. 'Then take
your own name off 'em.'"

Lord Roberts On "Perfect Liberty." "Every man ought to be trained so that he can defend his home in time of need," said Lord Roberts, at the Mansion House, when city scooolboys were presented with the trophies, medals, and prizes won at Bisley and elsewhere during the

year. "That," he added, "is what I call perfect liberty. It is a puzzle to me why this country does not take up the question of training seriously. We have compulsory education, and after that a boy is cast adrift; but that is just the time when he wants looking after. If we want to ge! sweet apple that looks something men who will be a credit to the country, we must look after them while they are boys.

"I consider that every single boy in the country ought to be taught a certain amount of drill and rifle shooting, and then, when he became a man, he would at once fall in with any law that might be passed for universal training in this country.' -London Express.

Chicago The Insanitary,

In a lecture before the Chicago Medical Society, Health Commissioner Evans declared Chicago the most

insanitary city in the country. "Tuberculosis, bronchitis, and kindred ailments are ravaging the city," he said. "People are housed better in Joliet prison or any other prison than in Chicago. Overcrowding of flats without proper ventilation is spreading disease broadcast. dirt, smoke, and soot in the air help it along. Every person's lungs here has a fine coating of coal dust, and 'Why not?" asked the amused it is only the strong who can withstand it for years. A Chicagoan can be identified in any part of the world

by his lung tissue alone. 'Laws against smoke should be enforced and the people civilized up to sleeping in rooms without heat, with windows open. Conditions among the wealthy are vile in this respect."—New York World.
