John G. Bailey, one of the board of years, died Wednesday of last week, due to paralysis, mention of which was made in the last issue of the Reporter. Interment was made Saturday, at Pine Grove Mills. His age was sixty-four years.

Mr. Bailey was the son of John Goheen and Nancy Bailey, and was born near Pine Grove Mills.

He was married in 1870 to Miss Nancy McWilliams, daughter of Mr. and Mrs. Henry McWilliams, of Ferguson township, who survives with two sons and one daughter, as follows: Dr. Frank Bailey, of Milton; John H., on the Bailey farm, and Miss Mary, at home. He also leaves the following brothers and sisters: Armstrong Bailey, of Oregon; Samuel, of Boalsburg; W. Scott, of State College; Joseph, of Fort Scott, Kan.; G. Wash, of Downs, Kan.; Mrs. Mary Hewitt, of Kausas City, Mo.; Warren, of Springfield, Ill., and Mrs. D. Ross Gregory, of Neffs Mills.

MRS. JOHNAW. RUNKLE.

Mrs. Runkle, neejElizabeth Minerva Calvin, Keemer and Cyril.

In speaking of the death of Mrs. John Lose, of Buffalo Run. Runkle, the Middleburg Post says: She led a useful devoted life that gave sunshine and comfort to her family, her friends and neighbors. Her unceasing, untiring efforts of life were devoted to the domestic duties of her family, and her zeal never abated until sickness compelled her to take her bed | years, three months, three days. Surfrom which she never arose. She lived a devoted worshipper of her dren, Jere Roan, of East Liberty, and Maker and she died with prayers on her lips."

ADOLPHUS FRANK.

A very sudden death, in Bellefonte was that of Adolphus Frank, of Milesburg. He had been spending some Belle fonte; John and James, members James, of Snow Shoe. of the United States Coast Artillery located at Fort Howard, near Balti-Clyde and Clair, of Mile-burg.

ADROITLY TURNED.

ft Was a Small Hole, but the Englishman Crawled Out.

"I was watching a number of young Englishmen shooting at a target recently while I was on the other side," remarked an American army officer, "and at my elbow was a p amous Britisher of the old a best who, after shaking his head it is made, at the frequent misses that length said to me: That only goes to show how the young men of England are degenerating. All this sort of thing reflects on the British nation."

"'It certainly is mighty poor shooting,' I agreed.

"At that the old gentleman flared up and exclaimed: 'I say! Perhaps you can do better, sir?"

"'If I couldn't shoot better than that, I'd be ashamed to eat breakfast,' I an-

"Thereupon I was handed a rifle and told to show what I could do. I shot, completely, so the laugh was on me, but before they could laugh twice I plugged the bullseye six times in rapid succession. At this the old gentleman for ten days of pneumonia. He was a was a trifle disconcerted, but he comnative of Centre county, having been plimented me by saying: 'Really, now, you can shoot a bit, can't you? I say, there's nothing like a Yankee marksman with an English gun, is there, old chap? "-Los Angeles Times.

A GREAT COMBINATION.

When Husband, Wife and Mother-inlaw Co-operate.

Shortly after his marriage, which took place in 1880, John Burns, the British labor leader, settled down as a journeyman engineer in Battersea and twenty years after confessed that he was the first engineer to make with his own hands an electric tram car in Great Britain. In those days, however, people did not believe that electric traction was possible, and Burns had to take the dynamo and tram to the Crystal palace and run the latter round the grounds for six months before people could be induced to believe in the novelty.

But the people were so nervous that, although the charge was only sixpence, none of them would venture in the newfangled invention. Then Burns was struck with a brilliant idea. He said to his wife, "You have got to come and get into the first electric tram car as a decoy duck for the others." This was only temporarily successful. So Burns brought along his mother-inlaw, "and," said the energetic labor leader when relating the incident. 'when a husband, a wife and a motherin-law co-operate success is assured." -London Tit-Bits.

Towers.

The patient architect had just succeeded in getting Mrs. Drippingold to decide between the charms of renaissance, classic and Queen Anne for the plans of her magnificent new country

"The only details I ain't goin' to leave to your discretion," said the wealthy lady, "is the matter of towers. I want plenty of towers that folks can see for a long way off when they're ridin' by."

"But what kind of towers do you want?" inquired the unfortunate architect-"Norman, Gothic"-Mrs. Drippingold closed the English

novel of high life on which her soul had been feeding. "Why, ancestral towers, of course,"-

Friendly Advice.

THE PARACHUTE.

Leonardo da Vinci Was the First One to Suggest It.

Credible accounts exist of an English Benedictine monk, Oliver of Malmesbury, in the eleventh century having tried to fly by precipitating himself from the height of a tower with the assistance of wings attached to his arms and his feet. It is said that, havhig gone along a little way, he fell and brake his legs. He attributed his acci-Cent to failure to provide his apparatus with a tail, which would have helped preserve his equilibrium and made his descent a gentler one.

In the sixteenth century Leonardo da Vinci first demonstrated that a bird, which is heavier than the air, sustains itself, advances in the air, "by rendering the fluid denser where it passes than where it does not pass." In order to fly it has to fix its point of support on the air. Its wings in the descending stroke exert a pressure from above dows, the reaction of which from below up forces the center of gravity of its body to ascend at each instant to the height at which the bird wishes to maintain it. Some sketches which have come down to us prove that Leonardo occupied himself, like Oliver of Malmesbury, with giving man the power to fly by the assistance of wings suitably fixed to the body.

We owe to Leonardo also the invention of the parachute, which he described in the following terms: "If a man had a pavilion each side of which was fifteen braces wide and twelve braces high he might cast himself from any height whatever without fear of danger." It may be said, too, of Leonardo da Vinci that he was the first to suggest the idea of the screw propeller.

A SAUCY DUCHESS.

Her Audacious Fight For Gay and His "Beggars' Opera."

When the "Beggars' Opera," by Gay, was produced in 1728 it took positively by storm. The king still clung to Handel, but the nobility, with the Duchess of Queensberry among them, flocked rapturously to the "Newgate pastoral." The "Beggars' Opera" had a run of sixty-two nights, unprecedented in those days, and as one result of its success Handel became bankrupt. Suddenly there came an order from the lord chancellor to stop the new piece. down to the palace three times a week Why, is not exactly known unless it was because the prime minister considered himself to be too faithtfully represented therein. However that may have been, the theater had to be closed, whereupon the Duchess of Queensberry took up Gay's cause and vehemently championed it.

Very busy was she in those days, driving about in her coach asking for guinea subscriptions for printing coples of the forbidden play. And so beedless was Kitty that she carried her list to the queen's drawing room itself and had the audacity to ask the king for a This was a little too much, and her grace was requested to withdraw from the court, Kitty announcing, with characteristic composure, that the command was very agreeable to her, as she had never gone there for her own diversion, but to bestow civility upon the king and queen.

Papua Island.

Papua island was so named by the Malays, and the word means "frizzled," in reference to the hair of the inhabitants. It is generally supposed that Papua or New Guinea was originally part of the mainland of Australia. It was discovered by the Portuguese in 1526, though it was probably sighted by A. Dabreu during his voyage fifteen years earlier. The Australian government, realizing the danger that would arise if an enemy seized land so near their coasts, frequently urged England to annex the eastern portion of the island, and after two or three unauthorized annexations a British protec-

Clipping Their Wings. The costume of the Pu Yuan Pen-jen vomen in the Shan states is very striking, consisting of a cloth hood, an open jacket and a pair of short white trousers reaching barely to the knee. But the most important though the least noticeable part of their costume is their colored cloth galters. These the women are obliged to wear, as without them it is believed they would be able to fly away, leaving their husbands and sweethearts sorrowful.

Sweet and Low.

A young man named Sweet engaged to marry a young woman named Lowe. A few Sundays previous to the wedding the happy couple attended church together, and as they walked along the aisle the choir began singing the song "Sweet and Low," entirely unconscious of the musical pun that was being per-

Thrifty. "Well, parson, is your flock lib'ral in their 'nevolences?"

"Liberal? Well, I should say dey is not that. Why, when I asted them to sing 'Ole Hundred' dey done sung 'The Ninety and Nine.' "-Harper's.

"It takes a baby mos' two years to learn to talk," said Uncle Eben, "an' den it takes de res' of its lifetime to learn to keep f'um talkin' too much."-Washington Star.

Two Bad Bites. Diogenes being asked "What is that beast which is the most dangerous?" replied, "Of wild beasts the bite of a slanderer and of tame beasts that of the flatterer."

Those who want friends to whom to open their griefs are cannibals of their own hearts.—Bacon.
