The Weather Man.

The weather man has not changed his fickle-mindedness. Thursday the two inches of snow that fell the day previous disappeared, leaving a credit of water fall of sixty-five one hundredth inches. The range of mercury was from twenty-eight to eighteen degrees. Friday the sun shone part of the time, the temperature rising to forty-four degrees with eighteen degrees for the coldest. Friday evening rain set in, the fall being ten one hundredth inches. Saturday was cloudy, the roads muddy, and conditions generally disagreeable. The range of temperature was forty-four to thirty-five degrees, and the rainfall ten one hundredth of an inch. Sunday was a continuation of Saturday's condition, the temperature being about the same, and rainfall about seventeen one hundredth inches.

Monday was the warmest during any day this winter, fifty-nine and thirty-eight degrees being the two extremes in temperature for that day, and there was also a rainfall of eighteen one hundredth inches. Tuesday was but slightly cooler than the day previous, the thermometer registering fifty-seven and thirty-one degrees, with eighty-five one hundredth inches of rain. Tuesday evening a high wind prevailed, and during the night mercury fell to fifteen. Wednesday morning was bright with snow flakes flying.

The Borough Bought Pipe.

The borough authorities purchased thirty-seven hundred feet of black iron pipe to carry the water from Laurel spring to the reservoir. The pipe are four sizes, 5, 4, 3 and 2 1/2 inches in diameter. They are second-hand steam pipe, and are represented by the Chicago House Wrecking Company to give as good service as new pipe. All threads have been recut, and missing fixtures are new.

A number of unions, cut-offs, etc. will be placed here and there, so that in case of necessity repairs may be made at the least possible cost at any time in the future.

The total cost of pipe, fittings and freight will be \$670, or more than \$350 less than new pipe would have cost.

The pipe is due to arrive here within a short time, and in the mean time the council is making arrangements to have it delivered along the pipe line route.

Words of Lincoln.

Church bells were rung at intervals during the day, children marched and a brass band furnished music.

On Lincoln Day an old landmark in Boalsburg, in the shape of a huge locust tree, was removed. This tree was in all probability over one hundred years old, as the oldest residents of the town only remember it as a large tree. It was on the property recently purchased by J. H. Meyer. As it was scarcely strong enough any more to defy the storm, it was thought advisable to remove it for fear of accident, as it occupied a prominent place on the public sidewalk. The entire tree was uprooted by means of an engine. A chain was fastened to the trunk of the tree about twenty feet from the base, and the other end was attached to the engine. W. C. Cori and W. B. Young were the workmen. Among the crowd that gathered to see the sight were those who felt like saying, "Woodman spare that tree, Touch not a single bough. In youth it sheltered me, and I'll protect it now."

Does Not Color Hair

Ayer's Hair Vigor, as now made from our new improved formula, does not stain or color the hair even to the slightest degree. Gray hair, white hair, blonde hair is not made a shade darker. But it certainly does stop falling hair. No question about that.

Does not change the color of the hair. Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

Indeed, we believe it will stop every case of falling hair unless there is some very unusual complication, something greatly affecting the general health. Then you should consult your physician. Also ask him about the new Ayer's Hair Vigor. —Made by the J. C. Ayer Co., Lowell, Mass.—
