

PERUNA

For Catarrh of the Throat of Two Years' Standing.

"I was afflicted for two years with catarrh of the throat. At first it was very slight, but every cold I took made it worse.

"I followed your directions and in a very short time I began to improve. I took one bottle and am now taking my second. I can safely say that my throat and head are cleared from catarrh at the present time, but I will continue to take my usual dose for a spring tonic, and I find there is nothing better."—Mrs. W. Pray, 260 Twelfth St., Brooklyn, N. Y.

NO NEED TO TAKE CHANCES.

There is a Sure Way of Knowing Good Paint Material.

There is really no need whatever for any property owner to take chances in the selection of his paint materials. It doesn't cost a cent to learn how to be on the safe side. Certainly every property owner has enough at stake to find this out.

A complete painting guide, known as Houseowners' Painting Outfit No. 49 can be had free by writing National Lead Company, 1902 Trinity Building, New York. This company is the largest maker of pure white lead in the world. Its Dutch Boy Painter trademark is famous as a guarantee of purity and quality. The outfit includes a book of color schemes, for either interior or exterior painting, a book of specifications, and a simple little instrument, with directions for testing the purity of paint materials.

Earlier "Freaks" Were Sillier.

The eccentric, of course, is still among us, but even he is not so common a type as he once was, and one may have to wait possibly for some years before finding a gentleman ready to imitate Mr. "Jerusalem" Whalley, who earned his sobriquet in consequence of a heavy bet that he would walk (except where a sea passage was unavoidable) to Jerusalem and back within 12 months, and he won his wager, starting on September 22, 1788, and returning on June 1, 1789. Now and again even today the world is electrified at the story of some spendthrift who has dissipated an ample fortune in foolish ways; but probably no modern lunatic of this class has ever equaled John Mytton, of Halston, of whom it was said that "if Mytton had had an income of £200,000, he would have been in debt in five years." It is stated that within the last 15 years of his life he squandered full half a million sterling, and sold timber to the amount of £80,000, the unfortunate man dying in the King's Bench Prison in the year 1834, at the comparatively early age of 38—Queen.

Not Adequate Reward.

"I suppose that you feel happy at the presentation of a medal by Congress."

The heroine blushed.

"I do not wish to appear ungrateful," she replied, "but considering the fact that I had to let Cannon kiss me, I think there should have been two medals."—Philadelphia Ledger.

SICK DOCTOR

Proper Food Put Him Right.

The food experience of a physician in his own case when worn and weak from sickness and when needing nourishment the worst way is valuable:

"An attack of grip, so severe it came near making an end of me, left my stomach in such condition I could not retain any ordinary food. I knew of course that I must have food nourishment or I could never recover.

"I began to take four teaspoonfuls of Grape-Nuts and cream three times a day and for 2 weeks this was almost my only food; it tasted so delicious that I enjoyed it immensely and my stomach handled it perfectly from the first mouthful. It was so nourishing I was quickly built back to normal health and strength.

"Grape-Nuts is of great value as food to sustain life during serious attacks in which the stomach is so deranged it cannot digest and assimilate other foods.

"I am convinced that were Grape-Nuts more widely used by physicians, it would save many lives that are otherwise lost from lack of nourishment."

Absolutely the most perfect food in the world. Trial of Grape-Nuts 10 days proves. "There's a Reason."

HOLD UP FARMER.

Wife And Daughters Frightened By Revolvers.

Shamokin.—Five masked men broke into the home of Madison Vought, near Elysburg, and at the point of revolvers compelled him to turn over \$700, which he had in a safe. Two of the gang stood guard to prevent any members of the family from escaping and giving an alarm. Three men immediately repaired to Vought's bedroom on the second floor. They awakened him and with revolvers compelled him to accompany them to the first floor, where Vought kept money. The men told the farmer that if he did not open the safe and take out the contents, which they said he received from insurance collections and the sale of horses, they would kill him.

He complied with the command. The burglars told him that they would keep two men on guard until morning and that if he attempted to leave the place they would shoot him. Vought endeavored to telephone to Elysburg, but found that his telephone wires had been cut by the thieves.

Owing to the men being heavily disguised it was impossible for Vought to recognize them, but it is believed that they are persons who were aware of the fact that money had been received and that Vought kept it in his safe. He was the only male person in the house, his wife and two daughters being the other persons living there.

Mrs. Vought came to the top of the stairs and started to come down to her husband, but he told her to go back to the bedroom, fearing the burglars might add other crimes to their already bold one.

FIRE AT BLUE BALL.

Blaze In High Wind Burns Fifty Fine Houses.

Lancaster.—Fire of incendiary origin totally destroyed the Sales Exchange stable of George K. Diller, one of the best known horsemen in the State at Blue Ball, entailing damages to this and adjoining properties aggregating \$22,000. Fifty high grade horses intended for sale were burned to death.

FIRE BURNS CAMP GROUNDS.

Lewistown.—Fire believed to have been started by tramps, destroyed nearly all of the 250 wooden cottages on the grounds of the Juniata Valley Camp Meeting Association at Newton Hamilton, near here. The hotel and a few isolated buildings alone escaped the flames.

Because of a very high wind nothing could be done to check the fire and all efforts were devoted to saving the town. Fiery embers were blown here by the wind and two or three buildings ignited, but there was no serious damage.

Let Ax Fall On Worker's Head.

South Bethlehem.—While Charles Fenstermacher and George Newhart, of this place, were digging a sink hole at Emanus. Fenstermacher was nearly scalped by a sharp ax. Before the injured man was dragged out of the hole he was nearly dead from loss of blood.

TRIES TO BURN CHILDREN.

Woman Pours Kerosene Upon Herself And Three Little Ones.

Columbia.—The timely response of neighbors prevented a horrible tragedy here, when Mrs. George Hinkle poured kerosene upon herself and three children and then set fire to her home.

The agonizing screams of children aroused the citizens of North Third Street and those who arose and ran into the street found the three children, attired in night clothes, standing in front of the Hinkle home. The youngest child, a girl of 3 years, lisped the story that their mother had tried to burn them.

Men rushed into the house and found the woman calmly looking at the fire in the dining room. The woman had placed a pile of newspapers in the center of the room, covered it with kerosene, then applied the liquid to the children, after which she placed matches to the paper.

The oldest of the trio opened the door and fled from the room followed by the others. They ran into the open and screamed for aid. Men forced their way into the house and extinguished the flames, which were rapidly gaining headway.

Despondent, Kills Himself.

Hazleton.—Thomas W. Schaffer, of Weston, 70 years old, committed suicide by shooting himself in the neck. TOTAL LOSS OF HAIR

Seemed Imminent—Scalp Was Very Scaly and Hair Came Out by Handfuls—Scalp Cleared and New Hair Grown by Cuticura.

"About two years ago I was troubled with my head being scaly. Shortly after that I had an attack of typhoid fever and I was out of the hospital possibly two months when I first noticed the loss of hair, my scalp being still scaly. I started to use sandalwood cures to no effect whatever. I had actually lost hope of saving my hair at all. I could brush it off my coat by the handful. I was afraid to comb it. But after using two cakes of Cuticura Soap and nearly a box of Cuticura Ointment, the change was surprising. My scalp is now clear and healthy as could be and my hair thicker than ever, whereas I had my mind made up to be bald. W. F. STONES, 5612 Broad St., Pittsburg, Penn., May 7 and 21, '08."
