DYSPEPSIA

MUNYON'S DYSPEPSIA REMEDY acts almost immediately on the Gastric Juices and gives the stomach tone and strength to digest almost everything that has been put into it. It soothes sore and irritated stomachs that have been impaired by physic and injurious drugs. We cannot too urgently advise all persons who suffer from any of the following symptoms to try this remedy: Distress after eating, bloating of the stomach, Rising of the food, Waterbrash Sour Stomach, Heartburn, Loss of Appetite, Constipation, Dizziness, Faintness, Palpitation of the heart, Shortness of breath, and all affections of the heart caused by indigestion. We want every discouraged and despondent sufferer from Dyspepsia or Indigestion to cast aside all other medicine and give this remedy a trial. If it fails to give satisfaction I will refund your mobey.

New York has nearly 5,000,000 acres of meadow land upon which more than 6,000,000 tons of hay are raised each year.

The German War Ministry has an armored automobile which will carry machine guns, travel at a high speed and be invulnerable against ordinary field gun shells.

The Geological Survey has opened at Denver a permanent branch office.

NOT DRUGS Food Did It.

After using laxative and cathartic medicines from childhood a case of chronic and apparently incurable conetipation yielded to the scientific food. Grape-Nuts, in a few days.

"From early childhood I suffered with such terrible constipation that I had to use laxatives continuously, going from one drug to another and suffering more or less all the time.

"A prominent physician whom I consulted told me the muscles of the digestive organs were partially paralyzed and could not perform their work without help of some kind, so I have tried at different times about every laxative and cathartic known, but found no help that was at all permanent. I had finally become discouraged and had given my case up as hopeless when I began to use the pre-digested food, Grape-Nuts.

"Although I had not expected this food to help my trouble, to my great surprise Grape-Nuts digested immediately from the first, and in a few days I was convinced that this was just what my system needed.

"The bowels performed their functions regularly and I am now completely and permanently cured of this

"Truly the power of scientific food must be unlimited." "There's a Rea-

WARNING TO FRUIT GROWERS.

Don't Spray Trees While In Blossom, -Zoologist H. A. Surface.

The owners of the fruit farms who intend spraying their trees to premoth larva are advised by Prof. Surface, of the Division of Economic Zoology of the Pennsylvania Department of Agriculture, not to spray the blossoms, but to wait until after the petals have dropped, or more than three-fourths are down. He also says injury will be caused to the blossoms if they are sprayed when open, but the spraying should not be delayed after the blossoms have fallen. To secure the best results the spray must be applied within six days after the blossoms fall, and a second spraying should be done ten days or two weeks after the first application to prove effectual.

The following are said by the department to be the objections to spraying trees when in bloom:

There is no definite pest for which the spray is applicable at that time, and each spraying should be for something definite.

The very young fruit is liable to be injured by the spray liquid fall-ing upon it at this time. Spraying when in bloom is a very sure way of thinning the fruit crop, but it is very unscientific and unsatisfactory.

Spraying blossoms with poison results in the destruction of bees. Bees are necessary for fertilization and setting of the fruit.

The delay of only a short-time, or until just after the blossoms fall, gives the proper time for spraying for the codling moth and for plant diseases and does not result in the destruction of fruit or bees.

The proper spraying material is the Bordeaux Mixture, to which an arsenical poison such as Paris green or arsenate of lead is added. There are two spraying strengths for this liquid, according to the hardiness of the tree or plant to be sprayed. Spray the apple, pear, quince and potato with the strong formula which calls for three pounds of bluestone and four pounds of quicklime in fifty gallons of water, with one or two pounds of arsenate of lead added to this. If Parks green is used, instead of the arsenate of lead, onethird of a pound should be used to

each fifty gallons. The weak formula calls for onehalf of the above quantities of blue-stone, lime and arsenate of lead in fifty gallons of water. This is used on peach and plum trees on account their tender bark, and on similar delicate plants. Peach and plum trees do not need to be sprayed immediately after blossoming, but these and the grapes should be sprayed for wormy fruit, making the application after the fruit reaches the size of buckshot.

TWICE WIDOWED AT 22.

Scranton Woman Loses Two Husbands By Accident

Scranton .- Mrs. William Llewellyn has the remarkable experience months. Thursday night her husband was returning home from the house of a relative when he was run down by a freight train. His head was found several yards from the

ARRESTED IN RIVER.

Alleged Horse Thief Dives In Vain To Escape Pursuers.

Reading .- A man giving his name as George Hill was arrested in the vent diseases and kill the codling Schuylkill River in Birdsboro, by Willis Quigley, who followed Hill into the river when the latter was being chased to answer a charge of horse stealing at Pottsville.

The local police received a telephone message from Pottsville to be on the lookout for a bay horse and top buggy, which had been hired out by a Pottsville liveryman on Monday. It was found that a team answering the description came to a Birdsboro hotel on Tuesday and was abandoned by the driver.

Hill gave the pursuers a merry chase through fields, over hills, and, arriving at the river bank dove off of a high rock into the stream. Young Quigley leaped in after him and caught hold of his coat tail and after hard work pulled him back to shore where the officers took charge of him. The accused was given dry clothing and then brought to Read-

Hero's Widow Inherits Estate.

Pottsville .-- Notified that an aunt had died in Dublin, Ireland, and left her \$75,000, Mrs. John Bishop and her sons, Joseph and William, are preparing to leave for Ire'and th's month, to claim the estate. Mrs. Bishop is the widow of a first lieutenant of Company F Fourth Infantry, who served during the Porto Rico campaign of the Spanish-American War. He died shortly a'ter his return, and his widow has been a pensioner

Not His Place. Judge Frederick E. Crane, the young and brilliant jurist who presided over the Thornton Hains trial, has a way of illuminating with an apt anecdote a point he wishes to make.

In one of the early cases he so brilliantly conducted before his elevation to the bench, Mr. Crane said said to an obstinately reticent wit-

"You seem bent on giving the court all possible trouble. You are like the man who sat in the dock one Sunday morning with a bandag-

'Prisoner,' said the magistrate to this man, 'you are charged with having been drunk and disorderly. What say you - guilty or not guilty?" "'That's wot you're paid to find out,' growled the prisoner. 'I ain't got no call to help ye do yer work.'"—Philadelphia Bulletin.

AN INTERESTING PAINT TEST.

There is a very simple and interesting chemical test by which to deteet impurity in paint materials. Thousands and thousands of people all over the country are making this test. It is a sure way to safeguard against the many adulterated white leads which are on the market. Any one can make the test-all that is needed is a simple little instrument which can be had free by writing National Lead Company, 1902 Trinity Building, New York, and asking for Houseowners' Painting Outfit No. 49. The Outfit also includes a book of color schemes for exterior or interior painting, or both if you wish, and a set of specifications. No houseowner should make any arrangements for painting till he gets this outfit.

One can't expect a satisfactory painting job without pure white lead. There is a way to make sure you're getting a pure white lead-without testing it. See that the keg bears National Lead Company's famous Dutch Boy Painter trademark, which is a positive guarantee of purity. Your dealer probably has this white lead. If not let National Lead Company
