James H. Runkle, of Tusseyville, was a caller at the Reporter office Friday, having come to town on a bit of business. His mother, who is past seventy-five years of age, it pleased him to say, is in very good health, and on leaving home he found her weeding in a well-kept garden almost exclusively superintended by her.

Among the graduates of Bucknell Institute this year was Miss Bess Weber, of Centre Hall. The graduates in the college this year numbered eighty-three. The stave mill that was in operation in Decker Valley, in the Seven Mountains, on the John Decker timber tract, for the past two years, has been shipped to Morrell, Blair county, by the superintendent Charles W. Reeder. The mill worked up a large quantity of timber, and all the shipping was done from Centre Hall, and most of the hauling of the product from the mill was done by J. O. Stover. The mill referred to is one of a number owned by a firm making stave manufacturing a specialty.

Gardening is one of the pleasures of Banker W. B. Mingle, in Centre Hall, and there are few spots in any town that present a better appearance than the surroundings—a lawn and garden—of his home. There is not only an effort made to have the garden at all times free of weeds, the edges trimmed up to perfection and bordered with ornamental plants, but the garden is made yield abundantly early and late. Tomatoes are now hanging on the vines, and cabbage with heads well formed and ready for use.

Children's Day Service.

A pretty Children's Day service was rendered in the Reformed church Sunday evening. On account of the heavy rainstorm in the early evening some of those who had part in the exercises were prevented from coming and the program was slightly impaired. All performed their parts well. The music was excellent, the school being assisted by the Christie Smith orchestra from Bellefonte.

The church was beautifully decorated with potted plants, bouquets of roses, laurel, ferns and rhododendron. The offering was devoted to Sunday School home mission work. The church was well filled with people interested in the exercises of the children, and were well pleased with the entire service.

The pastor, Rev. Daniel Gress, in his address, gave three purposes of the Children's day festival. Setting the child in the midst for the purpose of teaching an important lesson to those older in years, even as the Master did long ago. A second purpose is to discipline, educate and develop the children for the work of the church, and the higher work of the religious life.

The world today is giving more to the children than ever before. A third purpose of the Children's Day is to develop the missionary spirit in the child. To give in order to help save other children out of sin, and bring them into the fold of the Master.

John Stiver was the tenant farmer and he lost almost all his household furniture, thirty bushels of clover seed, fifty gallons of apple butter and all of his meat. The loss falls very hard on him as he carried no insurance whatever. The owner of the farm had \$1000 insurance on the house.

The family have taken up temporary quarters in an out building, formerly used as a wash house, until the house is rebuilt which will be done at once. The fire caught from a spark from the chimney alighting on the shingle roof.

Juniors Defeat the "Lions"

The Junior base ball team of State College, better known as the "Lions," made a trip to Centre Hall Saturday with the intention of tearing the good record of the local Junior team to shreds. The outcome of the contest resulted in a victory for the home team by the score of 13 to 8 and throughout the battle the lads from Colletown were not nearly as vicious as their sobriquet would indicate.

The rain which fell before the contest made it impossible for the pitchers to fully control the ball, and more or less wild pitching was the result. The "Lions" were unable to connect with Smith's delivery, and base hits for the locals were also few and far between. The one best wallop of the game goes to the credit of Paul Bradford. The little fellow found a dry spot on the ball, and with the bases all full, he drove the sphere to deep left, and when the shouting ceased, Paul was nestled on third while three runners crossed the plate ahead of him.

After the Juniors' game, Milesburg and Millheim lined up for the deciding game of a series which the two nines have been playing for the past few weeks, but rain interfered in the first half of the fourth inning, which made it necessary to call play. The score at that time stood 7 to 1, in favor of Milesburg.

FRIEND FARMER:

We wish to call your attention to the Weber and Columbia Wagons we have been offering you for the last few weeks through the columns of this paper.

In referring to the good qualities of these wagons we wish to say that nothing but the best of material enters into their construction; this combined with the best of mechanical skill, and the latest improved machinery designed especially for the construction of wagons, goes to make up these most complete and perfect wagons; not even the smallest details are overlooked.

The lumber used is selected by experienced men and is of four years' seasoning.

The axles are of the very best grade of hickory.

The hubs are the very best quality of white oak.

The spokes are strictly A 1 grade of oak and hickory mixed and driven in hot glue.

The fellos are oak and are thoroughly soaked in boiled oil before tires are set, and are joined with improved steel dowels, which prevents clipping at the joints.

They are exceptionally well ironed, light running and attractively painted, and in all a wagon that will give years of service.

We very cordially invite you to step in and examine these splendid wagons whether you are contemplating a purchase now or not. We want you to thoroughly understand their construction and see where they are better than the ordinary vehicle.

The important thing in buying a wagon is to know before hand what service it will give you; the important thing in selling them is to show you that, as well as we can, and then be sure that they are as good as we lead you to expect.
