

## MUNYON'S PAW-PAWPILLS

The best Stomach and Liver Pills known and a positive and speedy cure for Constipation, Indigestion, Jaundice, Biliaryness, Sour Stomach, Headache, and all ailments arising from a disordered stomach or sluggish liver. They contain in concentrated form all the virtues and values of Munyon's Paw-Paw Tonic and are made from the Juice of the Paw-Paw fruit. I unhesitatingly recommend these pills as being the best laxative and cathartic ever compounded. Get a 25-cent bottle and if you are not perfectly satisfied I will refund your money.—MUNYON.

PREPARED BY PHILIP J. MURPHY & JEFFERSON STS., PHILADELPHIA, PA.

The German Navy has adopted gyroscopic compasses for its warships.

FOR HEADACHE—HICKS' CAPSICINE  
Whether from Colds, Heat, Stomach or Nervous Troubles, Capsicine will relieve you. It's liquid-pleasant for a rapid stomach or its liquid-pleasant for a rapid stomach or its liquid-pleasant for a rapid stomach. Try it, loc., 25c. and 50c. at drug stores.

A Philadelphian has patented an attachment for locks to foil false-key burglars. Any movement of the bolt rings an electric bell.

Ask Your Druggist for Allen's Foot-Ease  
I used Allen's Foot-Ease recently, and have just bought another supply. It has cured my corns, and the hot burning and itching sensation in my feet which was almost unbearable, and I would not be without it now.—Mrs. W. J. Walker, Camden, N. J. Sold by all Druggists, 25c.

### Choose Your Words.

A lady who was very plain-looking called on a friend.  
This friend's little girl came into the room and her mother introduced her.

"But, mamma, isn't she awfully homely," said the "young hopeful."  
"Why, Laura, you mean't say such things; it isn't polite."

"I meant it only as a joke."  
"But, dear, how much more of a joke it would have been if you had said 'how pretty she is.'—Success Magazine

### Insect Stings.

Stings and bites of insects are extremely dangerous at all times, and especially when the system is not in a condition to resist the poison injected. In many insects the nature of the poison has not been ascertained; while in most of them it is of an acid, irritant nature; in others it may contain a powerful cardiac sedative and depressant, and in still other organisms in pure or mixed cultures may be introduced with the sting or bite. Apart from the natural poison used by insects, it should not be forgotten that flies and other insects that live on carrion may easily carry contagion and inoculate the persons whom they bite or sting. In the case of ordinary bites and stings the chemical antidote is a strong alkaline solution, such as a strong solution of bicarbonate of soda or potash, which counteracts the acid of the sting. Suction at the wound in all these varieties of stings and bites will draw out some of the poison, and until some antitoxin treatment can be found which will prove an antidote to the bacterial poison introduced little can be done beyond a stimulating and supporting treatment with attention to symptoms.—From Health.

The American owner of a pig ranch on the site of the volcano of Kilauea, Hawaii, makes use of the crater's heat to cook for his stock vegetable food raised on his property.

Improvements in machinery for spinning asbestos have resulted in the manufacture of thread from the mineral so fine that a mile of it weighs but a pound and a half.

### ORIGIN Of a Famous Human Food.

The story of great discoveries or inventions is always of interest. An active brain worker who found himself hampered by lack of bodily strength and vigor and could not carry out the plans and enterprises he knew how to conduct, was led to study various foods and their effects upon the human system. In other words, before he could carry out his plans he had to find a food that would carry him along and renew his physical and mental strength.

He knew that a food which was a brain and nerve builder (rather than a mere fat maker) was universally needed. He knew that meat with the average man does not accomplish the desired results. He knew that the soft gray substance in brain and nerve centres is made from Albumen and Phosphate of Potash obtained from food. He started to solve the problem.

Careful and extensive experiments evolved Grape-Nuts, the now famous food. It contains the brain and nerve building food elements in condition for easy digestion.

The result of eating Grape-Nuts daily is easily seen in a marked sturdiness and activity of the brain and nervous system, making it a pleasure for one to carry on the daily duties without fatigue or exhaustion.

Grape-Nuts food is in no sense a stimulant, but is simply food which renews and replaces the daily waste of brain and nerves.

Its flavour is charming, and being fully and thoroughly cooked at the factory it is served instantly with cream.

The signature of the brain worker spoken of, C. W. Post, is to be seen on each genuine package of Grape-Nuts.

Look in pkgs. for the famous little book, "The Road to Wellville." There's a Reason.

## UNITED STATES GOVERNMENT TESTS OF NAVAL ORDNANCE TO BE SECRET

Important Experiments Costing \$100,000 Planned to Determine Relative Efficiency of Various Elements of Offence and Defence.

Washington, D. C.—The experiments in naval ordnance, for which the last naval appropriation act contains an appropriation of \$100,000, now available, will be conducted in secret. For some time the naval ordnance officers have been anxious to conduct certain tests which require much expense, and which could not be made out of the usual allotment for the naval bureau of ordnance. It was not expected that Congress would make provision for such a purpose, largely for the reason that objection prevailed in some quarters to the expenditure of public funds in directions which did not always show tangible results. It was pointed out, however, that the beneficial effect of the tests would be no less real merely because new material was not being acquired. There was much in the way of theory which it was desired to supplant by actual knowledge obtainable only by tests. So many questions have arisen among the experts as to the relative efficiency of various elements of offence and defence that they are highly gratified to have an opportunity to settle them.

One of the most important tests is that which will show whether the armor now being placed on American battleships will resist the projectiles of high power guns at battle ranges. Guns are now fired in tests at short range with velocities which are estimated to equal that which would exist if the distance were what is known as a battle range. It is asserted by many that the armor will not serve its purpose. Actual experiments in firing at such ranges against armor supported in the same manner as on a battleship have never been carried out, and no one knows what the actual effect will be.

Another question is whether high explosive shells will have the effect claimed for them and whether the pressure of the gases of such a violent explosion will blow in the armor side of a battleship. Then, too, it is desired to know what will be the material effect of such explosives on the personnel and whether the structure of the ship will stand it. Connected with such an experiment is the determination of the maximum depth to which a twelve-inch shell will penetrate the water at battle ranges and the effect of the explosions on the underwater body. Tests will also be conducted to determine the resistance

## MUIR GLACIER FREE OF BERGS.

Strange Changes Wrought by a Subterranean Earthquake in the Famous Alaska Ice River.

Victoria, B. C.—A recent remarkable phenomenon in Alaska is the drifting away of icebergs from the mouth of Muir Glacier in Glacier Bay so that for the first time in nine years this famous river of ice, the most noted on this continent, has been diverted. In 1889 a subterranean earthquake occurred at Yakutat and ever since the approach of this glacier has been so choked with ice that boats have turned away with their passengers disappointed. Now through some peculiar drifting of these steamboats can enter the channel and go near the right wing of the glacier, and after cautiously pushing their way get a glimpse of the left face.

In the nine years that it has been inaccessible the glacier has undergone remarkable changes. When Professor John Muir, after whom it was named, visited it it had a solid front two miles long and rising about 250 feet above the water line. It was a live glacier, and great masses of ice

topped into the sea from time to time with reverberations like thunder. Water splashed fifty feet high at each fall and the sight was fascinating. To-day the glacier assumes a different aspect. Erosion has worked out a new bay, which will soon be charted, and the glacier itself seems to have two parts, the live part, from which icebergs break and fall with tremendous noise, and a dead arm, with land forming between it and the sea.

This change is due to a hill which projected through the top of the ice when Professor Muir was there. Now that hilltop is a large mountain dividing the ice fields. The ice has also receded four miles in the nine years.

The captain of the first steamboat plotted in front of this glacier in recent years was presented with a silver service marked in large letters "Muir Glacier." This is without doubt the most remarkable known glacier on this continent. It has 354 square miles of ice.

## COMMERCIAL

### Weekly Review of Trade and Market Reports.

Bradstreet's says: Retail trade has been helped by steady hot weather, holiday preparations and clearance sales, but there are still no lacking reports from many cities that the spring and early summer turnover is below expectations. Jobbing trade is of a midsummer small filling-in-order character. Most confidence and certainly the largest business visible is that reported and being booked for next fall, winter and spring. In this respect the strength of demand for cotton goods at hardening quotations, partly due to the strength of raw cotton and the satisfactory reports as to orders booked by woolen and worsted goods manufacturers for next spring's delivery at very low prices, are by far the notable features. All Western cities report fall bookings larger than last year by various percentages, and some advances are of unprecedented sales for next fall. At large Eastern centers the volume of business done by first hands in dry goods is said to be little below the best which occurred in the first half of 1907.

### Wholesale Markets.

New York.—Wheat—Spot easy; No. 2 red, old, 145c in elevator and f. o. b. float; nominal; No. 2 red, new, 1.21% end August; No. 1 Northern Duluth, old, 1.36% nominal f. o. b. float; No. 2 hard winter, old, 1.34% nominal f. o. b. float.

Corn—Spot easy; No. 2 old, 79 1/2 c in elevator and 78 1/2 c nominal f. o. b. float; No. 2, 65 1/2 c winter shipment.

Baltimore.—Wheat—Sales of cargoes on grade at 129c for No. 2 red; 1.17% for No. 3 red; 1.16% for special bin steamer No. 2 red; 1.15% for stock steamer No. 2 red; 1.12% for stock rejected and 1.05% for regular rejected for drier. Steamer No. 3 red sold at 112 1/2 c per bush, the same price as special bin rejected.

Corn—Western opened steady; spot and July, 76 1/2 c. Very little doing, both offerings and demand being light. Prices softened and at midday spot and July were quoted at 76c.

Oats—We quote: White—No. 2, 50 @ 60 1/2 c; No. 3, 53 1/2 @ 59; No. 4, 56 1/2 @ 57. Mixed—No. 2, 55 @ 58 1/2 c; No. 3, 57 @ 57 1/2; No. 4, 55 @ 56 1/2.

Rye—We quote per bush: No. 2 rye, Western export, 90c; do., up-town, 90; bag lots, as to quality and condition, 85 @ 90.

Hay—We quote, per ton: No. 1 timothy, large bales, \$17.50 @ 18; do., small blocks, \$17.50 @ 18; No. 2 timothy, as to location, \$16.50; No. 3 timothy, \$14 @ 15. Choice clover mixed, \$16 @ 16.50; No. 1 clover, mixed, \$15.50 @ 16; No. 2 clover, do., \$13.50 @ 14.50.

Butter—We quote, per lb.: Creamery separator, extras, 26 @ 26 1/2; firsts, 24 @ 25; imitation, extras, 22 @ 23; firsts, 20 @ 21; prints, 1/2 lb. extras, 27 @ 28; firsts, 26 @ 27; 1 lb. extras, 27 @ 28; firsts, 26 @ 27.

Cheese—We quote, jobbing prices, per lb.: 15 @ 15 1/2 c.

Eggs—The market is unchanged; trading mainly in jobbing lots, and the market on such is steady. We quote per dozen, less off: Maryland, Pennsylvania and nearby firsts, 21c; Eastern Shore Maryland and Virginia, 21; Western firsts, 21; West Carolina, 21; Southern (North Carolina), 30; guinea eggs, 9 @ 10.

Reggio, The Other Italian City Dev.

### Live Stock.

Kansas City.—Cattle — Market steady to 1/2 c. higher. Yearlings, \$7.35; heavy steers weak; choice export and dressed beef steers, \$6.35 @ 7.35; fair to good, \$4.75 @ 6.25; Western steers, \$4.75 @ 6.75; stockers and feeders, \$3.50 @ 5.50; Southern steers, \$5.35 @ 5.55; Southern cows, \$2.75 @ 4; native cows, \$2.25 @ 5.40; native heifers, \$3.90 @ 7; bulls, \$3 @ 5.50; calves, \$3.50 @ 7.

## TIRED ALL THE TIME.

### Girl's Head Encrusted—Feared Loss of All Her Hair—Baby Had Milk-Crust—Missionary's Wife Made Perfect Cures by Cuticura.

"For several years my husband was a missionary in the Southwest. Every one in that high and dry atmosphere has more or less trouble with dandruff and my daughter's scalp became so encrusted with it that I was alarmed for fear she would lose all her hair. After trying various remedies, in desperation I bought a cake of Cuticura Soap and a box of Cuticura Ointment. They left the scalp beautifully clean and free from dandruff and I am happy to say that the Cuticura Remedies were a complete success. I have also used successfully the Cuticura Remedies for so-called 'milk-crust' on baby's head. Cuticura is a blessing. Mrs. J. A. Darling, 310 Fifth St., Carthage, Ohio, Jan. 20, 1908."

Potter Drug & Chem. Corp., Sole Props. of Cuticura Remedies, Boston, Mass.

### Not Quite In His Line.

A short time ago a young lady was troubled with a boil on her knee which grew so bad that she thought it necessary to call in a physician. She had formed a dislike for the family physician, so her father suggested several others, and finally said that he would call in the physician with the homeopathic case. They kept the house every day. They kept a sharp lookout for him, and when he came along he was called in. The young lady modestly showed him the disabled member. The little man looked at it and said: "Why, that's pretty bad."

"Well," she said, "what must I do?"

"If I were you," he answered, "I would send for a physician. I am a piano-tuner." —Louisville Courier-Journal.

### "MEMOIRS OF DAN RICE" THE CLOWN OF OUR DADDIES.

### At Last, There is on Sale a Book Brimful of American Humor.

Any bookseller will tell you that the constant quest of his customers is for "a book which will make me laugh." The bookman is compelled to reply that the race of American humorists has run out and comic literature is scarcer than funny plays. A wide sale is therefore predicted for the "Memoirs of Dan Rice," the Clown of Our Daddies, written by Maria Ward Brown, a book guaranteed to make you roar with laughter. The author presents to the public a volume of the great jester's most pungent jokes, comic harangues, caustic hits upon men and manners, lectures, anecdotes, sketches of adventure, original songs and poetical effusions; wise and witty, serious, satirical, and sentimental sayings of the sawdust arena of other days. These "Memoirs" also contain a series of adventures and incidents alternating from grave to gay; descriptive scenes and thrilling events; the record of half a century of a remarkable life, in the course of which the subject was brought into contact with most of the national celebrities of the day. The book abounds in anecdotes, humorous and otherwise; and it affords a clearer view of the inside mysteries of show life than any account heretofore published. Old Dan Rice, as the proprietor of the famous "One Horse Show," was more of a national character than Artemus Ward, and this volume contains the humor which made the nation laugh even while the great Civil War raged. This fascinating book of 500 pages, beautifully illustrated, will be sent postpaid to you for \$1.50. Address Book Publishing House, 134 Leonard Street, New York City.

The Salvation Army of Europe has an anti-tobacco league of 55,000 persons.

For COLDS and GRIP. HICK'S CAPSICINE is the best remedy—relieves the aching and feverishness—cures the cold and restores normal conditions. It's liquid—effects immediately. Loc., 25c. and loc. at drug stores.

The Nile Valley is all there is of Egypt from a productive point of view.

Dr. Biggess Hackleberry Cordial. When taken at the beginning of Stomach Troubles never fails to cure Diarrhoea, Dysentery, Flux, Children Teething, etc. At Drugists 25c and 50c per bottle.

Ecuador exports about 20,000 tons of vegetable ivory annually.

R. T. GREEN'S SOBS, of Atlanta, Ga., are the only successful Dropsy specialists in the world. Write their liberal offer in advertisement in another column of this paper.

English is rapidly becoming the commercial language of China.

Mrs. Winslow's Soothing Syrup for Children Teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

There are organizations in England to fight rats and sparrows. B. N. U. 29.

Smiths'... is the oldest and first business college in Va. to open its building—five miles. No vacations. Ladies and Gentlemen. Bookkeeping, Shorthand, Penmanship, Typewriting, Telegraphy, etc. Three first taught by mail. Leading business college south of the Potomac. G. M. SMITHDEAL, President, Richmond, Va.

## HAMLIN'S WIZARD OIL GREAT FOR PAIN

## MORE PINKHAM CURES

Added to the Long List due to This Famous Remedy. Camden, N. J.—"It is with pleasure that I add my testimonial to your already long list—hoping that it may induce others to avail themselves of this valuable medicine. Lydia E. Pinkham's Vegetable Compound. I suffered from terrible headaches, pain in my back and right side, was tired and nervous, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound restored me to health and it shall always have my praise."—Mrs. W. P. VALENTINE, 902 Lincoln Avenue, Camden, N. J.

Gardiner, Me.—"I was a great sufferer from a female disease. The doctor said I would have to go to the hospital for an operation, but Lydia E. Pinkham's Vegetable Compound completely cured me in three months."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

Most old people must give the bowels gentle, constant help. One candy Cascaret each day does that. Harsh physic, taken regularly, makes the bowels callous. Cascarets do not. Nearly all old people now use this natural, gentle help.

Vest-pocket box, 10 cents—at drug stores. Each tablet of the genuine is marked C. C. C.
