You May Need It

Ask your doctor about the wisdom of your keeping Ayer's Cherry Pectoral in the house, ready for colds, coughs, croup, bronchitis. If he says it's all right, then get a bottle of it at once. Why not show a little foresight in such matters? Early treatment, early cure.

Many a boy is called dull and stupid, when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills will do such boys a great deal of good. They keep the liver active.

FRIEND FARMER: We wish to call your attention to the Weber and Columbia Wagons we have been offering you for the last few weeks through the columns of this paper. In referring to the good qualities of these wagons we wish to say that nothing but the best of material enters into their construction; this combined with the best of mechanical skill, and the latest improved machinery designed especially for the construction of wagons, goes to make up these most complete and perfect wagons; not even the smallest details are overlooked. The lumber used is selected by experienced men and is of four years' seasoning. The axles are of the very best grade of hickory. The hubs are the very best quality of white oak. The spokes are strictly A 1 grade of oak and hickory mixed and driven in hot glue. The fellos are oak and are thoroughly soaked in boiled oil before tires are set, and are joined with improved steel dowels, which prevents clipping at the joints. They are exceptionally well ironed, light running and attractively painted, and in all a wagon that will give years of service. We very cordially invite you to step in and examine these splendid wagons whether you are contemplating a purchase now or not. We want you to thoroughly understand their construction and see where they are better than the ordinary vehicle. The important thing in buying a wagon is to know before hand what service it will give you; the important thing in selling them is to show you that, as well as we can, and then be sure that they are as good as we lead you to expect.
