The animal died after being returned to the stable, and the liverman claims it was badly misused. The book agent denies the allegations, and it will require a court trial to settle the question.

Bellefonte business men are taking heart because of an indirect promise that both the iron furnaces will resume operations within six weeks. The Nittany furnace has been closed down for a year and a half, and the Bellefonte furnace which is under the same control has been idle since the first of the year.

Ham is much sought after this season of the year, and especially in Penn township where it is sought after night with much success. The experience of Harvey Bailey, tenant on the Jacob S. Meyer farm, east of Penn Hall, was that on going to his grocery recently he found the door had been broken open and all the hams—some seven or eight pieces—taken from it.

The gymnasium and athletic field of the Lock Haven Normal School are not excelled by those of any other secondary school in Pennsylvania. Physical education is not neglected in this important school. The academic studies are rigorously taught and the professional work is modern and in accordance with the latest pedagogy. The fall term opens September 6th. Send for a catalog.

The young men who drove a horse from Altoona to Bellefonte and left him in the road near Bellefonte to die, mention of which was made in the Reporter recently, were finally captured in Elmira. They assumed various names, and hired horses at Williamsport, Harrisburg, and other points before and after their escapade in Blair and Centre counties. The rascals are on the fair way to receiving justice.

The Baldwin apple, it will be news to many to know, was discovered by Colonel Baldwin, at Wilmington, Massachusetts. Colonel Baldwin was a surveyor, on his trip in the spring of the year, he carried seedlings with him and distributed them among his friends. The original tree was blown down in 1815, but the spot is marked by a monument of granite eight feet high, erected by the Rumford Historical Society in 1895.

The fire that destroyed the Nittany club house, at Henia Park, lighted up the sky so brightly that telephone messages from the south side of Potter township were sent to Centre Hall making inquiry as to the location of the fire, near Centre Hall. The fire was thought to be near Zion, and the telephone was further pressed into service from this office, with the result that the burning of the resort was announced within a short time after the flames had set to work.

Irvin C. Noll of Pleasant Gap, a former graduate of the High school, and a graduate this year from Pennsylvania State College, was elected assistant principal of the Bellefonte High school, and Miss Rose Fauble, daughter of Mr. and Mrs. M. The re-opening services in the Evangelical church were a decided success, and all the indebtedness incurred on account of the improvements was covered by voluntary contributions. A large congregation was present in the morning, and these heard a fine discourse from Psalms 109:4. In the evening the audience began assembling long before the hour for service, and when the time for the opening came the church was filled to its utmost.

Rev. D. C. Carls, the speaker for the evening, gave a beautiful exegesis on the text found in Romans 8:16, on children and heirs, which showed the much time had been spent on his subject. A. I. went home from the service glad to have been able to assist in beautifying the Lord's house.

Does Not Color Hair

Ayer's Hair Vigor, as now made from our new improved formula, does not stain or color the hair even to the slightest degree. Gray hair, white hair, blonde hair is not made a shade darker. But it certainly does stop falling hair. No question about that.

Indeed, we believe it will stop every case of falling hair unless there is some very unusual complication, something greatly affecting the general health. Then you should consult your physician. Also ask him about the new Ayer's Hair Vigor.

FRIEND FARMER: We wish to call your attention to the Weber and Columbia Wagons we have been offering you for the last few weeks through the columns of this paper.

In referring to the good qualities of these wagons we wish to say that nothing but the best of material enters into their construction; this combined with the best of mechanical skill, and the latest improved machinery designed especially for the construction of wagons, goes to make up these most complete and perfect wagons; not even the smallest details are overlooked.

The lumber used is selected by experienced men and is of four years' seasoning.

The axles are of the very best grade of hickory. The hubs are the very best quality of white oak. The spokes are strictly A 1 grade of oak and hickory mixed and driven in hot glue.

The felloes are oak and are thoroughly soaked in boiled oil before tires are set, and are joined with improved steel dowels, which prevents clipping at the joints.

They are exceptionally well ironed, light running and attractively painted, and in all a wagon that will give years of service.

We very cordially invite you to step in and examine these splendid wagons whether you are contemplating a purchase now or not. We want you to thoroughly understand their construction and see where they are better than the ordinary vehicle.

The important thing in buying a wagon is to know before hand what service it will give you; the important thing in selling them is to show you that, as well as we can, and then be sure that they are as good as we lead you to expect.
