**Rushing Them Off.**

"What's Zeke Crossby doing rushing down to the barn in such an excited state for?" drawled Hiram Hardapple.

"Why, Zeke heard that one of his seven daughters is going to elope to-night with a summer boarder in Zeke's auto," whispered the hired man.

"Do tell! And I suppose Zeke is running down to lock the machine up so they can't get it?"

"Oh, no! Zeke's running down to grease it up and put the motors in order so it won't break down and break up the elopement."—Chicago News.

**RAISED FROM SICK BED**

**After All Hope Had Vanished.**

Mrs. J. H. Bennett, 59 Fountain St., Gardner, Me., says: "My back used to trouble me so severely that at last I had to give up. I took to my bed and stayed there four months, suffering intense pain, dizziness, headache and inflammation of the bladder. Though without hope, I began using Doan's Kidney Pills, and in three months was completely cured. The trouble has never returned."

**A Queer Malady.**

Spring went to a noted physician to ask advice as to his health. In pompous tones he addressed the doctor:

"I—ah—have come to—ah—ask you—ah—what—ah—the doosid matwaw with me—ah!"

"I find your heart is affected," said the physician gravely.

"Oh—ah—anything else—ah?"

"Yes; your lungs are affected, too."

"Anything—ah—else—ah?"

"Yes; your manners are also affected."—New York World.

**THE BEST REMEDY**

**For Women—Lydia E. Pinkham's Vegetable Compound**

Noah, Ky.—"I was passing through the Change of Life and suffered from headaches, nervous prostration, and hemorrhages."

"Lydia E. Pinkham's Vegetable Compound made me well and strong, so that I can do all my housework, and attend to the store and post-office, and I feel much younger than I really am."

"Lydia E. Pinkham's Vegetable Compound is the most successful remedy for all kinds of female troubles, and I feel that I can never praise it enough."—Mrs. LIZZIE HOLLAND, Noah, Ky.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, a Lynn, Mass. Her advice is free, and always helpful.

**Weekly Review of Trade and Market Reports.**

R. G. Dun & Co.'s Weekly Review of Trade says:

"Reports from the principal cities unite in confirming the revival in trade. The prospect is that the volume in business will before long attain such proportions that maximum capacity will be reached and labor be at a premium. In the iron and steel trade this condition, indeed, seems to be already in sight, and that the wonderful expansion is no mere mushroom growth evidenced by the advance orders for 1910. The railroads are enjoying such increases in earnings and such assurances of good crops that they are buying freely of steel rails and other supplies."

Bradstreet's says:

"Jobbing trade and manufacturing industry tend to expand as the vacation season wanes and harvest possibilities grow into certainties. From a number of reports that purveyors take hold conservatively and that retailers are still cautious buyers. Currency shipments to the country are enlarging and money is certainly firmer. Something like a sobering process has been witnessed in the securities markets, which are lower all around. Perhaps the most encouraging features reported this week come from a few of the leading industries."

"Business failures for the week ending with August 19 were 182, against 219 last week, 236 in the like week of 1908, 153 in 1907, 155 in 1906 and 176 in 1905."

**What Bothered Him.**

**Idle Curiosity.**

Many well-meaning persons are apt to confuse what they regard as interest in others with idle curiosity, and thereby cause serious annoyance if not actual suffering, besides placing themselves in an unenviable light. Very often the display of curiosity is unconscious and arises from a desire to give evidence to some friend of a willingness on our part to share his confidence, but the friend is very sure not to avail himself of this opportunity, else he would have sought it himself. There are some sorrows in nearly everyone's life which reach down too deeply into the heart to bear even the kindest inquisition; sorrows which we are not willing to speak of voluntarily even to those nearest and dearest to us, and yet it often happens that it is upon such a subject as this that some kind friend is apt to question us. Of course a curiosity of this sort is more than idle; it is an evidence of lack of consideration, to say the least, and is supposed not to obtain in genteel society, and yet we venture to say that there is hardly a person in this wide world of ours who has not at some period when misfortune has entered his life suffered from the idle curiosity of some supposed friend.—Charleston News and Courier.

**We Are Getting On.**

Sometimes we are prone to forget what progress the world is making and look only upon imperfections that still call upon us for removal. A good antidote for this pessimistic forgetfulness is found in President Taft's letter forbidding census supervisors to indulge in political activity; and especially in the tone which the letter manifests toward the spoils system in general.

Of the justice and wisdom of this order no question will arise in any enlightened mind, or in any minds at all, in fact, except those who are still blindly and foolishly wedded to the old Jacksonian doctrine that to the victors belong the spoils. It is at last possible for one to assert without danger of overwhelming scorn that census supervisors as well as other federal appointees are entitled to serve the public from which their support is derived and not the party politicians who have usurped the power they have so notoriously abused.—Indianapolis Star.

**No, Thank You!**

During a banquet a certain bishop had, as his left-hand companion, a clergyman who was completely bald.

During dessert the baldheaded vicar dropped his serviette and stooped to pick it up. At this moment the bishop, who was talking to his right-hand neighbor, felt a slight touch on his left arm. He turned, and beholding the vicar's pate on a level with his elbow, said:

"No, thank you; no melon!"—New York Journal.

**IT WORKS**

**The Laborer Eats Food That Would Wreck an Office Man.**

Men who are actively engaged at hard work can sometimes eat food that would wreck a man who is more closely confined.

This is illustrated in the following story:

"I was for 12 years clerk in a store working actively and drank coffee all the time without much trouble until after I entered the telegraph service."

"There I got very little exercise and drinking strong coffee, my nerves grew unsteady and my stomach got weak and I was soon a very sick man. I quit meat and tobacco, and, in fact, I stopped eating everything which I thought might affect me except coffee, but still my condition grew worse and I was all but a wreck."

"I finally quit coffee and commenced to use Postum a few years ago, and I am speaking the truth when I say my condition commenced to improve immediately, and to-day I am well and can eat anything I want without any bad effects, all due to shifting from coffee to Postum."

"I told my wife to-day I believed I could digest a brick if I had a cup of Postum to go with it."

"We make it according to directions, boiling it full 20 minutes, and use good rich cream, and it is certainly delicious."

**White Steamers Use Kerosene as Fuel**

**THE WHITE STEAMER WHICH MADE A SUCCESSFUL PUBLIC DEMONSTRATION OF KEROSENE AS FUEL ON THE RECENT 2650-MILE GLIDDEN TOUR.**

The most interesting announcement ever made in connection with the automobile industry was undoubtedly that made a month or two ago to the effect that the new models of the White Steam Cars could be run on kerosene, or coal oil, instead of gasoline. Everyone at once recognized that the use of the new fuel would add materially to the advantages which the White already possessed over other types of cars. There were some people, however, who were sceptical as to whether or not the new fuel could be used with complete success and, therefore, the makers of the White Car, the White Company, of Cleveland, Ohio, determined to make a public demonstration of the new fuel in the 1909 Glidden Tour.

From the standpoint of the public, no test more satisfactory could have been selected. First of all, the distance covered on the Glidden Tour, from Detroit to Denver and thence to Kansas City, was 2650 miles. This was certainly more than sufficient to bring out any weaknesses, if such had existed. Still more important was the fact that the car was at all times while on the road under the supervision of observers, named by those who entered other contesting cars. Therefore, it would have been impossible for the driver of the White to have even tightened a bolt without the fact being noted and a penalty inflicted. At night the cars were guarded by Pinkerton detectives and could not be approached by any one.

Twenty thousand dollars worth of rose leaves were imported during the decade ending 1908.

**PAINT DURABILITY.**

The first thought in painting should, of course, be durability—and durability means simply pure paint properly applied. Pure paint is pure white lead and linseed oil (with or without tinting material).

Some years ago the paint-buyer was likely to get adulterated or counterfeit white lead if he was not familiar with the fact. To-day he may buy with perfect safety if he only makes sure that the Dutch Boy Painter trademark is on the packages of white lead that he buys. This trademark was adopted by National Lead Company to distinguish the pure white lead made by them from the worthless adulterated and fake goods. It is a guarantee as valuable to the house-owner as the education of a paint expert could be.

**HAD SEVERE WEEPING ECZEMA.**

Face and Neck Were Raw—Terrible Itching, Inflammation and Sores—All Treatments Failed—Cuticura a Great Success.

"Eczema began over the top of my ear. It cracked and then began to spread. I had three different doctors and tried several things, but they did me no good. At last one side of my face and my neck were raw. The water ran out of it so that I had to wear medicated cotton, and it was so inflamed and sore that I had to put a piece of cloth over my pillow to keep the water from it, and it would stain the cloth a sort of yellow. The eczema itched so that it seemed as though I could tear my face all to pieces. Then I began to use the Cuticura Soap and Ointment, and it was not more than three months before it was all healed up. Miss Ann Parsons, Northfield, Vt., Dec. 19, 1907."

**No Man is Stronger Than His Stomach**

A strong man is strong all over. No man can be a rone who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

**Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.**
