**YEARS OF IT.**  
**A Dark Picture to Look Back Upon.**  
 John Corey, Constable, Attica, N. Y., says: "From September, 1896, to March, 1897, I was confined to the house, an invalid, from kidney trouble. For months I had tottered about on crutches, a discouraged and despairing man. I was practically crippled with lumbago. I decided to try Doan's Kidney Pills and a short while after I began using them I was able to walk. After taking seven boxes I threw away my crutches and the lumbago has not returned from that day to this. Through using Doan's Kidney Pills I am to-day a healthy man."

**Natural Forces.**  
 It was the study of the natural laws affecting water in contact with heat that gave Fulton his idea of propelling vessels. It was the Wright's study of the natural laws of the resisting or sustaining power of the air that has enabled them to construct the aeroplane.

**It has been the study of electric waves and the natural laws attending their production and their transmission without wires that enabled the French naval officers, Jeance and Colin, to carry on wireless telephonic communication on Wednesday last between Toulon and Port Vendres, a distance of 155 miles.**  
 The air, the steam and electricity were the same in the time of Solomon as today in nature's domain, governed then by the same laws as they are today, available then to our progenitors if they had known the processes by which they could have utilized them. It is a transformed world as compared with a century ago, transformed by students of natural laws. The changes of the next 25 years bid fair to be as complete and wonderful as those of any century that has gone by.—Cincinnati Enquirer.

 "Seems extravagant, Si."  
 "I know; but maybe it would be cheaper in the long run than buying a new hat every year."—Washington Herald.

**PRESSED HARD**  
**Coffee's Weight on Old Age.**  
 When prominent men realize the injurious effects of coffee and the change in health that Postum can bring they are glad to lend their testimony for the benefit of others.

**A superintendent of public schools in North Carolina says:**  
 "My mother, since her early childhood, was an inveterate coffee drinker, and had been troubled with her heart for a number of years, and complained of that 'weak all over' feeling and sick stomach."  
 "Some time ago I was making an official visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat peculiar flavour of the coffee, and asked him concerning it. He replied that it was Postum."  
 "I was so pleased with it, that after the meal was over, I bought a package to carry home with me, and had wife prepare some for the next meal. The whole family liked it so well that we discontinued coffee and used Postum entirely."  
 "I had really been at times very anxious concerning my mother's condition, but we noticed that after using Postum for a short time she felt so much better than she did prior to its use, and had little trouble with her heart and no sick stomach, that the headaches were not so frequent, and her general condition much improved. This continued until she was as well and hearty as the rest of us."  
 "I know Postum has benefited myself and the other members of the family, but not in so marked a degree as in the case of my mother, as she was a victim of long standing."

**Killed By Auto.**  
 Pittsburg.—James I. Blakely, a wealthy oil operator of Homestead, was killed by being struck by an automobile in charge of William Cavell, a colored chauffeur. Blakely was about to cross the street in front of the automobile, when Cavell threw on the high speed clutch. One of the machine lamps struck Blakely on the head, killing him almost instantly.

**Hannah's Memory.**  
 West Chester.—The Chester County Historical Society unveiled a white granite shaft bearing the metal plate to the memory of Indian Hannah, the last member of the Lenni-Lenape Tribe, who died at the Chester County Home, near Embreeville, in 1802, and whose body was interred there. The committee in charge consisted of Lewis K. Stubbs, J. Carroll Hayes and Joseph Thompson. Albert Cook Myers, of Moylan, made the address.

**First Aid To Injured.**  
 Wilkes-Barre.—Under the auspices of the American National Red Cross there is to be an intercompany military competition in the application of first aid to the injured here on October 2. The idea has aroused interest in army circles and three officers of the medical corps have been detailed to act as judges. These officers are Majors Charles Lynch and Charles R. Reynolds and Captain Howard H. Bailey.

**Hymen Vs School Board.**  
 Centra.—The School Board, of Conyngham Township, was unable to decide whether to permit Mrs. John Dries to continue teaching school or not. Two weeks ago, as Miss Lillie Gotschall, she opened the school. Three days later she married Rev. M. R. Dries, the Lutheran pastor at Aristes. In the meantime, while she is putting their household affairs in condition, he is teaching her school in addition to attending to his ministerial duties.

**Injured Hugging Girl.**  
 Bethlehem.—Playfully attempting to hug one of two girl companions while on a scenic railway at Central Park, Fred Hartig, of Catawauqua, stood up in the car. As it rounded a curve he was hurled headfirst out through a maze of woodwork to the ground. He landed on a jagged piece of wood, tearing a frightful gash in his thigh. He also sustained other injuries and was removed to a hospital in a precarious condition.

**Kills Herself With Knife.**  
 Pine Grove.—Lucinda, wife of Henry Luckenbill, a well known farmer of Pine Grove Township, aged 54, committed suicide shortly after the family arose and were temporarily absent at the barn. The woman is believed to have been unbalanced due to a recent illness. The feed was done with a shoe knife.

**State Workers' Officers.**  
 Bangor.—The International State Workers' Union, in session at Pen Argyl, elected these officers: President, Sampson H. Milford, of East Bangor; secretary, Thomas H. Palmer, Pen Argyl; treasurer, William H. Johnson, of East Bangor; first vice president, Isaac Pape, of Bangor; second vice president, John Nottle, of Pen Argyl; third vice president, Richard Stout, of Bangor; fourth vice president, James Frable, of Bangor; fifth vice president, William J. Hicks, of Pen Argyl; sixth vice president, Ambrose McNally, of Bangor; seventh vice president, P. L. Repsher, of Pen Argyl; eighth vice president, Davis Price, of Bangor; auditor for three years, E. J. Roberts, of Pen Argyl.

**Planning Mill Burned.**  
 York.—An \$5,000 fire occurred in Chanceford Township, this county, when the planing mill owned by Charles H. Bear was destroyed. Sparks from an engine used to operate the mill caused the blaze.

**First Railroad Ride.**  
 Red Lion.—Miss Lydia Flinchbaugh, 83 years old, took her first ride on a railroad train Tuesday. She has lived in York County all her life and never rode on the cars before.

**12 Damage Suits.**  
 Twelve damage suits against the State were filed at Harrisburg by Thomas Murphy and eleven foreigners, of Florence, Jefferson County, permission to such having been granted by the last Legislature after the session of 1907 had refused such permission. The defendants seek to recover for property alleged to have been destroyed by State police in 1906.

**Buried Four Hours.**  
 Shamokin.—While Henry Zartman was half way down a well in Mahanoy the brick wall collapsed, burying him. The tube of a wooden pump served as an air passage through which he managed to get enough ventilation until a rescuing party after four hours toil uncovered him. He was almost dead from foul air.

**Track Fatal Couch.**  
 Carlisle.—Edward Shaefer, a Boiling Springs butcher, died here at Todd Hospital, as a result of injuries received by being struck by a Valley Traction car near Boiling Springs. The mortman saw Shaefer lying on the track, but could not stop the car in time.

**Disastrous Floods In India.**  
 Allahbad, India (Special).—Torrential rains destroyed the village of Unloo. Twelve natives are known to have been drowned. The surrounding country also suffered immense damage.

**Weekly Review of Trade and Market Reports.**

**Bradstreet's says:**  
 As the season advances trade tends to show further expansion and industrial lines are becoming more active. Outputs are being increased by plants already in operation and frequent reports come to hand of resumption by concerns that have been shut down for sometime past. Under the circumstances employment is more general, payrolls are larger and more money is available for spending. In a nutshell, trade is good, industry, particularly iron and steel, is active, outputs are close to normal and prospects are pleasant.

**R. G. Dun & Co.'s Weekly Review of Trade says:**  
 Expansion in volume of business and contraction in business disasters characterized the month of August, usually of the most inactive of the year, and this marks the situation on the eve of the fall season.

Reports for the week confirm reports of the whole of the past month. Heavy buying, both for immediate and 1910 consumption, continues in the iron and steel trade. The higher cost of material is one of the features of the situation which work for conservatism, but as the revival of activity has taken place in spite of other adverse conditions, it ignores this development. Advances from the leading cities continue to speak of business improvements and in some cases the August trade was in excess of all former records for the month.

**What is PAINT?**  
 The paint on a house is the extreme outside of the house. The wood is simply a structural under layer. That is as it should be. Unprotected wood will not well withstand weather. But paint made of pure white lead and linseed oil is an invulnerable armor against sun and rain, heat and cold. Such paint protects and preserves, fortifying the perishable wood with a complete metallic casing.

And the outside of the house is the looks of the house. A well constructed building may be greatly depreciated by lack of painting or by poor painting.

National Lead Company have made it possible for every building owner to be absolutely sure of pure white lead paint before applying. They do this by putting upon every package of their white lead their Dutch Boy Painter trademark. That trademark is a complete guarantee.

**CUTICURA CURED HIS ECZEMA.**  
**Humor Came on Legs and Ankles—Could Not Wear Shoes Because of Bad Scaling and Itching.**  
 "I have been successfully cured of dry eczema. I was inspecting the removal of noxious weeds from the edge of a river and was constantly in the dust from the weeds. At night I cleaned my limbs but felt a prickly sensation. I paid no attention to it for two years but I noticed a scum on my legs like fish scales. I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks I was free from the confounded itching. Capt. G. P. Bliss, Chief of Police, Morris, Manitoba, Mar. 29, '07, and Sept. 24, '08."

**What is Rest?**  
 It is strange how people differ in their ideas as to what rest really means. According to accepted authority the definition of the word is: "A state of quiet or repose; a cessation from motion or labor; freedom from everything which wears or disturbs," etc., etc. but as is the case with nearly every subject that is worth discussing each individual mind places its own interpretation upon the definition. What means rest to some persons brings no refreshment to others, and it must be admitted, we suppose, that each person is the best judge of his needs. The most widely accepted theory of rest is to do absolutely nothing, to lie quietly in a relaxed position, to lounge about and give one's self up to complete repose, to do nothing that requires any effort of will or exertion of body. There are times when such absolute relaxation is necessary for the rehabilitation of nature, when mind and body worn and fagged by a too constant application reach the limits of endurance and crave "some sweet oblivious antidote."—Charleston News and Courier.

 Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a "weakness" in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.  
**The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.**

**CUTICURA CURED HIS ECZEMA.**  
**Humor Came on Legs and Ankles—Could Not Wear Shoes Because of Bad Scaling and Itching.**  
 "I have been successfully cured of dry eczema. I was inspecting the removal of noxious weeds from the edge of a river and was constantly in the dust from the weeds. At night I cleaned my limbs but felt a prickly sensation. I paid no attention to it for two years but I noticed a scum on my legs like fish scales. I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks I was free from the confounded itching. Capt. G. P. Bliss, Chief of Police, Morris, Manitoba, Mar. 29, '07, and Sept. 24, '08."

**What is Rest?**  
 It is strange how people differ in their ideas as to what rest really means. According to accepted authority the definition of the word is: "A state of quiet or repose; a cessation from motion or labor; freedom from everything which wears or disturbs," etc., etc. but as is the case with nearly every subject that is worth discussing each individual mind places its own interpretation upon the definition. What means rest to some persons brings no refreshment to others, and it must be admitted, we suppose, that each person is the best judge of his needs. The most widely accepted theory of rest is to do absolutely nothing, to lie quietly in a relaxed position, to lounge about and give one's self up to complete repose, to do nothing that requires any effort of will or exertion of body. There are times when such absolute relaxation is necessary for the rehabilitation of nature, when mind and body worn and fagged by a too constant application reach the limits of endurance and crave "some sweet oblivious antidote."—Charleston News and Courier.

 Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a "weakness" in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

**Ask Her This Question**

"Do you know of any woman who ever received any benefit from taking Lydia E. Pinkham's Vegetable Compound?"

If any woman who is suffering with any ailment peculiar to her sex will ask her neighbors this question, she will be surprised at the result. There is hardly a community in this country where women cannot be found who have been restored to health by this famous old remedy, made exclusively from a simple formula of roots and herbs.

During the past 30 years we have published thousands of letters from these grateful women who have been cured by Lydia E. Pinkham's Vegetable Compound, and never in all that time have we published a testimonial without the writer's special permission. Never have we knowingly published a testimonial that was not truthful and genuine. Here is one just received a few days ago. If anyone doubts that this is a true and honest statement of a woman's experience with Lydia E. Pinkham's Vegetable Compound write and ask her.

**Houston, Texas.**—"When I first began taking Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had been sick for three years with female troubles, chronic dyspepsia, and a liver trouble. I had tried several doctor's medicines, but nothing did me any good.

"For three years I lived on medicines and thought I would never get well, when I read an advertisement of Lydia E. Pinkham's Vegetable Compound, and was advised to try it. My husband got me one bottle of the Compound, and it did me so much good I continued its use. I am now a well woman and enjoy the best of health.

"I advise all women suffering from such troubles to give Lydia E. Pinkham's Vegetable Compound a trial. They won't regret it, for it will surely cure you."—Mrs. Bessie L. Hicks, 819 Cleveland St., Houston.

Any woman who is sick and suffering is foolish surely not to give such a medicine as this a trial. Why should it not do her as much good as it did Mrs. Hicks.
