

CONSTIPATION RELIEVED

MUNYON'S PAW-PAW PILLS

PRICE 25 Cts.

Mailed postpaid on receipt of price.

You can't have a beautiful complexion if your blood is impure or if you suffer with indigestion or any stomach or liver ailment. Munyon's Paw-Paw Pills regulate the bowels, correct indigestion, constipation, biliousness, torpid livers, jaundice, sallow and dull complexions. They purify the blood and clear the skin of pimples, sores and most eruptions.

One pill is a gentle laxative; two pills a thorough physic. They do not grip, they do not weaken. Price 25 cents.

MUNYON'S REMEDY CO.,
53d and Jefferson Sts., Phila., Pa.

Bad Breath

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarella and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."—Chas. H. Halpern, 114 E. 7th St., New York, N. Y.

Pleasant, Palatable, Potent, Taste Good, Do Good. Never Sickens, Weakens or Gripe. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. Guaranteed to cure or your money back.

Meddlesome Neighbors.

A girl in a small Kansas town has been engaged seven times. Her neighbors have adopted this slogan for her: "Present company always accepted."—Kansas City Journal.

FOR HEADACHE—"DOAN'S" CAPSULE

Whether from Colds, Heat, Stomach or Nervous Troubles, Capsule will relieve you. It's liquid—pleasant to take—acts immediately. Try it 10c, 25c and 50c at drug stores.

Why Living Is High.

One reason why living is high is because we are in an era of rising prices, world wide and apparently progressive to yet greater heights. Scholars attribute this to increased gold production, multiplied demands of prosperity and a reckless spirit that does not count the cost of any indulgence that one can afford.

Another reason why the cost of living is high is because we live high. The rigid economics and systematic self-denials of former days are not now practiced; are not, indeed, necessary, even to those who amass wealth from most modest beginnings. On the other hand, lavish expenditure is the rule, and the budget of the average family discloses many forms of outlay that were unknown or tabooed a generation ago.

In the main this is well enough. It is all the accompaniment of progress and better standards of living in spite of our increased outlays men get richer and get rich more quickly than they could possibly do 40 years ago. So the high cost of living is not reducing us to poverty or depriving us of our comfort and luxuries. It is idle and perhaps wrong to "go it" at this pace and then complain that little is left after we have bought everything our hearts desire.—Indianapolis Star.

ODDS AND ENDS.

St. Petersburg is to spend \$50,000,000 on sanitary improvements. Of the 825 gondolas in Venice, 250 belong to private parties. A 400-pound halibut was recently displayed in London.

During the year 1908 the telephone was adopted on 2,357 miles of railroad.

The condition of the Cologne Cathedral is again causing serious apprehension.

Miss Hilda Martindale has been made senior inspector of factories for Ireland.

The importation of precious stones into India amounts to about \$4,940,000 annually.

The St. John's River in Florida is the only navigable river in the country that flows in a generally northerly direction to an ocean.

MUST BELIEVE IT.

Every Reader Will Concede the Truth of This Statement.

One who suffers with backache or any form of kidney trouble wants a cure, not merely temporary benefit. Rev. Maxwell S. Rowland, of Tom's River, N.J., makes a statement in this connection that is worth attention. Says he: "I was suddenly taken with an attack of kidney trouble, had severe pains in my back and loins and was generally run down. Doctors were not helping me, so I began using Doan's Kidney Pills. They brought me prompt relief, and as I continued taking them the pains in my back disappeared and the kidneys were restored to normal condition."

Remember the name—Doan's. Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Bobby's Philosophy.

Bobby's father and mother were dressing to go to the theatre and the youth was not to be included in the party.

"Why can't I go, too?" he whimpered.

"For a very good reason," returned his father sharply, "I only bought two seats."

"Just think," said Bobby, trying to stifle his tears, "if you hadn't married mother I might have gone along all right!"—Brooklyn Life.

COMMERCIAL

Weekly Review of Trade and Market Reports.

Bradstreet's says: Operations in industrial lines are still expanding, and in some branches of the iron and steel trade record outputs are the rule. In fact, manufacturing, is in the forefront as regards activity, and in some branches skilled workmen are not plentiful enough to supply the demand. Industrial plants that have been late in sharing in the revival are taking on more activity, and working of night shifts is not uncommon. Purely distributive trade has probably tapered off a little at certain large centers, as interior merchants, having finished their purchases, have left for their homes. Still, jobbing trade as a whole is good, and at some centers, particularly where fall festivals are held, purchases of dry goods, groceries and staple lines in general have really increased, though fall buying from jobbers and wholesalers has possibly passed its zenith. It is obviously too early for reorders. Indeed, retailers are still making strenuous efforts to work off summer stocks while displaying early fall goods. Within another week or so trade in this line probably will show expansion. There has been no tendency to overbuy, high prices, for one thing, having made for the exercise of caution.

The earlier gathered crops, such as wheat, cotton and oats, are being moved to market quite freely, and the good prices being realized from the sale of these products will make for easier collections and growth in trade. Building is more active than it usually is at this season of the year and the ratio of gain for August over a year ago is the largest shown in any month since May.

Wholesale Markets.

New York.—Wheat—No. 2 red, 105 elevator; No. 2 red 1.04 1/4 f. o. b. float; No. 1 Northern Duluth, 1.09 1/4 f. o. b. float; No. 2 hard winter, 1.13 1/4 f. o. b. float.

Sheep.—Market 10c. higher.

Tribulations of the Aviation Era.

U. S. ALONE CAN SAVE STARVING FLOOD VICTIMS-- MEXICO CANNOT SUCCOR ITS 15,000 SURVIVORS

plea For Assistance Comes From Republic Across Our Border--Women and Children in Inland Towns Greatest Sufferers--Number of Dead Now Placed as High as 15,000.

San Antonio, Texas.—Messages received here indicate that the report sent to the State Department from Monterey, Mexico, relative to the suffering there is not an exaggeration of the real conditions. The latest reports puts the number of dead as high as 15,000 and the number of sufferers and homeless fully as many. There is a great deal of relief work in addition to the extremely heavy toll of lives collected, to say nothing of the immense property damage, hundreds of square miles upon which there once stood happy communities have been swept clear of both houses and crops. For the survivors there is nothing left to do but extend a hand in quest of alms.

In consequence of the wide area affected the Mexican Government is called upon to shoulder a burden for which it is not prepared just at this juncture. The Government has been heroic in its efforts to relieve partially the distress which is now greater in the outlying sections rather than in the cities which have rail connection.

Anguish Greatest in Towns.

It is in these smaller places from which the survivors must come on foot that the anguish is the greatest. Both women and children are starving. Many have died while awaiting the relief which the father, husband or brother, set out to procure.

For these people only the simplest kind of food will suffice. The Mexicans will find a great deal of nourishment in the dried or "navy" bean, and flour and meal do a great deal toward supplying them with sustenance. Mexican Consular representatives here and in other points of the State have issued appeals to relieve the suffering.

A number of the Texas railroads and the express companies have agreed to carry free such supplies as may be sent to the relief committee at Monterey, which is now most active in distributing food to those places where help is most needed and which can be reached by railroad or overland transportation.

\$5000 Raised by Women.

In this city alone more than \$5000 was hurriedly raised by public subscription. Women of the city gathered supplies, both clothing and food, and rushed several cars to the border and into the capital of Northern Mexico as soon as railway transportation was restored.

The Republic of Mexico also came with a hurried response to the first stories of distress. It is not sufficient, although the Mexican people were as liberal as finances and conditions would permit. For this the people of Monterey made grateful acknowledgment, but the need of succor is still great. Unless the United States, which has always been "liberal to those in distress," rushes to the assistance of her near and good neighbor across the border, the increase in the number of dead and the extent of the suffering in the flooded district will be frightful to behold.

OUR EXPORTS NOW ARE \$46,000,000,000.

That's the Total For the Last 120 Years, Reports the Bureau of Statistics

Manufacturers' Big Share--Steady Increase Shown in the Share They Take in Exports--Iron and Steel Records

Washington, D. C.—The exports of American manufactures for the 120 years from 1789 to 1909, according to a report just made public by the Bureau of Statistics of the Department of Commerce and Labor, amounted to \$12,000,000,000. Of this amount two-thirds were exported within the last twenty years, and one-half, or \$6,000,000,000, within the past eleven years of the present decade.

The total exports of merchandise from 1789 to date amounted to \$45,000,000,000, of which 26 per cent. were manufactures. Steady increase has been shown in the share which manufactures form of our exports from 6.5 per cent. in the decade 1790-1799, to 37.6 per cent. in the decade ending with 1909.

Iron and steel products were not recorded until 1790, when the value of these exports amounted to \$117,000. The million-dollar mark was not passed until 1840, and from that time forward a steady increase was shown in manufactures of steel. Last year a grand total of nearly \$200,000,000 of manufactures of steel exported was reached.

The total value of manufactures exported during 1908 was \$750,000,000. Of this amount Europe received approximately one-half, or \$350,000,000; North America, \$189,000,000; South America, \$11,750,000; Asia, \$1,700,000; Oceania, \$40,000,000; and Africa, \$10,000,000. Of the amount sent to Europe \$290,000,000 was copper, \$55,000,000 mineral oil, \$47,000,000 manufactures of iron and steel, \$29,000,000 manufactures of wood, \$17,000,000 naval stores, and \$14,000,000 agricultural implements.

BRIDE POISONED ON HER WEDDING NIGHT.

Dies After Two Weeks of Agony--Husband Arrested and Held Without Bail.

Parkersburg, W. Va.—A girl of fourteen years, a bride of fourteen days, was murdered, poisoned by her bridegroom, is the charge on which J. E. Sayre, of Richmond County, Va., was arrested here. She was Miss Blanche Wright.

The allegation is that Sayre gave the deadly bi-chloride of mercury to his bride, with whom he eloped two weeks ago. He is said to have been under the influence of liquor and not to have intended to poison her.

The child-wife, the daughter of a minister, died here in a hospital after horrible suffering lasting two weeks.

Mrs. W. S. Taylor Dies After Illness of Only Two Days.

Worcester, Mass.—Mrs. Pauline Lapham Taylor, wife of Willard S. Taylor, prominent in theatrical affairs, died of uraemic poisoning after an illness of only two days. Her death shocked friends here and in New York, Newport and Boston, where she entertained lavishly. Mrs. Taylor was a crack horsewoman. She defeated her husband in a race, taking three straight heats with her record pacer, Peeler Patron, whose record is 2:09 1/2.

Villagers Declare That Miss Brooks' Ghost Appears at Night.

Newburg, N. Y.—Highland, a village not far from here, in which Miss Emma Brooks was slain on July 14, is stirred up over the appearance of the ghost of Miss Brooks. Many prominent persons declare they have seen the ghost walking in the vicinity of the house late at night. Lorenzo Bragg, who worked for Miss Brooks for many years, has occupied the house in which she lived, but will not remain longer because of the visits of the ghost.

At The District School.

The new teacher glanced smilingly over the school, and was delighted to see so many bright young faces among her new charges.

"Now, children," she said, opening her history book, "we will run over our history so that I may find out what you know. Willie Perkins, you may tell me why Washington crossed over the Delaware."

"Ahum—er—why, now, er—thum" began Willie, "why, be-cause—"

"Because what, dear?" asked the teacher.

"Beuz he couldn't go under it," said Willie.

"Dear me! Willie, what an answer!" ejaculated the teacher. "Pol-ly Hicks, you look like a bright lit-tle girl. Why did the father of his country cross the Delaware?"

"Pleathe, m'im," replied Polle, "I gueth it wath because the Hudthon wath too far away for him to croth that."

"Mercy!" cried the teacher.

"Really, you will all have to stay in this afternoon and study your history. I will now test you on arith-metic. Maggie Wilkins, if I were to divide three bannanas among 17 boys, wath would be the result?"

"A riot," said Maggie, speaking up like a little drum-major.

"Possibly," said the teacher, "but that is not what I mean. Tommy, you may take the question. Three bannanas among three boys—that would be one banana apeece for each boy. Now three bannanas among 17 boys would be wath?"

"Three bannanas, m'im," answered Tommy.

"I know, but three into 17 is—" said the teacher.

"Three bannanas would go into 17 boys once and none over," said Tom-mey, confidently.

It was then that the new teacher resigned.—Harper's Weekly.

AFTER SUFFERING TEN YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

MARLTON, N. J.—I feel that Lydia E. Pinkham's Vegetable Compound has given me new life. I suffered for ten years with serious female troubles, inflammation, indigestion, nervousness, and could not sleep. Doctors gave me up, as they said my troubles were chronic. I was in despair, and did not care whether I lived or died, when I read about Lydia E. Pinkham's Vegetable Compound; so I began to take it, and am well again and relieved of all my suffering.—Mrs. GEORGE JOHNSON, Box 40, Marlton, N. J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaint, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Just Her Size.

Mistah Bones—Say, Sam, who got de fast prize at de cull'd masquerade ball last night?

Mistah Jones—De woman's prize dun went to Miss Peagle Washington. She wuz dere as 'Faith, Hope an' Charity.'

Mistah Bones—Why, she couldn't dun go as three people all at once.

Mistah Jones—Huh! Doan's dat gal weigh over three hundred pounds?

COVERED WITH HIVES.

Child a Mass of Dreadful Sores, Itching, Irritating Humors for 2 Months --In Terrible Plight--Disease Cured by Cuticura.

"My six year old daughter had the dreadful disease called hives for two months. She became afflicted by playing with children who had it. By scratching she caused large sores which were irritating. Her body was a complete sore but it was worse on her arms and back. We employed a physician who left medicine but it did not help her and I tried several remedies but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. Mrs. G. L. Fridhoff, Warren, Mich., June 30 and July 13, '08."
