Purchased Large Timber Tract.

The Huyett-McNitt Lumber Company, who have been operating in Centre county the past twelve or fifteen years, and just finished cutting at Snyderdown, have purchased the D. W. Baer tract of timber land in Ferguson and Halfmoon townships and will put up a big saw mill in the near future to manufacture the timber thereon. There are four thousand acres in the above tract and most of it is covered with virgin pine and oak timber, enough it is estimated to make twenty million feet of lumber.

The McNitt-Huyett Lumber Company has also a two-thirds interest in large lumber operations being conducted by the Juniata Lumber Company, formerly the East Waterford Lumber Company, which company is erecting a modern mill at Frostburg, Maryland, on a large tract of heavy oak timber.

Not a Mixture of Stimulating Drugs.

We want to emphasize one point right here—Badger Feeds are not condiments nor mixtures of stimulating drugs, which force greater results for a brief time at the expense of the physical constitution of the animal. They are honest combinations of grains and cereals which have long proved their value in supplying farm animals with the proper elements of nutrition for making milk, muscle and flesh to the best advantage. While they have no undue, stimulating influence, they are especially appetizing and like food for human beings, produce good results because stock relish them and they meet their needs to perfection. It's the same with live stock as it is with human beings, the things we like the best do us the most good. This is one of the secrets of the success of Badger Feeds. They are palatable, succulent and especially nutritious. For sale by J. H. and S. E. Weber, Centre Hall and Oak Hall, who just received a full car load of the feed.

MOST INQUITOUS PLAN TO USURP POWER

Dangerous "Joker" in One of Proposed Constitutional Amendments.

SNAKETHATOUGHT TO BE KILLED

Proposed Amendment Number Seven Would Deprive the People of the Right to Vote For Election Officers and Give the Legislature Opportunity to Debauch Elections and Manipulate Returns at Will.

Citizens who favor honest politics and just government have grave reasons to be alarmed on account of the provisions of one of the proposed amendments to the constitution. It is a palpable attempt upon the part of the machine legislature to deprive them of one of their most important political rights. If adopted the people of the cities will no longer enjoy the privilege of selecting their own election officers by ballot. They will be appointed by the machine "in such manner" as the machine legislature "may by law provide."

Section 14, article 8, of the constitution of Pennsylvania reads as follows:

Section 14. District election boards shall consist of a judge and two inspectors, who shall be chosen annually by the citizens. Each elector shall have the right to vote for one judge and one inspector, and each inspector shall appoint one clerk. The first election board for any new district shall be selected, and vacancies in election boards filled, as shall be provided by law. Election officers shall be privileged from arrest upon days of election, and while engaged in making up and transmitting returns, except upon warrant of a court of record or a judge thereof, for an election fraud, for felony, or for wanton breach of the peace. In cities they may claim exemption from jury duty during their terms of service.

The proposed amendment reads as follows:

Section 14. District election boards shall consist of a judge and two inspectors, who shall be chosen biennially by the citizens, at the municipal elections; but the general assembly may require said boards to be appointed in such manner as it may by law provide. Laws regulating the appointment of said boards may be enacted to apply to cities only. Provided, that such laws be uniform for cities of the same class. Each elector shall have the right to vote for the judge and one inspector, and each inspector shall appoint one clerk. The first election board for any new district shall be selected, and vacancies in election boards filled, as shall be provided by law. Election officers shall be privileged from arrest upon days of election, and while engaged in making up and transmitting returns, except upon warrant of a court of record or a judge thereof, for an election fraud, for felony, or for wanton breach of the peace. In cities they may claim exemption from jury duty during their terms of service.

It will be noticed that the only difference between the sections as at present worded and that which it is proposed to substitute is the language emphasized in the above quotation. Obviously the intent of the legislators who conceived and proposed this amendment hoped to deceive the people by the similarity of expression into an indifference on the subject. The original provision and the proposed amendment begin and end alike, but they are vastly different. The amendment applies only to cities, it is true, but it applies to all cities, and will give the machine legislature absolute control over so large a proportion of the total vote that it would be utterly impossible to counteract the frauds which might easily be projected and perpetrated.

It is hardly necessary to speak of the manner of appointing election boards in the cities which the machine legislature would adopt in the event that this power was conferred upon it by an amendment of the constitution. The legislatures of 1903 or 1905 would, in all probability, have appointed a commission consisting of Jim McNichol, Dave Lane and Sam Salter, for Philadelphia, and men of the same type for other cities of the state, to appoint the election boards. Or it might authorize the Republican state committee to appoint them for all cities. There is absolutely no provision for restraint of the partisanship in the legislature in the event that this odious proposition is insinuated into the constitution.

The Williamsport Sun, in discussing this question, says:

It is doubtful whether in the history of Pennsylvania as bold an attempt to usurp the people's right and delegate the same to a political party was ever made as is now being attempted by a machine Republican legislature in one of the proposed amendments to the constitution to be voted upon at the November election. Fortunately the attempt has been unmasked in time to frustrate its fruition. The amendment in question is that pertaining to the election of district election boards, intending to make the same appointive instead of elective, thus compelling the people to surrender the most important political right they possess, and to part with a safeguard which really lies at the very source of liberty. As it appears upon the ballot to be voted in November the amendment is number seven.
