The hunting spirit in Messrs. Joseph M. Gilliland, of New Bloomfield, and W. O. Rearick, of Milroy, is running higher this season than ever. Heretofore they were contented to hunt in the Seven Mountains and Allegheny Mountains, regions where they have had plenty of sport chasing deer and bears, but this fall they went north, landing at St. Johns, New Brunswick, and are in search of moose. There is little doubt but that they will return with the much coveted palmed antlers of the moose.

From Former School Principal.

These lines are from Prof. A. Merrill Allison, formerly principal of the Centre Hall High School, whom his pupils and the citizens kindly remember on account of the efficient work he did here. As will be seen he is identified with school work at this time: "My address this year is 244 N. Green St., Highland Park, Ill. The town is the suburban residence district on the lake shore, about twenty miles north of Chicago. Our school is the Deerfield Township High School whose district includes a number of suburban towns. When I was in Centre Hall you were interested, I remember, in the centralization of rural schools. There are several four-mule teams used to bring children to the graded schools here and a couple two-horse teams that bring pupils to the high school. A considerable proportion of our pupils also come on the electric cars. I thought you might be interested in knowing how the problem of transportation is solved where the centralized system is in use.

With kind regards for yourself and the Reporter force, I am."

Henney's Millinery Opening

Mrs. Lucy Henney went to Philadelphia Wednesday morning to purchase her fall and winter millinery goods, and will have the stock unpacked and placed in position for the opening days which will be Thursday and Friday of next week, October 7th and 8th.

Mrs. Henney is so well acquainted with the wants of her customers that she is able to select just the goods to suit their tastes, and does so regardless of the first cost of them.

Although these are prosperous times the dollar is an item to every one, and it is the willingness of Mrs. Henney to sell at modest prices her elegant and stylish selections of goods that has built up for her such a large trade in Centre county. The same class of goods sold in the larger towns may be bought from her at a handsome reduction in price; much more than enough to cover the expense of the trip and time to come here.

Remember the opening days, Thursday and Friday, and that while the stock will be large and varied, it will be some satisfaction to pick from the unbroken stock.

The Zettle Reunion.

The third annual Zettle reunion held last Friday in Harter's grove, in Georges Valley, was well attended by the Zettle descendants in Centre and adjoining counties.

Rev. J. M. Rearick, of Salona, and Rev. B. F. Bieber, of Centre Hall, were present and made addresses. Rev. Rearick, who was a former pastor of the Georges Valley Lutheran church, to which most of the Zettles belong, feelingly referred to the past; that the name Zettle for many years appeared very often on the Georges Valley church records, and had made for themselves an enviable record in both the church and community.

The officers elected for the ensuing year are Jerry Zettle, president, and William M. Grove, secretary, and the last Thursday in July, 1910, was selected as the day for the next reunion.

Exhibit of Insects.

Among the exhibits at the Grange Encampment and Fair which was highly instructive and interesting was one by Dr. H. F. Bitner, of Centre Hall, and consisted of a number of trays of insects, most of which are of a harmful nature. The insects are well preserved and handsomely mounted. In the collection were a hundred or more species of beetles, several hundred butterflies, etc., and two cases of moths of one hundred or more. Some of the insects were native, and others were secured in the West Indies, Mexico and South America. Mr. Bitner will be pleased to show the collection at any time to farmers or others who are interested in them, and give an account of their habits and destructive or beneficial nature as the case may be.

Pastor Remembered.

Last Sunday forenoon, Rev. J. Max Lantz, pastor of the Methodist church of Centre Hall, preached a most excellent "Harvest Home" sermon. For this service the members of the congregation aided by some friends of other denominations, had decorated the church with all the fruits of the season—canned fruits, jellies, tomatoes, potatoes, pumpkins, apples, pears, grapes, etc.

After the service the pastor was informed that the "decorations" were for him, and this caused his face to light up with pleasure. He further showed his appreciation by coming in person for the things early on Monday morning.

When You Take Cold

One way is to pay no attention to it; at least not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pectoral. If he says, "The best thing for colds," then take it. Do as he says, anyway.

When the bowels are constipated, poisonous substances are absorbed into the blood instead of being daily removed from the body as nature intended. Knowing this danger, doctors always inquire about the condition of the bowels. Ayer's Pills.

FRIEND FARMER:

We wish to call your attention to the Weber and Columbia Wagons we have been offering you for the last few weeks through the columns of this paper.

In referring to the good qualities of these wagons we wish to say that nothing but the best of material enters into their construction; this combined with the best of mechanical skill, and the latest improved machinery designed especially for the construction of wagons, goes to make up these most complete and perfect wagons; not even the smallest details are overlooked.

The lumber used is selected by experienced men and is of four years' seasoning.

The axles are of the very best grade of hickory.

The hubs are the very best quality of white oak.

The spokes are strictly A 1 grade of oak and hickory mixed and driven in hot glue.

The fellos are oak and are thoroughly soaked in boiled oil before tires are set, and are joined with improved steel dowels, which prevents clipping at the joints.

They are exceptionally well ironed, light running and attractively painted, and in all a wagon that will give years of service.

We very cordially invite you to step in and examine these splendid wagons whether you are contemplating a purchase now or not. We want you to thoroughly understand their construction and see where they are better than the ordinary vehicle.

The important thing in buying a wagon is to know before hand what service it will give you; the important thing in selling them is to show you that, as well as we can, and then be sure that they are as good as we lead you to expect.
