A saw mill located at Coroll, about five miles east of Loganton, was totally destroyed by fire. The mill belonged to Frank Harner. There was no insurance. The loss was \$1000.

There are more than the usual number of public sales this fall. The high prices at which grain of all kinds are selling no doubt has something to do with the desire to sell all surplus stock.

Mrs. Rebecca Floray, who has been confined to bed on account of a weak heart and stomach trouble, for the greater part of the time since the beginning of June, is not improving.

Mrs. Viola Love, wife of John C. Love, died at her home in Altoona of heart disease. She was thirty-eight years of age and was born at Zion, this county, being a daughter of Mr. and Mrs. Emanuel Garbrick.

If you have real estate to sell advertise it in the Reporter. When property is advertised the man who wants to buy comes to the conclusion that the man who wants to sell means business, and that is a great step toward the consummation of a deal.

Among the prettiest homes in Centre Hall is that of Lyman L. Smith, near the station. It is a brick structure, is well finished throughout, presents a fine appearance on the exterior and is handsome on the interior. Mr. Smith and family now occupy it, and they should be well contented.

The Commissioners convention met at Gettysburg last week and was attended by Commissioners Dunlap and Zimmerman and their clerk, E. J. Williams. Clement Dale, attorney for the board, was also in attendance at the convention, and made the opening address in behalf of the visiting commissioners.

Mrs. Abraham Brown, of East Buffalo township, Union county, who was injured by a cow, died last week. She was well advanced in years. The lady was leaving the cow stable when a cow dashed out of the door, knocking her down and injuring her to such an extent that she was unconscious when picked up, and never regained consciousness.

A trip to Rochester, New York, was made recently by Mr. and Mrs. J. W. McCormick, of Columbia, South Carolina. They went there with a view of purchasing several vehicles to be used in connection with the McCormick undertaking establishment, and this was necessitated on account of a fire which burned several vehicles belonging to the establishment.

H. G. Strohmeyer, the marble dealer, is finishing several large monuments which he expects to put in position before the winter sets in. Now is a good time to make a contract with him for spring delivery. The same grade of material and workmanship can not be had anywhere else for the same money as Mr. Strohmeyer will furnish it. Comparison of prices will demonstrate this.

Sunday morning while Henry Raudabaugh and family of Boonville, were on their way to Sunday school and church services at Greenburr, his team became uncontrollable. While going down the Boonville hill one of the traces unhooked, causing the neck yoke to become detached from the pole, so the team ran away, upsetting the vehicle and throwing the family out. Mrs. Raudabaugh and son received several severe bruises.

Mr. and Mrs. Vonada, accompanied by their two children, of Sylvan Grove, Kansas, are in the east, the guests of Mr. and Mrs. S. D. Burris, father of Mrs. Vonada, as well as her brothers, Charles S. and Lanson J. Burris. They are engaged in farming, having gone to Kansas some thirty years ago, and improved the land they now own and live on. Mr. Vonada is a native of Woodward. They will remain east for a month.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable by kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

DEFEAT AMENDMENT NO. 7 IS URGENT DUTY

Pittsburg Chamber of Commerce Sounds Alarm to Voters.

POINTS OUT STARTLING DANGER

City Gangsters Could Manipulate Election Results, Through Corrupt Election Officers, if the Seventh Amendment is Adopted.

Defeat of amendment No. 7, of the series of constitutional amendments on which the people of Pennsylvania are to vote this fall, has been called for by the Pittsburg Chamber of Commerce.

It is the fear of the Chamber of Commerce that amendment No. 7 will allow political schemers to gain control of city election boards for crooked purposes. Should this particular amendment be adopted, it would open the way for the naming of such boards in the city by appointment instead of by election. That change undoubtedly would serve to make election boards more corrupt and to multiply ballot frauds.

In a public statement the directors of the Chamber of Commerce say:

The board of directors of the Chamber of Commerce of Pittsburg would respectfully call attention to the following matter of vital importance to the citizens of Pennsylvania, and one worthy of the most careful consideration and action by the electors of the state.

By joint resolution of the senate and house of general assembly of Pennsylvania, passed at the session of 1907, a number of amendments were proposed to the present constitution of this state. Among them are the following:

Amendment 7.—To Article VIII.

Section 14. Amend Section 14 of Article VIII, which reads as follows:

"District election boards shall consist of a judge and two inspectors, who shall be chosen biennially by the citizens. Each elector shall have the right to vote for the judge and one inspector, and each inspector shall appoint one clerk. The first electing boards, for any new district shall be selected and vacancies in election boards filled as shall be provided by law. Election officers shall be privileged from arrest upon days of election and while engaged in making up and transmitting returns, except upon warrant of a court of record or judge thereof, for an election fraud, for felony or wanton breach of the peace. In cities they may claim exemption from jury duty during their terms of service."

So as to read: "District election boards shall consist of a judge and two inspectors, who shall be chosen biennially by the citizens at the municipal election; but the general assembly may require said boards to be appointed in such manner as it may by law provide. Laws regulating the appointment of said boards may be enacted to apply to cities only; provided that such laws be uniform for cities of the same class. Each elector shall have the right to vote for the judge and one inspector and each inspector shall appoint one clerk. The first election board for any new district shall be selected, and vacancies in election boards filled as shall be provided by law. Election officers shall be privileged from arrest upon days of election and while engaged in making up and transmitting returns, except upon warrant of a court of record or judge thereof, for an election fraud, for felony or for wanton breach of the peace. In cities they may claim exemption from jury duty during their terms of service."

This proposed amendment will be submitted to the voters at the election this fall for approval or rejection. If approved, it becomes a part of the state constitution, and must be observed as such, unless eliminated by a future constitutional amendment. Inasmuch as the constitution cannot be amended more than once in five years, this proposed amendment would have considerable time to operate before it could be replaced or superseded by another.

The amendment is surrounded by a multitude of other proposed amendments, which cloud the mind from its purport, and it is only by close reading that its meaning and mischief become clear.

Only forty-eight words seek to change the practice respecting selection of election boards for almost a century, and to destroy the first foundation of the people's political freedom. These words are so obscure and the amendment so sandwiched between others of more or less importance, and placed with such cunning in the proposed amendment itself, that only a close reading reveals the true purport of the change.

The proposed amendment first purports to leave the constitution just as it is respecting the selection of election boards. It begins by repeating almost the exact words of the same section of the present constitution, viz.: "District election boards shall consist of a judge and two inspectors, who shall be chosen biennially (instead of annually) by the citizens at the municipal election." A hasty reader would overlook the meaning of what follows, for the last part of the proposed amendment is similar to the paragraph on the same subject of the present constitution. It is as follows: "But the general assembly may require said board to be appointed in such manner as it may by law provide. Laws regulating the appointment of said boards may be enacted to apply to cities only; provided, etc."

It leaves the cities in a worse condition than the country districts, for by its provisions the country districts may be left in full enjoyment of their ancient privileges, while the cities may be deprived of them, or both city and country may be legislated into the merciless hands of the political party in power, either or both at the will of the majority. It is doubtful if such a piece of legislation was ever proposed before to a free and intelligent people.

FRIEND FARMER: We wish to call your attention to the Weber and Columbia Wagons we have been offering you for the last few weeks through the columns of this paper. In referring to the good qualities of these wagons we wish to say that nothing but the best of material enters into their construction; this combined with the best of mechanical skill, and the latest improved machinery designed especially for the construction of wagons, goes to make up these most complete and perfect wagons; not even the smallest details are overlooked. The lumber used is selected by experienced men and is of four years' seasoning. The axles are of the very best grade of hickory. The hubs are the very best quality of white oak. The spokes are strictly A 1 grade of oak and hickory mixed and driven in hot glue. The fellos are oak and are thoroughly soaked in boiled oil before tires are set, and are joined with improved steel dowels, which prevents clipping at the joints. They are exceptionally well ironed, light running and attractively painted, and in all a wagon that will give years of service. We very cordially invite you to step in and examine these splendid wagons whether you are contemplating a purchase now or not. We want you to thoroughly understand their construction and see where they are better than the ordinary vehicle. The important thing in buying a wagon is to know before hand what service it will give you; the important thing in selling them is to show you that, as well as we can, and then be sure that they are as good as we lead you to expect.
