

Hitner-Kittafelter.
The marriage of John K. Hitner and Miss Bessie E. Kittafelter took place at the Lutheran parsonage, Lewistown, Wednesday of last week. Rev. M. S. Cressman, D. D., officiating. Both parties are residents of near Tusseyville, the groom being a son of George Bitner and the bride a daughter of William Klinefelter.

Compromised.
Gardner Grove, east of Centre Hall, caused the arrest of W. R. Homan, a public school teacher in Gregg township, charging that he (Homan) had too severely punished a son of Mr. Grove's. The case was brought before Justice W. B. Mingle, and after hearing a part of the evidence, the case was settled.

LOCALS.
Mrs. Mary A. Ross and Mrs. John W. Conley, of Centre Hall, attended the funeral of Mrs. Elizabeth Brown, in Milroy, Wednesday afternoon. Mrs. Brown, before marriage was Miss Alexander, and was an aunt of the ladies.

Ruth, the little daughter of Mr. and Mrs. John Lepard, of Bellefonte, is ill with diphtheria. The little girl is a niece of Mrs. Samuel Gingerich, near Centre Hall, and the past summer spent considerable time in the Gingerich home.

The latter days of October were most beautiful. Sunday the highest temperature reached was seventy degrees. The sun was bright all day long, making it a lovely day throughout. Monday, November 1st, was also a bright, sun crowned day.

Smith's Legislative Hand Book for 1909, so long conducted by the late Thomas Cochran, editor of The Lancaster Examiner, has appeared. Messrs. Herman P. Miller and W. Harry Baker being the new compilers. The book contains 1014 pages.

The food laws enacted by the several states have been the cause of bringing to the local market a grade of oyster that can be eaten without washing the inners with embalming fluid. The oysters now sold here are first class and no one need hesitate eating them.

Frank M. Fisher, trustee in the matter of the estate of the late Isaac Long, of Gregg township, deceased, will sell three tracts of land in Gregg township, along Brush Mountain, known as the Wise property, Tuesday, November 23, at one o'clock. There are three tracts, but they will be sold as a whole. For further information see advertisement in this issue and posters.

Dr. C. M. Parish, of Bellefonte, while hunting on Nittany Mountain, became lost and wandered over the mountains until after dark. He was searched for by his hunting companions, Dr. P. S. Fisher and son, Charles Fisher, and found about nine o'clock. It was not until the moon became visible that the doctor was able to get his bearings and find the way toward Z on.

C. H. Diehl, of Pottsgrove, who is operating a saw mill in the Seven Mountains in the vicinity of the Nevill farm, south of Colyer, in company with C. T. Longer, of Millmont, were callers at this office one day last week. Mr. Diehl is an experienced lumberman, and is making a clean sweep of the remaining timber in that section. He is doing the sawing for the Neff Brothers' circular barn, and is also ready to do other custom work.

Chickens will have to roost higher than was the custom of the flock owned by John Durst, at Centre Hall station, if they do not want to get into the bag of a professional chicken thief. That is what happened the whole of the flock of Mr. Durst, a week or ten days ago. He is very anxious to know who bagged the fowls, but so far the thief is satisfied with his game and is keeping quiet. Of course, there is some suspicion who the hen-roost robber is, and it is believed that he is an old offender.

It was generally supposed that apples would be very scarce in this section, but since they have been gathered in it looks very much as though, like potatoes, there would be more than twice the bushels first calculated on. The evaporator has been having a good supply of fruit for evaporating purposes, and besides these Messrs. Long and Mingle shipped from Centre Hall three car loads—one last and two this week. Then there were many bushels of apples shipped by these buyers, as well as by individuals, in small barrel lots.

The cold, wet days in October retarded corn husking on many farms, and now the beginning of November finds a considerable portion of the crop yet to be cared for. Generally speaking the corn was a poor crop, but a number of farmers report fair yields, now that the ears have all been plucked and stored away. The quality of the corn, although much smaller in the ear, is considerably better than was anticipated. This is the condition at least in belts where frost did not kill the stalks until late. Where the frost came early, as it did in most of the sections in lower Penns Valley, the corn is of a much poorer quality.

McClure Magazine wants a man or woman in Centre Hall and vicinity to attend to its subscription interests. Whole or spare time. There is a liberal guaranteed salary. The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

FRIEND FARMER:

We wish to call your attention to the Weber and Columbia Wagons we have been offering you for the last few weeks through the columns of this paper. In referring to the good qualities of these wagons we wish to say that nothing but the best of material enters into their construction; this combined with the best of mechanical skill, and the latest improved machinery designed especially for the construction of wagons, goes to make up these most complete and perfect wagons; not even the smallest details are overlooked. The lumber used is selected by experienced men and is of four years' seasoning. The axles are of the very best grade of hickory. The hubs are the very best quality of white oak. The spokes are strictly A 1 grade of oak and hickory mixed and driven in hot glue. The felloes are oak and are thoroughly soaked in boiled oil before tires are set, and are joined with improved steel dowels, which prevents clipping at the joints. They are exceptionally well ironed, light running and attractively painted, and in all a wagon that will give years of service. We very cordially invite you to step in and examine these splendid wagons whether you are contemplating a purchase now or not. We want you to thoroughly understand their construction and see where they are better than the ordinary vehicle. The important thing in buying a wagon is to know before hand what service it will give you; the important thing in selling them is to show you that, as well as we can, and then be sure that they are as good as we lead you to expect.

FOREMAN & SMITH
