

Waste of Energy.
In antebellum days Colonel Moore, of Kentucky, owned a large number of slaves. He was a kind master and never punished with the whip. One day one of the field hands named Jupe was guilty of some negligence and was sent to the woods at once to cut down and split up a black gum tree, practically an impossible task. Jupe cut down the tree and labored hard to split the tough wood, but in vain. In the meantime a thunder-storm came up and Jupe sought refuge under a brush heap. Directly the lightning struck a large poplar near by, splitting it into kindling wood.
After the storm had passed Jupe crawled out from his place of security and, after taking a careful look at the remains of the poplar tree, which was scattered all over the woods, said: "Mr Lightning, I wish you had just tried my 'han' on dis black gum. Any blame fowl can split a poplar!"—Cleveland Leader.

COMMERCIAL
Weekly Review of Trade and Market Reports.

Bradstreet's says:
Except for the fact that unseasonably warm weather tends to retard the fullest development of retail in heavy-weight and winter goods, the general trade and industrial report this week is one of widespread and increasing activity. Jobbing trade in dry goods, millinery, shoes, clothing, hardware and, in fact, most lines of distribution is active, holiday demand is broadening and spring trade reports are very good, increases being general in nearly all lines. The same is true of industrial operations, iron and steel being as active as ever, with outputs close to or in excess of the maximum. Coal is in increasing demand, and lumber and other material is active. All this, it might be remarked, occurs with prices of commodities at a high level, and with reports of stock of raw materials and of manufactured goods in no apparent way burdensome or holding forth promise of early becoming so. In the cotton goods trade, it is true, the very great advance in raw material at a time of nearly record movement to market is a source of unsettlement. Many mills North and South have announced curtailment in time run, but the Fall River mills have not yet joined in the movement, and the feeling is widespread that the coarse goods trade will feel the brunt of the promised curtailment.

Willie's Dad Kept Word.
When Willie's father came home to supper there was a vacant chair at the table.
"Well, where's the boy?"
"William is upstairs in bed." The answer came with painful precision from the sad-faced mother.
"Why wh—what's up? Not sick, is he?" (An anxious pause.)
"It grieves me to say, Robert, that our son—your son—has been heard swearing on the street! I heard him."
"Swearing? Scott! I'll teach him to swear." And he started upstairs in the dark. Half-way up he stumbled and came down with his chin on the top step.
When the atmosphere cleared a little, WILLIE'S mother was saying sweetly from the hallway: "That will do, dear. You have given him enough for one lesson."—Judge.

OWES HER LIFE TO
Lydia E. Pinkham's Vegetable Compound
Vienna, W. Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound. Mrs. EMMA WHEATON, Vienna, W. Va.
Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaint, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.
If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Quite Another Thing.
"Whom are you going to give those cigars to?"
"To the janitor, so that he will give us more heat."
"Why, I thought I heard you abusing him terribly this morning."
"My dear woman, you don't think I dare address the janitor like that? I was talking to the landlord."—November Lippincott's.

Eleven Deadheads.
Mike Murphy, the University of Pennsylvania's famous trainer, said of a Pennsylvania player:
"He has the self-sacrifice and the inventiveness, minus the deceit, of a man at a Philadelphia game last year. When the crowd was entering thickest at Franklin Field one afternoon this man shouted to the ticket-taker from down the line:
"It's all right. I've got the tickets. There's 12 of us. Count 'em as they go in."
"Eleven men were counted. They entered the field and mingled at once with the crowd.
"Then the ticket-taker turned to the twelfth man—but he had disappeared."—Washington Star.

WHY PEOPLE SUFFER.
Too often the kidneys are the cause and the sufferer is not aware of it. Sick kidneys bring headache and side pains, lameness and stiffness, dizziness, tired feeling, urinary troubles. Doan's Kidney Pills cure the cause. Mrs. Virginia Spitzer, Buena Vista, Va., says: "For thirty years I suffered everything but death with my kidneys. I cannot describe my suffering from terrible bearing down pains, dizzy spells, headaches and periods of partial blindness. The urine was full of sediment. I was in the hospital three weeks. Doan's Kidney Pills were quick to bring relief and soon made me well and strong again."
Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

German Household Economy.
The American consul at Nuremberg reports on an interesting statistical study of household economy in Germany. In the report considered the government took into account 852 families, the heads of which were asked to keep a careful account of the wage income from all sources and the outgo for the period covered by the study.
The total annual income was \$444,501, and the total expenditures \$453,005, leaving a deficit of more than \$8,000 at the end of the year.
For skilled industrial workmen the annual average income in Germany, among the families considered, was found to be \$443. The average income for all the families in the reckoning was \$521.70, while average expenditures amounted to \$531.69, which left each family owing approximately \$10 at the end of the year.

When it is considered that these averages may be accepted as the average for the better class of wage-earners in Germany it would seem that, so far as the matter of comparison is concerned, the average American wage-earner, whether skilled or unskilled, has little about which to complain. The showing in Germany is more remarkable on account of the difference between earnings and expenditures, and suggests the need of larger incomes or greater economy in household affairs, else wage-earners in Germany will soon find themselves burdened by a growing debt which they cannot hope to overtake.

CAREFUL DOCTOR
Prescribed Change of Food Instead of Drugs.

It takes considerable courage for a doctor to deliberately prescribe only food for a despairing patient, instead of resorting to the usual list of medicines.

There are some truly scientific physicians among the present generation who recognize and treat conditions as they are and should be treated regardless of the value to their pockets. Here's an instance:
"Four years ago I was taken with severe gastritis and nothing would stay on my stomach, so that I was on the verge of starvation.
"I heard of a doctor who had a summer cottage near me—a specialist from N. Y., and as a last hope, sent for him.
"After he examined me carefully he advised me to try a small quantity of Grape-Nuts at first, then as my stomach became stronger to eat more.
"I kept at it and gradually got so I could eat and digest three teaspoonfuls. Then I began to have color in my face, memory became clear, where before everything seemed a blank. My limbs got stronger and I could walk. So I steadily recovered.
"Now after a year on Grape-Nuts I weigh 152 lbs. My people were surprised at the way I grew fleshy and strong on this food."

THEIR SKIN TROUBLES CURED.
Two Little Girls Had Eczema Very Badly—In One Case Child's Hair Came Out and Left Bare Patches—Cuticura Met with Success.
"I have two little girls who have been troubled very badly with eczema. One of them had it on her lower limbs. I did everything that I could hear of for her, but it did not give in until warm weather, when it seemingly subsided. The next winter when it became cold the eczema started again and also in her head, where it would take the hair out and leave bare patches. At the same time her arms were sore the whole length of them. I took her to a physician, but the child grew worse all the time. Her sister's arms were also affected. I began using the Cuticura Remedies, and by the time the second lot was used their skin was soft and smooth. Mrs. Charles Baker, Albion, Me., Sept. 21, 1938."

Remedies are Needed
Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangement, the "Discovery" is a time-proven and most efficient remedy.
