Weekly Review of Trade and Market Reports.

R. G. Dunn & Co.'s Weekly Review of Trade says:

Further progress is made in the readjustment of the markets to the higher prices which are inevitable in a period of big gold production, reviving industry and active speculation.

While some slackening of demand is reported in a few departments of iron and steel, this is not surprising in view of the recent pace at which consumption has expanded. In other lines, however, greater activity is reported, and practically all mills find it increasingly difficult to make deliveries. The recent quiet in the structural division has been followed by the appearance of several important contracts and it is estimated that new projects contemplated will call for over 100,000 tons of steel. Buying of rails is well maintained, much of the business extending into next year and orders for bars are conspicuously large. Activity in pig iron is centered chiefly in the East, but demand continues brisk in all leading centers.

The break and subsequent recovery in the cotton markets served to make buyers more cautious, but at the same time led manufacturers of cotton goods to be more free in discussing terms of new contracts. Prices are being adjusted steadily to the higher costs of production.

Great Scheme.
"Great Caesar, Old Man," exclaimed the gunner, as he opened the door and found his friend's house brilliantly illuminated at noonday. "What does this mean? Why are all these blankets over the windows and why is the gas burning in the daytime?"

"Sh!" whispered Guyer, cautiously. "It's a scheme of mine."

"What kind of a scheme?"

"Why, my wife is in the country and I tell her I remain home every night and read. I've got to get rid of some gas somehow so it will go on the bill at the end of the month."

Women who suffer with backache, bearing down pain, dizziness and that constant dull, tired feeling, will find comfort in the advice of Mrs. James T. Wright, of 519 Goldsborough St., Easton, Md., who says: "My back was in a very bad way, and when not painful was so weak it felt as if broken. Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physicians which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.
