Child Shoots Mother.

A four year old son of Mr. and Mrs. Charles Welshans, of Rauchtown, Clinton county, discharged a rifle lying on the table in the kitchen of the home, the bullet striking Mrs. Welshans on the hip. She was so seriously wounded that physicians could give no relief. Death came within a few hours.

The father had loaded the gun and laid it on the table while he was getting ready to go to a neighbor's house to butcher. The child became curious, and tripped the trigger like he had often been permitted to do when he gun was empty.

The Review of Reviews

First, because it is a necessity—that is the rule in magazine buying of America's intellectual aristocracy. It is indispensable to the busy business man, who must keep abreast of the times, because it gives him the real news of the day in concise, readable form; it is invaluable to the thinking man, who demands only the truth and then draws his own conclusions, because it gives him just plain, straight facts.

It is helpful to the whole family. In it you will find a monthly picture

of men and affairs by Dr. Albert Shaw, in his comprehensive editorial, "Progress of the World;" a clever cartoon history of the month; book reviews; the gist of the best which has appeared in the other magazines and newspapers of the world; pithy character sketches; and interesting articles on the all-important topics of the day. Authoritative, non-partisan, timely and very much to the point, it's a liberal education, it's the way subscribers express it.

OUR 1909-10 CATALOGUE

of all American magazines is a money-saver. You can't afford to order for next year without first seeing it. If you appreciate superior agency service, and demand maximum magazine value for the fewest dollars, write for it—today. It's free to YOU.
