Portland Cutters and Bob Sleds.

The season is here for sledding. It will come, too. We have prepared for it by securing a number of Portland cutters and bob sleds. The Portlands are upholstered with the best material, and in the best workmanship manner. The ironing is ample, and braces are found where most needed. The finishing—painting—is superior to any, and guaranteed to retain their luster. The Portlands cannot be adequately described, they must be seen to be appreciated.

The sleds are constructed with a view of endurance, easy and true running. Every feature of them will bear inspection. Before you buy a sleigh or bob sled it will pay you well to investigate the make up of those at our place of business.
