THE HOUSE COMMITTEE IS WILLING.

It Would Place The United States In Possession Of A Monster Fighting Machine That Would Put The Present Dreadnoughts Of The World In The Shade - To Be Equipped With 14-Inch Guns -The Naval Program.

Washington, D. C. (Special) .- The building of a world record-breaking battleship of no less than 32,000 tons displacement at a cost of approximately \$18,000,000, and the making of the United States the leading naval power of the world are planned by Secretary of the Navy Meyer.

This was what Secretary Meyer is said to have told the members of the House Naval Committee was his The members of the committee stated that the Secretary's radical plans for naval advancement were favorably received by the committee.

At the session of the committee even the stenographer was barred. and the Secretary discussed freely welcomed. with the members his plans for the Navy. He said that it was his purpose that the United States should not follow in the wake of any other nation in naval atvancement, but refer in this instance particularly to or armament, but to various features of improvement of the efficiency of ships and guns.

74 ESCAPE FROM MINE.

Explosion May, However, Cause One Man's Death.

Central City, Ky. (Special). - An explosion of gas in the mine of the Iron Mountain Coal Company, three miles from this place, probably fatally burned Warren Gibbs, a miner, but 74 men, who, with Gibbs, comprised the day shift, escaped with slight bruises.

The men went underground at the usual hour and were proceeding to their rooms, when Gibbs, who was leading the way with, it is said, an uncovered lamp, hit a pocket of gas, An explosion followed in which Gibbs was fearfully burned. The other men retreated hastily, but forced their way into the workings and rescued their comrade.

Meantime the woodwork in the mine caught fire, but the men managed to reach the surface in safety. The mine is still burning.
