**Human Nature.**  
 "Queer thing about men, isn't it?"  
 remarked the thoughtful thinker.  
 "What's queer about 'em?" asked  
 the innocent bystander.  
 "Why," rejoined the T. T., "a man  
 will sit on a log half a day waiting  
 for a fish to bite, but he won't wait  
 three minutes for his wife to get  
 ready for church."—Denver News.

The water in Lake Van, in Asiatic  
 Turkey, which is about 60 miles long  
 by from 20 to 30 wide, is so strongly  
 impregnated with potash that the resi-  
 dents along its shores use to wash  
 clothing without the use of soap.

**WELL KIDNEYS KEEP THE BODY  
 WELL.**

When the kidneys do their duty  
 the blood is filtered clear of uric acid  
 and other waste. Weak kidneys do  
 not filter off all the  
 bad matter. This is  
 the cause of rheu-  
 matic pains, back-  
 ache and urinary dis-  
 orders. Doan's Kid-  
 ney Pills cure weak  
 kidneys.

Henry J. Brown,  
 53 Columbia St.,  
 Charleston, S. C.,  
 says: "For two years  
 I suffered with my  
 kidneys. Rheumatic  
 pains drove me nearly  
 frantic. My limbs  
 swelled. Nothing  
 helped me until I be-  
 gan using Doan's  
 Kidney Pills, and by  
 that time I had  
 nearly given up hope.  
 They brought me  
 a quick relief and a  
 final cure."

**COMMERCIAL**  
 Weekly Review of Trade and  
 Market Reports.

R. G. Dun & Co.'s Weekly Review  
 of Trade says:

In spite of a number of abnormal,  
 puzzling—and disturbing develop-  
 ments the volume of business is  
 large and steadily expanding as the  
 spring season opens and weather  
 conditions improve. The expansion  
 noted in iron and steel continues  
 chiefly in finished materials. There  
 are intimations that the volume of  
 new business in these lines has been  
 exaggerated, but it is evident never-  
 theless that a very considerable ton-  
 nage is being placed, and inquiries  
 now pending afford much encourage-  
 ment. The railroads are replenish-  
 ing old equipment, and activity in  
 the structural division is a promi-  
 nent feature of the situation. It is  
 estimated that buying from the lat-  
 ter source is at the rate of 100,000  
 tons monthly in the more important  
 contracts, but cutting of prices sug-  
 gests that there is sharp competition  
 among fabricating mills.

Bradstreet's survey:

Trade irregularity is still man-  
 ifest, but reports as a whole show  
 a still further improvement, due to  
 the advance of the spring season.  
 Improvement in weather, and coinci-  
 dentally in trade reports, is most  
 marked in the agricultural sections  
 of the West, Northwest and South-  
 west, while the reports from the  
 East and parts of the South show  
 the development of spring business  
 retarded by the lingering of winter.  
 However, the unsettled labor out-  
 look in many lines of industry, the  
 effect of high prices as limiting de-  
 mand, or, as in the case of cotton  
 goods, indicating curtailment of pro-  
 duction, and the tendency toward  
 judicial decisions in several impor-  
 tant cases are all bad stress upon.  
 On balance, there is little disposition  
 to deny that trade is considerably  
 better than a year ago, a period also  
 of waiting trade, and far in excess  
 of this time two years ago, but the  
 rate of progress is slower than san-  
 guine expectations had led to expect.

**Seeing A Far By Electricity.**  
 The realization of the process of  
 transmitting vision by electricity as  
 one of the great arts is but a mat-  
 ter of continued development.

A few attempts have already been  
 made at sending photographs over  
 the wire, and while the result has  
 not been all that could be wished, it  
 has served to demonstrate the prac-  
 ticability of the process. A vista of  
 wonderful possibilities is opened by  
 the advances made in television and  
 photography. And it must be  
 kept in mind that there is a radical  
 difference between the two systems.  
 While television aims to transmit  
 either photographs or living images,  
 the other is meant to send photo-  
 graphs only.

In Europe a new international fig-  
 ure springs into fame in a day. Sim-  
 ultaneously with the appearance of  
 the news in the daily papers of the  
 United States his photograph is pub-  
 lished. The cable which bears the  
 dispatch telling the story may be used  
 to transmit the man's image. Or  
 it may yet come by wireless.

A crime has been committed. Quick  
 action on the part of the police of  
 the entire country is necessary to  
 apprehend the perpetrator. With-  
 in a few hours his photograph is in  
 the hands of the police of San Fran-  
 cisco as well as New York, and his  
 chances of escape are small. Just  
 as the first great press association  
 now distributes the news of the world  
 they may furnish the daily papers  
 with photographs.—Popular Mechan-

Not an Inch of Healthy Skin Left.  
 "My little son, a boy of five, broke  
 out with an itching rash. Three doc-  
 tors prescribed for him, but he kept  
 getting worse until we could not dress  
 him any more. They finally advised  
 me to try a certain medical college,  
 but its treatment did no good. At  
 the time I was induced to try Cuti-  
 cura he was so bad that I had to cut  
 his hair off and put the Cuticura Oint-  
 ment on him on bandages, as it was  
 impossible to touch him with the bare  
 hand. There was not one square inch  
 of skin on his whole body that was  
 not affected. He— as one mass of  
 sores. The bandages used to stick to  
 his skin and in removing them it used  
 to take the skin off with them, and  
 the screams from the poor child were  
 heartbreaking. I began to think that  
 he would never get well, but after the  
 second application of Cuticura Oint-  
 ment I began to see signs of improve-  
 ment, and with the third and fourth  
 applications the sores commenced to  
 dry up. His skin peeled off twenty  
 times, but it finally yielded to the  
 treatment. Now I can say that he is  
 entirely cured, and a stronger and  
 healthier boy you never saw than  
 he is to-day, twelve years or more

**Have You Tried?**

Lydia E. Pinkham's Vegetable Compound? We can  
 furnish positive proof that it has made many remarkable  
 cures after all other means had failed.

Women who are suffering with some form of female  
 illness should consider this.

As such evidence read these two unsolicited testimonial  
 letters. We guarantee they are genuine and honest state-  
 ments of facts.

Cresson, Pa.—"Five years ago I had a bad fall, and hurt  
 myself inwardly. I was under a doctor's care for nine weeks,  
 and when I stopped I grew worse again. I sent for a bottle of  
 Lydia E. Pinkham's Vegetable Compound, took it as directed,  
 and now I am a stout, hearty woman."—Mrs. Ella E. Albee,  
 Cresson, Pa.

Baird, Wash.—"A year ago I was sick with kidney and  
 bladder troubles and female weakness. The doctors gave me  
 up. All they could do was to just let me go as easily as possible.  
 I was advised by friends to take Lydia E. Pinkham's Vegetable  
 Compound and Blood Purifier. I am completely cured of my  
 ills, and I am nearly sixty years old."—Mrs. Sarah Leighton,  
 Baird, Wash.

Evidence like the above is abundant showing that the  
 derangements of the female organism which breed all kinds  
 of miserable feelings and which ordinary practice does not  
 cure, are the very disorders that give way to Lydia E.  
 Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after  
 reading two such letters as the above, should be encouraged  
 to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable  
 Compound has been the standard remedy for  
 female ills. No sick woman does justice to  
 herself who will not try this famous medicine.  
 Made exclusively from roots and herbs, and  
 has thousands of cures to its credit.

Mrs. Pinkham invites all sick women  
 to write her for advice. She has  
 guided thousands to health free of charge.

Toad Has His Uses.

A pamphlet recently issued by  
 Secretary Wilson, of the Department  
 of Agriculture, pays a glowing tribute  
 to the toad. According to this high  
 authority, few creatures of its size  
 have suffered more from false wit-  
 ness. It is not true that it causes  
 warts, poisons infants or spoils cow's  
 milk. On the contrary, it has an  
 admirable disposition, a good singing  
 voice—for those who like that sort  
 of thing—and, above all, most com-  
 mendable industry.

An abo-bodied toad eats \$19.44  
 (wholesale rates) worth of injurious  
 worms and insects every season. It  
 is a most efficient ultimate consumer,  
 and it likes best those things which  
 the farmer likes least. It is home-  
 loving and very fond of children—  
 its own children. No farmer or sub-  
 urbanite should try to get along  
 without a couple of good toads.

Success.

**A Great Idea.**  
 "Why do you have these stiff  
 rubber bands about the bill of all  
 your hens?" we ask.  
 "Keep 'em from cackling," an-  
 swers our friend, the hen-and-eggery  
 owner. "When they find they can't  
 cackle they think they were mis-  
 taken and lay another egg."—Chi-  
 cago Evening Post.

**Fortune Telling**

Does not take into consideration the one essential to wom-  
 an's happiness—womanly health.

The woman who neglects her health is neglecting the  
 very foundation of all good fortune. For without health  
 love loses its lustre and gold is but brass.

Womanly health when lost or impaired may generally be  
 regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years,  
 been curing delicate, weak, pair-wracked  
 women, by the hundreds of thousands  
 and this too in the privacy of their homes  
 without their having to submit to indis-  
 cret questioning and offensively repug-  
 nant examinations.

Sick women are invited to consult Dr. Pierce by letter free.  
 All correspondence held as sacredly confidential. Address World's Dispensary  
 Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

Dr. Pierce's GREAT FAMILY DOCTOR BOOK, The People's Common Sense  
 Medical Adviser, newly revised up-to-date edition—1000 pages, answers to  
 Plain English hosts of delicate questions which every woman, single or married,  
 ought to know about. Sent free, in plain wrapper with any address on receipt of  
 21 one-cent stamps to cover mailing only, or in cloth binding for 31 stamps.
