TAX LAWS UNJUST, GRANGERS SAY.

Hon. L. Rhone Spokesman Before Commission Considering a Revision of Tax Laws.

In the Superior Court in Williamsport, on Friday, presided over by Senator Gabriel H. Moyer, vice chairman, the joint committee from the Senate and House appointed by the last session of the Legislature to consider a revision of the corporation and revenue laws of the state held two sessions.

The statements heard were principally from those representing the state grange, for whom Leonard Rhone, of Centre Hall, was spokesman. Accompanying him were William T. Cressy, of Catawissa; John T. Allman, of Thompsonston; W. F. Hill, of Huntingdon; E. B. Dorset, of Mansfield, and John A. McSparran, of Furness. The members of the commission present besides Senator Moyer were Senator Keyser, of Philadelphia, and Assemblyman James F. Woodward, of Allegheny, with Francis Shunk Brown, of Philadelphia, as counsel and Benjamin F. Thorp, secretary.

A dispatch from Williamsport to the Philadelphia dailies contained these comments:

Speaking for the farmers as represented by the grange, Mr. Rhone declared that the taxation policy of the state works a hardship to the property owner; that he knew of salaried men drawing \$5000 a year, who were assessed at \$500; that the average farmer is not clearing more than three per cent. on his investment; that railroads running from Pennsylvania into New York as soon as they cross the line are assessed at \$15,000 a mile and pay taxes for all local purposes, as the farmers and other property owners do. "Where," he asked, "is the justice of exempting manufacturers on their capital and what is the sense of breeding millionaire iron manufacturers so that they can give money to libraries and build auditoriums for great institutions?"

While the details of the views of Pennsylvania grangers were being brought out through the medium of questions Mr. Rhone referred to an opinion of the grange that the minimum salaries for the minimum term of public school teachers, should be paid out of the state treasury. This evoked many other questions and the subject later became the text of a speech of Assemblyman Moscrip, of Bradford county, who dwelt at considerable length on taxing conditions in New York where he thought the system was in some respects better than in Pennsylvania and in others not so good.

An address was also made by Assemblyman Dennis, of Warren.

Spraying Demonstration.

The spraying demonstration conducted near Centre Hall, in the Arney orchard, Wednesday and Thursday of last week, was very poorly attended owing to the unfavorable weather and other local conditions. The demonstration was conducted by Mr. Foster, one of the State Department's men, and consisted in trimming a number of small trees and several large ones. The work done was adjudged good by the spectators.

A spraying solution, composed of lime and sulphur, was cooked and when in proper form was applied with a hand sprayer just purchased by William H. Baird.

Outside of the local spectators there were present Emanuel Shook and James A. Keller, of Penn Hall; James W. Evans and M. T. Zubbler, of Spring Mills; Col. Fred Reynolds, of Bellefonte.

UNITED TO WIN.

So Say the Democrats Throughout Pennsylvania.

The meeting of the State Committee representing the Democratic party in Pennsylvania, at Harrisburg, last week, was the occasion of the gathering at the state capital all shades of Democrats, and as a result a proclamation of peace—united to win—has been issued. Every make of Democrat was represented—The Jeremiah Black type, the Guffy brand, the anti-Guffy type (represented by the fighting editor, Warren Worth Bailey, of Johnstown.)

"United to win"—that is the slogan, and if the battle cry is kept up until after the election, there will be a Democratic governor elected to follow Governor Stuart.

The prospective candidates are Cyrus La Rue Munson, former candidate for supreme court judge; ex-Treasurer William H. Berry, who exposed the capitol graft and the only Democrat able to elect himself since the days of Pattison, and State Senator Dewalt, who is the state chairman.

The convention will be held in Allentown, Wednesday, June 15th. Berry and his followers had a resolution adopted which provides that delegates to the state convention from every county should be instructed at the primary election.

Planting White Pines.

Messrs. Howard Wells, L. S. and Clara Horner are assisting Forester McNeal to plant trees on Nittany Mountain. Last week thirteen hundred white pines were planted on the Gordon farm on Nittany Mountain, on which farm the nursery is located. This week a consignment of twenty thousand white pine trees will be shipped here and planted on the same farm, and later about double that amount will be set out.

The white pine seed planted in the nursery on Nittany Mountain last year did not prove to be of a good quality, only a small percentage of it growing. The beds will be dug up and replanted.

LOCALS.

Suit cases and trunks, prices low—Long's Department Store.

The marriage of D. Paul Fortney, Esq., and Miss Alice Ishler, daughter of former Sheriff Ishler, is scheduled for the fourth of next month.

Daniel Daup, of Centre Hall, publishes letters of administration on the estate of his mother, Mrs. Catharine Daup, late of Potter township, deceased.

A cow belonging to A. W. Alexander, of Old Fort, developed a growth on the jaw, and fearing it might be some infectious disease the animal was killed a short time ago.

J. B. White, who last month had sale at Penns Cave, has located in Newport, Perry county, and is traveling for a milling firm as a salesman. The White family now lives in Newport.

At a congregational meeting of Presbyterians in State College, it was decided to disperse of their present church property and erect a new edifice on the Foster property, on the corner of Beaver avenue and Miles street.

The residents of Centre Hall never need be admonished to clean up the streets and alleys. That work is always attended to as soon as conditions permit. In fact, Centre Hall is never permitted to get dirty in any sense of the term. That cannot be said of every town.

Arbor day might be observed by the public schools of Centre Hall and elsewhere by the planting of ivy vines so they may be trained to grow up the school house walls. School houses generally are of such a plain character, architecturally, that the covering of the outside walls with vines will add to the attractiveness of the school surroundings.

It is about seven years since J. L. English, the junior partner of the wholesale notion house of English & Henry, in Shamokin, traveled through this section in quest of trade, and his visit to the merchants last week was consequently much appreciated. He made the trip because of the fact that Mrs. Duncan, wife of Charles Duncan, who calls regularly on the trade, was in a hospital, having undergone an operation for appendicitis.

Many a postmaster in Pennsylvania, as well as in other states, would gladly give a quarter's salary if he could only ascertain for which congressional candidate he should shout. Of course, he wants to shout for the winner. In the Barclay-Pattison-Emery contest conditions are particularly peculiar. Barclay is a Cannonite, and Emery is an anti-Cannon candidate, and this means much to the postmaster whose term will expire within the next two years.

Corn Growing Contest.

The Pennsylvania Livestock Breeders' Association announces prizes for its Corn-Growing Competition this year. Valuable cups and cash prizes are awarded to the farmers who produce the best yields. Yield counts 70 points, economy of production 20 points, sample of corn 5 points, and report 5 points. Blanks for report are furnished by the Association. No entrance or other fees. One acre must be planted and it may be a part of a field of corn. The men who win these prizes will have a mighty good market for their crop, as farmers are all looking for the corn that yields the most. Last year's first prize went to Crawford county, in the northwestern part of the state. For full particulars apply to E. S. Bayard, secretary, East End, Pittsburg, Pa.

Reducing the Cost of Living.

Richards, instructor in the Chemistry of Foods at the Massachusetts Institute of Technology, will give a practical demonstration on "The High Cost of Living and How to Reduce It" under the auspices of Department of Home Economics of The Pennsylvania State College at State College, on April 21st, 1910, at 11:30 a. m. The demonstration will show how to select meats and vegetables and how to prepare and cook them with the greatest economy.

At noon a luncheon will be served to out of town guests in the Domestic Science laboratories in the Woman's Building. At 2 o'clock Mrs. Richards will give an illustrated lecture on "Home Economics and How it Came to Be."

Howard Canning Factory Burned.

In 1904 a canning factory in Howard was erected at a cost of about thirteen thousand dollars, and Wednesday morning shortly after two o'clock it was discovered to be on fire and burned down. There was an insurance of \$6000. The factory was not operated last year, and from its very beginning was a losing venture.

The money to build the plant was raised by farmers and others subscribing for stock, and, of course these will bear the loss.

Spring Mills.

Nester Heckman last week moved from Georges Valley into town and will be employed by Hon. W. M. Allison.

April 15th will witness the formal opening of the trout season and already the lovers of the sport are looking after their tackle in anticipation of alluring the speckled beauties. This year the limit that may be caught in one day is forty, and the season will close on July 31st. None may be taken by any other method than with a rod and line, and the minimum length of trout legally caught is six inches.

Dr. A. G. Lieb, who spent the last few weeks in Philadelphia, was an arrival in town on the Monday afternoon train.

Present indications point to the fact that quite a number of students from a distance will attend the spring term of the Spring Mills Academy.

Murray and Bitner's Success.

Murray and Bitner the enterprising druggists rather than wait the ordinary methods of introduction, urged the Dr. Howard Co. to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

So much talk has been caused by this offer, and so many new friends have been made for the specific that the Dr. Howard Co. have authorized druggists Murray and Bitner to continue this special half-price sale for a limited time longer.

Two hours later it was a degree warmer, but by morning, the thermometer again indicated the twenty-nine point. The sun shone brightly Friday.

That it is an ill wind that blows no one good is again illustrated in the fact that Edward Gentzell, beginning of this week, became tenant on the Geiss farm, near Linden Hall. Mr. Gentzell was employed by the Thompsons, at Waddle, but since the fire his services were not needed, and now he is farming on the farm named above.

After drilling to a depth of two hundred and eighty feet on the Dr. S. C. Runkle farm, east of Old Fort, water was struck in abundance, and rose eighty feet. This was much to the satisfaction of J. The drilling machinery has been moved to the Wilson farm, a short distance farther east, which farm was recently purchased by the McNitt-Huyett Lumber Co., and a well is being sunk there at a convenient point, with a view of supplying water for the operation of the proposed saw mill to be erected later.
