Squirrels And Moths. If the red squirrel is inclined to destroy moth nests he can perhaps be made a powerful ally in the work. The Record this week secured what seems to be confirmation of this discovery by a case on High Street where two red squirrels have their Last year only seven nests were found on the trees in the vicinity of the home of these squirrels, and this year, when the nests are 20 times as thick in other places, only 4 are found in the same trees. It would be desirable for all who have opportunities to observe the habits of red squirrels to note what they have done in other places in clearing trees of browntail nests .-- Bruns-

Consul Alonzo B. Garrett reports that a new electric car line is about to be built in Nuevo Lauredo, Mexico. The steel rails and ties are on the ground and the right of way secured. The line will extend from the tramway bridge to the custom-house, and it is planned to extend it a little later to the machine shops of the National Railway Lines of Mexico.

Consul Solomon Berliner, of Teneriffe, learns that the Great Lakes Railway extension to Katanga will start from Bukama, terminus of the navigation of the Congo River, and join the Cape-to-Cairo Line at Kambove. As the line is about 160 miles long, and as about 62 miles will have to be built yearly, Kambove would be reached in about three years.

The customs receipts of Chili for 1909 amounted to \$24,975,628, of which \$16,740,759 were from imports and \$26,234,869 were from exports. During 1908 the receipts were \$40,-715,295, of which \$16,473,608 were from imports and \$24,241,687 from

Weekly Review of Trade and Market Reports.

While the trade development is irregular, revealing diversified conditions in different sections of the country, the volume as a whole is so large and makes such steady gains over last year that there can be no question as to its substantial character. Business activity depends so largely upon confidence, which is the basis of credit, that anything that is uncertain is disturbing to confidence. Whatever hesitation may have existed in the industries

and the markets has now been large-ly eliminated. The labor situation is much less acute, and notices of wage advances by railroads, and leading industries promise much for the future. The influence of previous uncertainties was mostly felt On one occasion, when traveling in the speculative market. along the West Coast of Africa with Bradstreet's says:

missionaries, but, "did not see the use of them," Bishop Taylor-Smith Trade reports are rather more irregular with distribution rather less active than in the preceding two was obliged to endure a string of taunting questions, such as "What weeks. Retail trade so far has been better than a year ago, but from was the good of spouting at Exeter many centers reports are of the volume of jobbing trade not being up to expectations, for which high prices and industrial unrest are as-At last the Bishop could stand it no longer. Turning to the skipper, signed as reasons. The two features Can you tell me the length of an really attracting chief interests have been the outburst of activity in agricultural sections and the many movements toward readjustment in Very well then, say an alligator

industrial lines. In the industries some diverse movements are shown.

Recent reductions of prices by lobbers have brought out varying re-Northern cotton mill curponses. failment is considerable, though less marked than at the South because of different goods produced. On the other hand, a favorable development, so far as purchasing power is conterned, is the granting of higher wages to 300,000 rail employes.

Not Caught Up.

A man who was traveling the Ozark Mountains on horseback stopped before a typical Arkansas farmhouse to inquire the way.
"What's the news?" asked the

mountaineer, as he leaned his lank frame against the fence and pulled his long beard thoughtfully. On finding that what had become

a part of history was news to him, the traveler asked why he did not take some weekly or monthly periodical, that he might keep in touch with the world at large.

"Wall," said the old native, "when my pa died, nine years ago, he left me a stack of newspapers that high' -indicating a height of about three feet-"and I ain't done readin' of em yet."-Brooklyn Life.

Eat Caterpillars In Congo.

The natives of the Upper Congo are very fond of certain kinds of caterpillars gathered from the trees which these insects frequent during the caterpillar season. They assert that "Mita," as they call these edible caterpillars, are very palatable when cooked in the proper way. Several kinds are eaten, ranging in size from small insects less than two inches long-which form clusters or nests

Not Yet, But Soon. A gentleman lying on his death-bed was questioned by his inconsol-

'Plase, Bridget," he responded, "I t'ink I'd like a wee taste of the ham I smell a-boilin' in the kitchen." "Arrah, go on," responded Bridget, "Divil a bit of that ham ye'll get. Tis for the wake."-Central Law

According To Precedent, Does Sandwich, Ill., observe the meat boycott? There's a town one wouldn't expect to find any meat in. -Kansas City Times.

ABANDONED IT For the Old Fashioned Coffee by Killing.

"I always drank coffee with the rest of the family, for it seemed as if there was nothing for breakfast if we did not have it on the table. "I had been troubled some time with my heart, which did not feel right. This trouble grew worse

"Sometimes it would beat fast and at other times very slowly, so that I would hardly be able to do work for an hour or two after breakfast, and if I walked up a hill, it gave

me a severe pain. "I had no idea of what the trouble was until a friend suggested that perhaps it might be causel by coffee drinking. I tried leaving off the coffee and began drinking Postum. The change came quickly. I am now glad to say that I am entirely well of the heart trouble and attribute the relief to lcaving off

coffee and the use of Postum. "A number of my friends have abandoned the old fashloned coffee and have taken up with Postum, which they are using steadily. There are some people that make Postum very weak and tasteless, but if it is boiled long enough, according to directions, it is a very delicious beverage. We have never used any of the old fashioned coffee since Postum was first started in our house."

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human

Wasted a Fortune on Skin Trouble. "I began to have an itching over my whole body about seven years ago and this settled in my limb, from the knee to the toes. I went to see a great many physicians, a matter which cost me a fortune, and after i noticed that I did not get any relief that way, I went for three years to the hospital. But they were unable to help me there. I used all the medicines that could see, but became worse and worse. I had an inflammation which made me almost crazy with pain When I showed my foot to my friends they would get really frightened. did not know what to do. I was so sick and had become so nervous that

I positively lost all hope. "I had seen the advertisement of the Cuticura Remedies a great many times, but could not make up my mind to buy them, for I had already used so many medicines. Finally I did decide to use the Cuticura Remedies, and I tell you that I was never so pleased as when I noticed that, after having used two sets of Cuticura Soap, Cuticura Ointment and Cuticura Pills, the entire inflammation had gone. I was completely cured. I should be only too glad if people with similar disease would come to me and find out the truth. I would only recommend them to use Cuticura. Mrs. Bertha Sachs. 1621 Second Ave., New York, N. Y., Aug. 20, 1909."

"Mrs. Bertha Sachs is my sister-inlaw and I know well how she suffered and was cured by the Cuticura Remedies after many other treatments failed. Morris Sachs, 321 E. 89th St., New York, N. Y., Secretary of Deutsch-Ostrowoer Unt.-Verein, Kempner Hebrew Benevolent Society, etc."

It is difficult to estimate the amount of money in actual circulation at present in Honduras and Salvador. of gold there is practically none, gold, as a metal, forms a considerable export. Of the national silver there is little in circulation and none is being coined. It has practically all been driven out by the cheaper money from other countries, for the Honduranean peso contains a slight admixture of gold, which makes it profitable to export.
