LETTERS FROM SUBSCRIBERS.

(Continued from first page.)

Good and true is the Democracy of ex-Sheriff B. F. Shaffer, of Nittany, for he has come to this conclusion:

"Either Munson or Berry will be nominated Wednesday, and elected. You editors made a mistake in advertising Emery for Congress. If Mr. Emery has any Democratic views, he should come over to us; we don't propose to go over to him."

The newspapers published Mr. Emery's announcement as a pure business matter, but at the same time the views held by Mr. Emery are more acceptable than those of many Republicans we know of. As for Mr. Patton, he is an unknown quantity.

Farmers' Institutes in Centre County.

The committee to select places for the meetings of the Farmers' Institutes under the Department of Agriculture, consisting of Willard Dale, representing the Pomona Grange, and Col. W. F. Reynolds, representing the Centre County Agriculture Exhibiting Society, together with the county representative on the State Board of Agriculture, met at Col. Reynolds's office last Saturday morning to select places for holding the meeting next winter. The places chosen are Eagleville, Unionville and Pleasant Gap. This is a good distribution of these important meetings and will tend to advance the conditions of agriculture in Bald Eagle Valley. Particulars as to dates and speakers cannot be given until the Department at Harrisburg issues its annual institute bulletin in the early fall.

Marriage Licenses.

Clarence E. Tate, Bellefonte
Ethel J. Barlett, Bellefonte
Mylon E. Wilder, Altoona
Anna L. Barlett, Bellefonte

The Twelfth Regiment, N. G. P., is without a colonel, although several attempts have been made to elect one. The ballot stands a tie for Colonel Taylor, of Bellefonte, and Major William F. Follmer, of Lewisburg.

Before the United States district court in session in Williamsport a foreigner from Berwick will be tried for refusing to answer the questions of a census enumerator. He was brought from the Sunbury jail for trial.

It would be the display of wisdom on the part of parents if they would not permit their children to use target guns. Children with such weapons should at least be kept off the streets, so that if accidents occur, the wholly innocent will not be made to suffer.

Mr. and Mrs. Perry W. Breon are in New York having gone there the beginning of this week. They will spend the most of their time at Paris, where their son, Maurice Breon, is located. On their way they stopped at Newberry with Jacob Metzler, who is an acquaintance.

Friday evening of last week the clock weight in the belfry of the Clinton county court house fell from its moorings and crashed through a floor and ceiling. The weight weighs over a half ton, and landed in the office of the county superintendent of schools who was absent at the time.

Through the Gazette it is learned that an effort is being made on the part of the ladies of Bellefonte to secure an elevator for the Bellefonte hospital. At the time the new annex was erected provision was made for the installation of an elevator and arrangements have been made whereby a practically new one can be secured and installed for \$1161.00, about one half the actual value of a new equipment. The elevator which the hospital authorities have in view was installed in a large institution in Baltimore, but by reason of poor water power it was necessary to install an electric, which accounts for the bargain. Misses Mary and Elizabeth Blanchard have assumed management of this effort and are making a thorough canvass of the community in order to raise the funds necessary, in which they are meeting with much success.

Quite a number of persons are attending the State College commencement.

Stones were crushed last week for the public walk. The concreting was commenced on Monday.

One of the well patronized hotels in Pittsburg is the Birmingham, of which C. T. Williams is the proprietor. He is a former Centre countian, and if any of the travelers from this county will call at his hotel they will be most royally treated. Together with a bunch of "green goods" that the government will recognize as first class, Mr. Williams sent the Reporter a folder, the folds displaying these messages as they were turned: Be careful, don't get excited, it won't bite, you will get there, one good turn deserves another, are you sure no one's looking, turn over, keep cool, don't get nervous, its coming, get ready, and meet me at—Hotel Birmingham. Now, if you ever felt like going to Pittsburg in your life, you will feel that way again after unfolding one of Mr. Williams' invitations.

Harry, the six-year old son of Mr. and Mrs. Edward Brown, of near Tusseyville, is under the care of Doctor J. R. G. Allison, suffering from a deep gash cut in one of his feet. It seems that Harry and a brother, Malcolm, were sent to pull grass for the pigs. When the children grew tired of their task, Malcolm suggested that they take down their father's scythe and mow the grass. The action followed the suggestion, with the result mentioned. PENNSYLVANIA RAILROAD
Bulletin

JUNE ON THE GREAT LAKES

Restful, delightful, interesting, and instructive, there is no trip like that on the Great Lakes, those inland seas which form the border line between the United States and Canada. And June is one of the most charming months in the year in which to take the trip.

For comfort the fine passenger steamships of the Anchor line have no superiors. As well-appointed as the palatial ocean greyhounds which plow the Atlantic, their schedule allows sufficient time at all stopping places to enable the traveler to see something of the great lake cities and to view in daylight the most distinctive sights of the lakes, and the scenery which frames them.

The trip through the Detroit River, and through Lake St. Clair, with its great ship canal in the middle of the lake, thence through Lake Huron, the locking of the steamer through the great locks at the Soo, and the passage of the Portage Entry, lake and canal, across the upper end of Michigan are novel and interesting features.

The voyage from Buffalo to Duluth covers over eleven hundred miles in the five days' journey. Leaving Buffalo, the steamships Juniata, Tionesta and Octorara, make stops at Erie, Cleveland, Detroit, Mackinac Island, the Soo, Marquette, Houghton and Hancock, and Duluth.

The 1910 season opened on May 31, when the Steamer Tionesta made her first sailing from Buffalo.

The Anchor line is the Great Lake Annex of the Pennsylvania Railroad, and the service measures up to the high standard set by the "Standard Railroad of America."

An illustrated folder, giving sailing dates of steamers, rates of fare, and other information is in course of preparation, and may be obtained when ready from any Pennsylvania Railroad Ticket Agent, who is also prepared to book passengers who may desire to take this trip through the Great Lakes and back.
