

DEATHS

HON. JOHN G. LOVE.

The subject of this minute, the son of James and Mrs. Catharine Gray Love, was born in the village of Stormstown, in the township of Halfmoon, this county, on December 10, 1842, being at the time of his death aged sixty-seven years, five months and seventeen days.

The education obtained in his youth was such as afforded in the public schools of that day and which was secured by a daily tramp of two and one-half miles each way. In these schools he became proficient in the rudiments of an elementary education and in the fall of 1860 he entered Dickinson Seminary at Williamsport.

Like thousands of others, when news came that the great host led by Gen. Lee, was entering Pennsylvania, he joined the militia forces and rendered excellent services to his state, and the invader was driven from her sacred soil.

In 1865 he entered the law office of Edmund Blanchard, Esq., as a student at law, and continued to study therein until the fall of 1866, when he entered the law school at Albany, New York, from which he graduated in June, 1867, and about the same time was admitted to the bar of that state.

As a lawyer he was a success. He had an element largely which will follow cause any man in time to become a good lawyer. He not only was quick to comprehend any case that he had in hand, but he always had the evidence and the law relating thereto thoroughly digested and analyzed.

He served the people of the forty-ninth judicial district for a period of ten years, from January, 1895, to January, 1905, with honor and credit as the president of their Courts. In all this time he was rarely reversed by either of the higher Courts and when he was reversed, he was reversed because he allowed his prejudices or passions to draw him away from the rigid rules and well grounded principles of the law.

In politics, as every one knows, the Judge was a Republican of the stalwart kind. He served his party and the men who controlled it well, and while it is true, he had held some office, and received some emoluments therefore, he deserved much better than he received.

In religion Mr. Love was for more than forty years a member of the Methodist Episcopal church. Judge Love was twice married. Sometime in 1874 to Miss Mattie Fick, a woman of great accomplishments, and who departed this life early in 1887, and in 1889 he was married to Miss Nellie Kline, a most excellent and accomplished woman, who with a son, John G., and a daughter, Miss Catharine, survive him.

Resolved. That it is with feeling of regret and profound sorrow that the members of the bar have learned of the death of their associate and fellow member, the Hon. John G. Love, and that this minute be spread upon the records of the Court and a copy thereof duly certified under the seal of the Court be transmitted to the family of the deceased, to whom, the members of the bar, in this their hour of darkness and distress extend their profound sympathy.

Respectfully submitted, D. F. FORNEY, E. R. CHAMBERS, CLEMENT DALE, J. CALVIN MEYER, JOHN BLANCHARD. Committed.

DEATHS.

GEORGE W. SWEENEY.

Something over sixty-eight years ago George W. Sweeney was born at the Old Fort, and Sunday morning life departed from his body, at the home of his daughter, Mrs. Newton Yarnell, near Linden Hall, where he and Mrs. Sweeney made their home for two years.

Interment was made at Centre Hall, Wednesday afternoon, Rev. Daniel Gress, pastor of the Reformed church, of which the deceased was a member, and Rev. A. A. Black, officiating. Fifty years ago on the seventh of this present June, Mr. Sweeney and Susanna Bitner were married by Rev. W. H. Groh. But for ten years, during which time they lived at Donaldson, Iowa, and the two years at Linden Hall, they lived at or near Centre Hall. During the Civil War, Mr. Sweeney was a volunteer, and became a member of Company G, his war record as a "high private," and he distinguished himself as a brave warrior in the ranks of the fighting force.

There survive the deceased, his wife and four children, namely; Milton, Kansas City, Kansas; Mrs. Newton Yarnell and Mrs. George Rowe, Linden Hall, Mrs. Andrew Gregg, Scranton.

A sister, Mrs. M. M. Condo, of Centre Hall; and two brothers, Enoch E. of Boalsburg; and Alfred, of Primrose, Iowa, also survive. A third brother, Daniel, left home when but a boy and from him nothing has been heard for many years.

185-h Regiment. He always referred to Mr. Sweeney's exact age was sixty-eight years, six months and five days.

Who for Governor?

As the Reporter goes to press the Democrats in the Allentown convention are nominating a candidate for governor. Munson withdrew from the race, leaving the field open to Berry and Grimm.

Guffey is for Grimm, and evidently always has been. The likelihood is that he will be nominated, unless the Berry forces succeed in naming the people's choice, Mr. Berry.

Ball Game and Festival.

The Centre Hall base ball club will hold a festival on the evening of July 4th, in Grange Acadia. During the afternoon a game of ball will be played by the local ball team and one from one of the neighboring towns.

Shoes at Wieland's.

Ladies' and Misses' oxfords, patent leather oxfords, Russian calf blucher oxfords, men's heavy work shoes, boys' vici blucher, a complete line in each. Common sense shoes for women and elderly ladies. They are the most comfortable shoes on the market. F. E. WIELAND, Linden Hall, Pa.

Reporter Register.

Mrs. James J. Glenn, Dickinson; James Goodhart Glenn, Dickinson; Mr. and Mrs. A. E. Person, Phillipsburg, N. J.; S. L. Condo, Spring Mills; H. A. Wilkinson, Potters Mills; Bertha and Nellie Blaine, Potters Mills; J. H. Burkholder, Spring Mills; J. H. F. Royer, Spring Mills; Chas. A. Eungard, Spring Mills; J. B. Reist, Harrisburg; David S. Glasgow and son William E., Tusseyville; Mrs. A. C. Hartman, Dillsburg.

LOCALS.

Misses Cora Luse and Nellie Smith attended commencement at State College for a few days.

The dates set for children's day services at Spring Mills are these: Methodist, Sunday evening, 19th; Lutheran, Sunday evening, 26th; Reformed, Sunday evening, July 3rd.

Albert Spayd has the new straw shed well under way on his farm at Earlstown. Mr. Spayd himself is a carpenter and is doing the work with the assistance of one or two others.

John H. Bitner of Potters Mills, who has had considerable experience as a painter, offers his services to any who are in need of work in his line. Address him Spring Mills, rural route No 3, box 46, or call personally.

The Sunday-school at the Swamp church, near Farmers Mills, rendered a very pretty children's day service on Sunday evening. Rev. H. A. Snook is pastor of the church, and he is much pleased with the splendid manner in which the children acted.

The Potter township school board organized by electing John H. Rankle, president; W. R. Neff, secretary; and A. C. Ripkas, treasurer. The other members of the board are William Bower, A. J. Weaver, J. Elmer Royer. The board will hold its next meeting on 25th instant.

During the absence of Rev. David Sowers, at Pleasant Gap, Mrs. Sowers contemplated coming to Centre Hall to spend the time with her sister, Mrs. Charles Burris, and Tuesday morning started to drive here. On the mountain she saw so many beautiful flowers that she could not resist plucking some of them, and while doing so her horse ran off, demolishing the buggy.

Chamberlain's Cough Remedy is sold on a guarantee that if you are not satisfied after using two-thirds of a bottle according to directions, your money will be refunded. It is up to you to try. Sold by Murray and Bitner.

KILLED THE COBRA.

Methods of a Mongoose in Attacking the Big Snake.

I had the good fortune to witness a fight between a four foot cobra de capello and a mongoose.

On first catching sight of the cobra, rikki tik (as Rudyard Kipling calls the Indian mongoose) quietly smelled its tail and then hung around awaiting events with curiosity, but he had not long to wait, for the cobra spread its hood, hissed out its death sentence and prepared to dart from its coil at its natural and hated enemy.

Now commenced a most interesting and deadly battle of feint and counter feint by the mongoose and strike and lightning-like recovery by his adversary, who was also on the defensive, all the time watching for the opportunity to get in his properly aimed bite.

Time after time rikki tik squirmed slowly up to within reach of those terrible fangs, belly on ground, with every gray hair of his body erect with anger and excitement, his eyes glaring from his head, which, by the way, he invariably held sideways during this approach and attack, but the moment the cobra struck in a flash back sprang master mongoose, and, although often it appeared as if impossible that he could have escaped the dreaded fangs, ne'er a scratch harmed him, and there he would be again wearing the cobra out and pressing his advantage inch by inch. At last, with a growl and sharp rikki ery, the plucky little beast flew in, avoided the strike and seized the snake behind the head, never for a moment getting under his mouth, but right at the nape of the neck and head, which he scrunched with a loud cracking sound despite the struggles and twisting and turning of the cobra. Again and again rikki returned to the now writhing reptile and bit its head and body until it lay dying.

Finally he ate three or four inches of his mortal foe, but carefully avoided eating the fangs and poison glands, which I picked up by a stick and found them broken, but with the venom sacks attached.

Contrary to popular belief, I am of opinion the mongoose is not immune from snake poison, else why should he so particularly and carefully avoid being bitten? It is only by his marvellous activity that he escapes the spring and darting strike of his deadly enemy, the cobra de capello.—Ceylon Times.

DESTROYED BY CHEMICALS.

Weapons Used by Assassins Against Royal Personages.

Very few people are aware that as soon as the trial of an assassin of royalty is concluded the weapon with which he accomplished his crime is carefully destroyed so that no trace of it remains.

The reason of this is twofold—first of all, the possibility exists that at some time or other the weapons used in a royal tragedy may be exhibited to the public in some museum or show, and, second, there is a strange superstitious dread existing among reigning houses that the existence of the innocent but unhalloved weapons by which rulers have been dispatched to eternity is fraught with peril to their descendants.

The method of destroying these weapons is a curious one. The wooden portions, such as the stocks of pistols or the handles of poignards, are burned, and the metal portions are eaten away in a bath of nitric acid.

This has been the custom ever since the attempted assassination of Queen Isabella of Spain in 1852 by Merius. Prior to that date the metal work of firearms or knives was ground or filed away, but the blade of the dagger with which Merius sought to execute his dastardly crime proved to be of such exquisite temper and hardness that it resisted both file and grindstone.

This became known to the populace, and the superstitious Spaniards believed that Merius had invested his weapon with magical qualities. To divert them of this absurd belief the authorities had the weapon destroyed by immersing it in chemicals, a rule that has been followed ever since.

Do You Get Up With a Lame Back?

Kidney Trouble Makes You Miserable. Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because of its remarkable health restoring properties.

Swamp-Root fulfills almost every wish in overcoming rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night.

Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble.

When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE HAYING SEASON IS COMING ON

and we present to you a few hay tools and assure you that it will be well worth your while to investigate the merits of them. Special attention is called to the

"GEARLESS" HAY LOADER

Its name describes it—it is gearless, and has no gears to break, clog up, chains and sprockets to break, run off and cause no end of trouble. The long easy stroke delivers the hay whether heavy or light, on the wagon in better shape without chewing it up, without tearing off the lever or without threshing out the seed as other loaders do.

The GEARLESS Hay Loader is not the cheapest hay loader you can buy, but it is the best one. They are worth more than is asked for them.

The GEARLESS does its own loading; it pushes the hay well up onto the wagon; it does not need a watchman to keep it from clogging. The Gearless is sold on its merits, because it never fails to perform the work it is sold to do. The Gearless will pick up and load winrows and hay cocks which other machines cannot handle.

The "Lancaster" Side Delivery Hay Rake

In the Lancaster Side Delivery Hay Rake are combined all the good points and avoided all the faults of those that have gone before. It is simple, durable, well made, easily operated.

The Lancaster rake gathers up the hay into a continuous, loose and fluffy windrow, through which the hay freely passes.

The Lancaster rake is driven from the main axle; the power is all utilized in the working of the rake, nothing is lost in complicated machinery.

By the use of three sets of raking bars there is obtained slow speed, which is especially desirable in raking clover. The machine will rake clean the shortest blue grass as well as the heaviest timothy or clover.
