CALIFORNIA FIG SYRUP CO.

SOLD BY ALL LEADING DRUGGISTS ONE SIZE ONLY. REGULAR PRICE 50¢ A BOTTLE

A man in North Carolina was fined \$100 for driving cattle through counties quarantined on account of Texas fever into a county outside quarantined area.

FOR HEADACHE—HICKS' CAPSULES. Whether from colds, heat, stomach or nervous troubles, Capsules will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c. and 50c. at drug stores.

A Colorado man has invented a tool for removing wire stitches from magazines.

Ask For Allen's Foot-Ease. "I tried Allen's Foot-Ease, the Antiseptic Powder, and have just bought another supply. It has cured my corns, and the hot, burning and itching sensation in my feet which was almost unbearable. I would not be without it now.—W. J. Walker, Camden, N. J." Sold by all Druggists, 25c.

In the matter of density of population, Paris and Berlin lead all the European cities.

Saved Old Lady's Hair. "My mother used to have a very bad humor on her head which the doctors called an eczema, and for it had two different doctors. Her head was very sore and her hair nearly all fell out in spite of what they both did. One day her niece came in and they were speaking of how her hair was falling out and the doctors did it no good. She says, 'Aunt, why don't you try Cuticura Soap and Cuticura Ointment?' Mother did, and they helped her. In six months' time the itching, burning and scaling of her head was over and her hair began growing. To-day she feels much in debt to Cuticura Soap and Ointment for the fine head of hair she has for an old lady of seventy-four."

"My own case was an eczema in my feet. As soon as the cold weather came my feet would itch and burn and then they would crack open and bleed. Then I thought I would see to my mother's friends, Cuticura Soap and Cuticura Ointment. I did for four or five winters, and now my feet are as smooth as any one's. Ellsworth Dunham, Hiram, Me., Sept. 20, 1909."

A Description. "What kind of a man is Witherington?" "One of these fellows who depend upon their whiskers to lend them distinction."—Chicago Record-Herald.

Porcelain was discovered by an alchemist, who was seeking a mixture of earth that would make the most durable crucibles.

MOTHERS WHO HAVE DAUGHTERS

Find Help in Lydia E. Pinkham's Vegetable Compound

Hudson, Ohio.—"If mothers realized that good your remedies would do delicate girls I believe there would be fewer weak and ailing women. Irregular and painful periods and such troubles would be relieved at once in many cases. Lydia E. Pinkham's Vegetable Compound is fine for ailing girls and run-down women. Their delicate organs need a tonic and the Compound gives new ambition and life from the first dose."—Mrs. GEORGE STRICKLER, Hudson, Ohio, R. No. 5, Box 32.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Young Girls, Heed This. Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take immediate action to ward off the serious consequences and be restored to health by Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by its use.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

COMMERCIAL AN EXACT SCIENCE

Weekly Review of Trade and Market Reports.

Bradstreet's says: "Trade advices are irregular, varying somewhat with the sections or lines reporting, but with quietness the prevailing feature. In the Northern half of the country unseasonably cool weather is a bar to expansion in retail trade, which at many cities is classed as disappointing. At these centres reorder business is light, and jobbers' operations are consequently restricted. Probably the best reports as to trade come from the Northwest and the Pacific Coast, while the Atlantic Coast reports are of current retail trade being unsatisfactory. As the week advanced action by the Government against higher railroad freight rates resulted in rumors of suspensions of improvement work by railroads, some of which were, however, denied. These reports injected an additional element of uncertainty into the industrial situation."

"Business failures for the week ended with June 2 in the United States were 160, against 200 last week, 191 in the like week of 1909; 225 in 1908, 155 in 1907 and 162 in 1906."

"Wheat, including flour, exports from the United States and Canada for the week ended June 2 aggregate 2,970,662 bushels, against 3,594,144 last week and 2,128,199 this week last year. For the 48 weeks ended June 2 exports are 136,502,017 bushels, against 160,913,011 in the corresponding period last year. Corn exports for the week are 238,740 bushels, against 345,364 last week and 36,193 in 1909. For the 48 weeks ended June 2 corn exports are 23,257,783 bushels, against 28,955,741 last year."

COMMERCIAL AN EXACT SCIENCE

Weekly Review of Trade and Market Reports.

Fully a Million Dollars a Week in Foreign Gold Comes to This Country to Pay For Standard's Product That is Peddled to the Doors of Hutand Palace, According to the Rockefeller Plan of International Barter.

This Rockefeller Foundation, to make a story of it, is in reality just this—the dream of a poor boy who came true. It is the happy ending of an American novel of real life. It is the climax of one of the most dramatic and impressive careers that this country, or any other, has ever known.

The dream—or the novel or drama, whichever you like—began more than half a century ago. It began in a shabby little boarding house in Cleveland, in the brain of a lad of eighteen who was clerking for a shipping and real estate company. There were at that time about a million other American boys of the same age, and not many of them had received fewer privileges than this one. He had been educated partly in the public schools, but mainly at home, by his mother and father. His pay, at this time, was sixty cents a day. His hours of labor were from breakfast until bedtime. For his room and meals he was paying \$1 a week, and his net income—the basis of his dream of fortune and philanthropy—was not more than \$135 a year.

Even at this time, and with this income, he built a tiny little foundation of his own. Out of the sixty cents a day, he set aside a few pennies for the church, or for some hungry family, or to drop into some hat that was passed around in the office. The notebook in which these little philanthropic entries were made is still in existence. It is known by the name of "Ledger A" in the Rockefeller family. It is a completely worn out little notebook, with broken cover and tattered pages of faded writing, but it is one of the most precious treasures in the Rockefeller vaults. It has more than a personal interest now, it has suddenly become historic, because it records the origin of "the most comprehensive scheme of benevolence in the whole history of humanity."

The managerial instinct was so strong in this boy that he was not satisfied with merely paying his share into the contribution boxes. By the time he was nineteen he had risen into an organizer of benevolence. He was a member of a mission church, which was fast breaking down under the weight of a \$2000 mortgage. This sixty-cent-a-day youth undertook to collect the money, and he did it.

"That was a proud day," he said in later years, "when the last dollar was collected."

Little as he knew it, the boy was then at work upon the fulfillment of his dream to become perhaps the greatest getter, and the greatest giver, of his generation.

Later, when he became a prosperous man of business and large affairs, he still retained the habit of organizing his giving as well as his getting. He even went so far as to organize his family into a sort of foundation. At the breakfast table he would distribute the various appeals for help among his children, requesting them to investigate each case and make a report to him on the following day. In this way his children, and especially his son and namesake, who is destined to distribute the revenue of the Rockefeller fortune, received a Spartan training in "the difficult art of giving."

"The whole bent of the Rockefeller mind seems to have been inclined from the first toward the working out of this problem of distribution. The business of the Standard Oil Company itself is much more a matter of distribution than of production. It was unquestionably the first company that undertook to sell its product directly to the users on a world-wide scale. For the most part, it delivers its oil, not to wholesalers and middlemen, but to the family that burns it, whether it be in the United States or in the uttermost parts of the earth. It has, for instance, no fewer than 3000 tank wagons traveling from door to door in the twenty countries of Europe, selling pints and quarts of liquid light to whosoever demands it. Fully \$1,000,000 a week, in foreign gold or its equivalent, comes to this country to pay for the oil that is peddled to the doors of hut and palace, according to the Rockefeller plan of international distribution.

Consequently, both by natural aptitude and business experience, Mr. Rockefeller was well prepared to work out the problem of distributing the surplus money of the rich in a systematic and efficient manner. His new foundation is no afterthought, it is no sudden change of mind or change of heart. It is the natural result of fifty years of experience and experiment. What he began to do as a poor boy in a Cleveland boarding house, he is now about to complete on an international scale—that is the explanation of the new plan that has excited so much comment and so much curiosity.

Consul General John L. Griffiths, of London, writes that British manufacturers are forming an association to prevent the sale in the United Kingdom of foreign-made as British goods.

The Bangkok Manufacturing Company (Limited), making ice, aerated waters, etc., earned \$15,150 gross profits, the total dividend for the year being 14 per cent.

A Modern Education. Fond Mother—How did you get along in school today, Susie? Tired Child (wearily)—Oh, I missed my geography again, I forgot whether the Putnamyo joined the Amazon east or west of the confluence of the Maranon and Ucayala Rivers.

Same Child (years later; wife and mother)—What is it you want to know, pet? Mamma (after a long reflection)—I think it's somewhere in Africa or Asia, I forget which.—New York Weekly.

A Fixture.

"That's a beautiful girl you have in your store," said the man acquaintance, "I've seen her in the window several days as I passed." "She isn't an employee," the milliner answered wearily. "She's a woman trying to decide on a new hat."—Buffalo Express.

Those Questions. Absent-minded Professor (meeting a friend unexpectedly on a mountain peak)—Hello! Did you climb up from below?—Fliedged Blatter.

For COLDS and GRIP. Hicks' Catarrhs is the best remedy—relieves the aching and feverishness—cures the cold and restores normal conditions. 15¢ liquid—effects immediately. 10c., 25c. and 50c. at drug stores.

Charley No Shirt is the name of the chief of the Walla Walla Indians in the Umatilla reservation.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe.

There are about 275,000 automobiles owned by individuals in the United States, or one for every 400 population.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Some 50,000 cancer operations are made every year in England.

Buy "BATTLE AXE" SHOES.

Calendars and Poetic Fire. From time to time, a man who writes things for the current prints—especially the weekly magazines which make a specialty of comment and criticism on literary matters—thinks it is his duty to discover something which may show that he is very modern—quite the opposite to an antediluvian fossil.

Such a man in such a mood was he who lately in the Literary Digest stated that all art, to prove enduring must be based on the contemporary life of any land in which it sees the light; that poetry, for instance, cannot gain "respect and admiration" if it lack such a national and present-day basis.

Surely, this statement must have been written for some other purpose than mere truth or art; because, unless the writer be the veriest tyro, he is sure to know that it is quite untenable. Is Goethe's "Faust" of any age or land? Is Shakespeare's "Hamlet" grounded on "contemporaneous national life"? Is our own poet's lyric masterpiece, "Annabel Lee," a poem "of the present"? No, indeed! And yet the three have gained beyond a doubt—and held for many years—the true "respect and admiration" of all reading folk.

The Literary Digest writer's phrase seems too absurd for contradiction. But the very contrary of what he says may be laid down with justice as a rule.—Chicago Inter Ocean.

He Were. A prominent Western attorney tells of a boy who once applied at his office for work.

"Now my son," I said, "if you come to work for me, you will occasionally have to write telegrams and take down telephone messages. Hence a pretty good degree of schooling is essential. Are you fairly well educated?"

The boy smiled confidently. "I be," he said.—Harper's Magazine.

A DOCTOR'S EXPERIENCE. Medicine Not Needed in This Case.

It is hard to convince some people that coffee does them an injury! They lay their bad feelings to almost every cause but the true and unsuspected one.

But the doctor knows. His wide experience has proven to him that, to some systems, coffee is an insidious poison that undermines the health.

Ask the doctor if coffee is the cause of constipation, stomach and nervous troubles.

"I have been a coffee drinker all my life. I am now 42 years old and when taken sick two years ago with nervous prostration, the doctor said that my nervous system was broken down and that I would have to give up coffee."

"I got so weak and shaky I could not work, and reading your advertisement of Postum, I asked my grocer if he had any of it. He said, 'Yes,' and that he used it in his family and it was all it claimed to be."

"So I quit coffee and commenced to use Postum steadily and found in about two weeks' time I could sleep soundly at night and get up in the morning feeling fresh. In about two months I began to gain flesh. I weighed only 146 pounds when I commenced on Postum and now I weigh 167 and feel better than I did at 20 years of age."

"I am working every day and sleep well at night. My two children were great coffee drinkers, but they have not drank any since Postum came into the house, and are far more healthy than they were before."

Read "The Road to Wellville," found in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgment.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

Cool Kitchen—Perfect Cooking

The housewife with years of experience—the woman who knows how to cook—finds, after practical tests and hard trials, the New Perfection Oil Cook-Stove is her idea of what a good cook-stove really ought to be.

She finds it requires less attention, costs less to operate, and cooks all food better than any other stove she has ever tried.

She finds the New Perfection oven bakes and roasts perfectly. The

New Perfection Oil Cook-stove

has a Cabinet Top with a shelf for keeping plates and food hot. There are drop shelves for coffee pot or saucepans, and nicked towel rack. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stove can be had with or without Cabinet.

CAUTIONARY NOTE: Be sure you get this stove—see that the name-plate reads "NEW PERFECTION." Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

The Atlantic Refining Company (Incorporated)
