

PHILADELPHIA CENTRE COUNTIANS

Held Seventh Annual Basket Picnic at Belmont Mansion, Fair Mount Park.

The Centre county people in and about Philadelphia held their seventh annual basket picnic at Belmont Mansion, in Fairmount Park, Philadelphia, Saturday, June 25th. Over two hundred people, all at some time residents of Centre county, but now temporary or permanent residents of the Philadelphia district, gathered at the point named, "coming with their arms full of babies, baskets and packages," as the Reporter's correspondent puts it. The day was spent most delightfully, the "spread" being a feature of the occasion.

Miss Jennie Bodtolf who has been nursing a fractured arm for the past three months, resumed her work on last Wednesday in the home of Mr. and Mrs. William Lee.

Miss Naomi Martz has sufficiently recovered from her recent illness to be able to be out again.

H. F. Rosman and W. F. Rokey attended the sale of the personal property of A. A. Black.

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by Murray and Bitner.

The old Thompson shingle mill, at Potters Mills, property of Merchant Emanuel Smith, was burned to the ground Monday night. The mill had not been in use for a number of years.

PENNSYLVANIA RAILROAD

AEROPLANE RACES

AVIATION WEEK AT ATLANTIC CITY

It is not far back to "Darius Green and his flyin' machine" when aerial navigation was considered impossible.

To-day Atlantic City is preparing for a great Aviation Meet from July 2 to 11, when three of the greatest flyers of the modern world will demonstrate their mastery of the air.

Glen H. Curtiss, the holder of the world's record for speed, will fly daily from July 4 to 11.

Walter E. Brookins, who holds the record for high flying, will give exhibitions July 7 to 11 in a Wright aeroplane.

This is the first contest between the Wright and Curtiss machines.

It is also expected that Charles K. Hamilton, the great long distance aviator, will be present and race from July 7 to 11.

There will be prize events each day, including a fifty-mile flight over a five mile circular course, and prize high flying, July 7 to 11, directly over the beach front and ocean.

The Pennsylvania Railroad is the direct route to Atlantic City, and excursion tickets are on sale from all points. Connections are made in Broad Street Station, Philadelphia, with trains over the Delaware River Bridge, all-rail route.

THE HAYING SEASON IS COMING ON

and we present to you a few hay tools and assure you that it will be well worth your while to investigate the merits of them. Special attention is called to the

"GEARLESS" HAY LOADER

Its name describes it—it is gearless, and has no gears to break, clog up, chains and sprockets to break, run off and cause no end of trouble. The long easy stroke delivers the hay whether heavy or light, on the wagon in better shape without chewing it up, without tearing off the leaves or without threshing out the seed as other loaders do.

The GEARLESS Hay Loader is not the cheapest hay loader you can buy, but it is the best one. They are worth more than is asked for them.

The GEARLESS does its own loading; it pushes the hay well up onto the wagon; it does not need a watchman to keep it from clogging. The Gearless is sold on its merits, because it never fails to perform the work it is sold to do. The Gearless will pick up and load winrows and hay cocks which other machines cannot handle.

The "Lancaster" Side Delivery Hay Rake

In the Lancaster Side Delivery Hay Rake are combined all the good points and avoided all the faults of those that have gone before. It is simple, durable, well made, easily operated.

The Lancaster rake gathers up the hay into a continuous, loose and fluffy windrow, through which the hay freely passes.

The Lancaster rake is driven from the main axle; the power is all utilized in the working of the rake, nothing is lost in complicated machinery.

By the use of three sets of raking bars there is obtained slow speed, which is especially desirable in raking clover. The machine will rake clean the shortest blue grass as well as the heaviest timothy or clover.

J. H. & S. E. WEBER

CENTRE HALL & OAK HALL STATION

Pine Grove Mills.

Miss Nell Randolph spent several days last week with her sister, Mrs. Burwell, of Stowe.
