LOCALS.

Last week S. J. Rowe went to Little Falls, New York, where he is superintending the erection of machinery sold by the firm that employs him.

After a visit with her mother for some weeks Miss Nellie Kerlin returned to Cincinnati, Ohio, on Wednesday to resume her duties in a printing establishment.

Miss Anna Mitterling is seriously thinking of returning to her home in Centre Hall in the near future. She has been in Chicago since the latter part of last September.

Miss Margaret Goodhart, on her return from Johnstown where she visited her brother, S. M. Goodhart, brought with her her little nephew, Franklin Goodhart, who will be cared for by his grandmothers until his little sister, who arrived a few weeks ago, will no longer need so much attention.

Mr. and Mrs. Roy E. Bomboy, of Berwick, last week were guests of Mr. and Mrs. S. S. Kreamer. Mrs. Bomboy is the daughter of the late Rev. Lohr, at one time a resident of Millheim, and a relative of Mrs. Kreamer. Mr. Bomboy is the secretary of the Berwick Y. M. C. A., and is exceedingly active in his field of work. He is on his way to the Y. M. C. A. convention at Mt. Gretna.

Dr. and Mrs. H. Clay Campbell and Dr. and Mrs. William Leutz, of Philadelphia, came up to spend a short time at Penns Cave. Both gentlemen are connected with the veterinary department of the University of Pennsylvania, at Philadelphia, the former as an instructor, and the latter has charge of the clinics. Mr. Campbell is the senior of the Campbell brothers, owners of Penns Cave, and with his family spends as much of his time at the beautiful country site as is possible for him to do.

The children and grandchildren of the late Henry Campbell, who for many years lived at Fairbrook, will hold their annual reunion today (Thursday). The children are these: Mr. and Mrs. John Campbell, Tyrone; Mr. and Mrs. Milo Campbell, Pennsylvania Furnace; Mr. and Mrs. H. D. Meek, State College; Mr. and Mrs. J. H. Musser, Tyrone; Mr. and Mrs. H. N. Koch, Pennsylvania Furnace; Dr. and Mrs. H. Clay Campbell, Philadelphia; Miss Esther Campbell, State College, and Robert P. Campbell, Penns Cave. The gathering will be at Penns Cave.

Hazel Shaffer Reunion.

The reunion of the Hazel Shaffer families was held at Hecla Park, Saturday, and was largely attended, although the morning hours indicated the reverse so far as numbers were concerned. It was agreed to postpone the exercises until after lunch, which was prepared at twelve o'clock. When all had gathered around the tables, it was found that the executive committee had misnamed this feature, for it was a feast fit for any royal king.

Following the feast, the president called the members to order at a meeting in the auditorium. Music was rendered by Miss Verna Allison who presided at the piano, assisted by Mary Rich, the latter of Lock Haven, Charles S. Harter, L. A. Shaffer and others. The address of welcome was by our friend, Hon. Fred Kurtz, and then again followed music. The next address was by John Shaffer, of Lock Haven, a descendant of one of the five brothers who came over to this country from Germany with William Penn, about the time Penn made his treaty with the Indians. "When the Roll is Called Up Yonder" was then rendered after which ex-Senator W. C. Heinle spoke. Mr. Heinle was born and raised right among the Hazel and Shaffer families, consequently was fully acquainted with his "subjects." Miss Mary Rich recited "Money Musk," in elegant style. The election of officers for the following year resulted thus: L. A. Shaffer, president; Thomas S. Hezel, vice president; Ammon J. Hezel, secretary; and Wilson Hezel, treasurer. After one of the most agreeable reunions yet held, the organization adjourned to meet in its ninth session next year at the same place. xxx

Don't Cut It!

—the
ATLAS
E-Z Seal Jar
Will Hold it Whole

That's one strong feature in favor of the "ATLAS E-Z SEAL"—it has a wide mouth for large fruits. Another is its uniform thickness—no thin spots or weak places in an ATLAS E-Z SEAL Jar. Still a third good point is its smooth top, which can't cut the hand when sealing. Be sure to ask your dealer for the ATLAS E-Z SEAL Jar and take no other.

The KING LIME SPREADER

DEAR SIR:

Are you still considering the Spreader question? We are very anxious to place one with you, because we are sure it would result in many more sales; and we are anxious to place it with you NOW in order that orders may be booked early for the coming season.

We therefore make you a VERY Special Proposition.

Our KING SPREADER is superior to others, because: It will distribute a greater variety of material, will distribute in any quantity from 100 lbs. to several thousand pounds to the acre.

It is simple—any laborer can operate it.

It is durable—cleans itself of acids that cause rust.

Foreign matter, stones, bolts, lumps do not interfere with distribution nor injure the machine.

It is either a two or one horse machine, as you may prefer to make it.

It will distribute broadcast or, in drills—will straddle row of corn, putting out fertilizer on either side—run between fruit trees, distributing fertilizer on either side of water furrows.

Is there any requirement of yours that you think our Spreader will not fulfill?

Does the low price cause you to consider it inferior? (The writer who invented the machine worked hard to bring out a durable and effective machine that could be sold at a low price—a low price being necessary for wide distribution—a farmer doesn't feel like paying from \$45 to \$60 for a machine that is to be used in spreading lime or fertilizer only a few acres.)

Shall we book you NOW for future shipment? Will ship a machine to you in September or October, or now.

Yours truly,
KING WEEDER CO.
Richmond, Virginia

COLLEGE OF AGRICULTURE & MECHANIC ARTS

West Raleigh, N. C., Aug. 3, 1910
Gentlemen: My foreman is very much pleased with the Spreader, and has found it excellent for distributing both lime and floats. We have used it to some extent for distributing mixed fertilizer successfully. I feel that this implement fills successfully a long felt want.
Very truly yours,
C. L. NEWMAN.

Pinegrove, Pa., June 28, 1910.
Gentlemen: I am well pleased with the Lime Spreader you sent me; it does all you claim for it. I have tried it with stone lime and put 50 bushels of stone lime to the acre. If I could only talk it into the people how handy this Spreader is, then I would have sold a lot, but they are so used to that old shovel that they like to throw their arms off, but this fall I think I can sell some as most farmers put their lime on seeding land.
Very truly,
J. S. HALDEMAN.

Nanuet, N. Y., June 11, 1910.
Gentlemen: Have noticed statement of J. S. Hagar, M. D., that your Spreader worked to a charm. I have a large farm and may need an implement in the near future. If you have printed matter for distribution, would be pleased to receive it.
Yours truly,
I. J. WELLS, M. D.
