Miss Eina Wagner spent part of Sunday with her friend Miss Edna Ishler.

Mr. and Mrs. A. F. Heckman and children, Sarah and Franklin, spent Saturday and Sunday at Penn Hall. Henry Neyhart, of Cowan, spent several days last week at the home of his uncle and aunt, Mr. and Mrs. William Bitner.

The second sermon of the day was delivered by Rev. B. F. Campbell in the United Evangelical church. The theme was, "The true church of Christ," and the manner in which it was presented will not be forgotten.

The Moyer reunion held on Saturday in Moyer's grove was very well attended. The day was bright, and all had a jolly good time. Before dispersing a picture was taken of those present.

The people of this community will remember last Sunday as a day of sermons. The first one was delivered by Rev. Daniel Gress, pastor of the Reformed church. The text was "Blessed are they which do hunger and thirst after righteousness : for

they shall be filled." These words at once attracted and fixed the attention of the congregation. The entire ad-

### New Course of Study.

Agriculture is added to the studies recommended for the elementary branches of the public schools of Pennsylvania, according to an official circular just prepared by the State Department of Public Instruction.

The new course, which is optional with the schools, but as highly recommended by the department, is as follows : Agriculture, arithmetic, civics, drawing, English, geography, history, manual arts, moral education, music, nature study, physical education,

physiology and hygiene, pictures. The department recommends agriculture not only for the rural school but especially for the city children, who are declared to be ignorant of the phases of life on the farm which were familiar to their fathers. Agriculture is declared to be the fundamental in-

dustry of America, and it is asserted that a wider knowledge of its essentials would increase the trend of population toward the independent life of the country and increase the production by improved methods so as to reduce the cost of living to the people generally.

Altoons, are spending a week in town with oid acquaintances.

SAVE THEM

The KING LIME SPREADER

### DEAR SIR :

Are you still considering the Spreader question?

We are very anxious to place one with you, because we are sure it would result in many more sales ; and we are anxious to place it with you NOW in order that orders may be booked early for the coming season.

We therefore make you a VERY Special Proposition.

Our KING SPREADER is superior to others, because : It will distribute a greater variety of material, will distribute in any quantity from 100 lbs, to several thousand pounds to the acre.

It is simple-any laborer can operate it.

It is durable-cleans itself of acids that cause rust.

Foreign matter, stones, bolts, lumps do not interfere with distribution nor injure the machine.

It is either a two or one horse machine, as you may prefer to make it.

It will distribute broadcast or, in drills -- will straddle row of corn, putting out fertilizer on either side--run between fruit trees, distributing fertilizer on either side of water furrows.

Is there any requirement of yours that you think our Spreader will not fulfill ?

Does the low price cause you to consider it inferior ? (The writer who invented the machine worked hard to bring out a durable and effective machine that could be sold at a low price -- a low price being necessary for wide distribution -- a farmer doesn't feel like paying from \$45 to \$60 for a machine that is to be used in spreading lime or fertilizer only a few acres.)

Shall we book you NOW for future shipment? Will ship a machine to you in September or October, of now.

Yours truly,

### KING WEEDER CO.
