They crossed the Seven Mountains in a carriage Sunday evening, having been met at the Rearick home by Harry Reish and Mr. Krape's daughters, Misses Clara and Florence.  
A bit of gossip in Rebersburg, not furnished the readers by the correspondent from that place, is to the effect that Samuel Shaffer, ex-landlord at the Old Fort Hotel, and well known throughout Centre county, is seriously considering a love proposition. The lady mostly interested in the affair is Miss Weaver, daughter of the late George Weaver, of Rebersburg.  
H. R. Harman, of DuBois, was in Centre Hall Tuesday, having come here with D. K. Keller from Bellefonte where he met the Centre County Mutual Fire Insurance directors. The Democratic county committee met in Bellefonte Saturday, and passed a resolution empowering Democratic County Chairman Kimpert to appoint senatorial conferees. There was a good attendance of committeemen, and speeches were made by Hon. E. L. Orvis, Hon. C. W. Heinle, and others.

The conferees appointed are J. Paul Fortney, Irvin J. Draese and J. C. Harper. The Centre county delegates, so it is understood, will support any Clearfield county man as a candidate for state senator whom the Clearfield county Democrats may unite on. Joseph Alexander, of Clearfield, is the Republican candidate. Schaffeld, also of Clearfield county, is an independent Republican candidate. With a Democratic candidate who can secure the full Democratic support in both Clearfield and Centre counties, the senator to succeed Mr. Dimeling will undoubtedly be a Democrat.

# The KING LIME SPREADER

DEAR SIR:

Are you still considering the Spreader question?

We are very anxious to place one with you, because we are sure it would result in many more sales; and we are anxious to place it with you NOW in order that orders may be booked early for the coming season.

We therefore make you a VERY Special Proposition.

Our KING SPREADER is superior to others, because: It will distribute a greater variety of material, will distribute in any quantity from 100 lbs. to several thousand pounds to the acre. It is simple—any laborer can operate it. It is durable—cleans itself of acids that cause rust. Foreign matter, stones, bolts, lumps do not interfere with distribution nor injure the machine.

It is either a two or one horse machine, as you may prefer to make it.

It will distribute broadcast or, in drills—will straddle row of corn, putting out fertilizer on either side—run between fruit trees, distributing fertilizer on either side of water furrows.

Is there any requirement of yours that you think our Spreader will not fulfill?

Does the low price cause you to consider it inferior? (The writer who invented the machine worked hard to bring out a durable and effective machine that could be sold at a low price—a low price being necessary for wide distribution—a farmer doesn't feel like paying from \$46 to \$60 for a machine that is to be used in spreading lime or fertilizer only a few acres.)

Shall we book you NOW for future shipment? Will ship a machine to you in September or October, or now.

Yours truly,  
KING WEEDER CO.  
Richmond, Virginia

West Raleigh, N. C., Aug. 3, 1910  
Gentlemen: My foreman is very much pleased with the Spreader, and has found it excellent for distributing both lime and floats. We have used it to some extent for distributing mixed fertilizer successfully. I feel that this implement fills successfully a long felt want.  
Very truly yours,  
C. L. NEWMAN.

Pinegrove, Pa., June 28, 1910.  
Gentlemen: I am well pleased with the Lime Spreader you sent me; it does all you claim for it. I have tried it with stone lime and put 50 bushels of stone lime to the acre. If I could only talk it into the people how handy this Spreader is, then I would have sold a lot, but they are so used to that old shovel that they like to throw their arms off, but this fall I think I can sell some as most farmers put their lime on seeding land.  
Very truly,  
J. S. HALDEMAN.

Nanuet, N. Y., June 11, 1910.  
Gentlemen: Have noticed statement of J. S. Hagar, M. D., that your Spreader worked to a charm. I have a large farm and may need an implement in the near future. If you have printed matter for distribution, would be pleased to receive it.
