One of the Best Rest Cures, Is a good story.

To many women it is as good as a trip away from home.

When you are tired out and your nerves are on edge, try going off by yourself and losing yourself in some good story. You will, in nine cases out of ten, come back rested and invigorated.

One woman who has passed serenely through many years of hard work and worry that go with the managing of a house and bringing up of a large family of children, said that she considered it the duty of every busy housekeeper to read a certain amount of "trash," light fiction, for the rest and change to the mind that it would

THE FASHIONABLE DESIGNS FOR THE WINTER.

Most of the Styles That Will Be Worn Are Decidedly Graceful-Illustration of One of the Most Pleasing.

Like and unlike are these widebrimmed, graceful hats, covered with velvet, which our American beauties will don when occasions call forth picturesque millinery. They are from those eminent French designers who excel in hats of this sort. The brims curve gently, the crowns fit well, the designs are simple and there is an abundance of rich trimming, but not a hint of overtrimming.

The illustration shows a black hat beautifully made. A mass of white ostrich plumes like a small bank of snow is mounted in a wreath about the crown. The plume springs from the front and toward the right side, and in each of these models the heaviest trimming is at the right. No other trimming could be used with such a snowy mass of plumage. The brim is of the droopy variety, but curls upward all around and with more abruptness at the left side.

Very rich, bût less chaste, a hat in a gray-blue, trimmed with a mass of blue heron and Persian ornaments is made to wear with a special gown. The

coloring is so soft, however, that it may do duty with others. The feather is more gray than blue, and has white markings. Many soft colors appear in the ornaments. These trimmings would be as appropriate on gray or amethyst or black as they are on the strange blue shown in the model. The brim is very wide all round, but curves considerably at the left, the upward turn apparently narrowing it. these large hats. In fact, fashion has decreed more quiet in the posing of her buy the things she needs, wear good millinery. The rakish angle is tabooed. But there is much sprightliness of brim in the turbans and small hats, and eyes are well shaded in the round hats with mauve drooping signs of wear, and then replace it brims.

KEEP HAIR PROPER COLOR

Attention to Details Will Put Off for Many Years the Always Unwelcome Gray.

Despite the enthusiasts who rave over young faces and white hair, no the point of not favoring dyes, but that is all.

Therefore take every precaution to keep the hair from turning. Poor general health will do it; so will excessive worry or too much brain work without proper exercise and re-

Nothing will cause the hair to become gray so quickly as allowing the scalp to be robbed of nourishing For this reason, too, much shampooing or the use of drying mix-

tures on the hair is bad. Tonics that contain plenty of oil are invaluable to keep the natural luster of the hair, and should be used regularly by those whose family has a tendency to turn gray early.

WEARING OF PASTE JEWELS

Practise That Is Not to Be Commended-Many Reasons Why It Is in Poor Taste.

This concerns a practise that only in recent years has assumed dangerous proportions-the wearing of paste There is no doubt that French jewelry is artistic and beautiful, but many women now bedeck themselves in evening dress with Parisian jewelry that is such a close imitation of the real thing that there is intent to deceive. The moment this occurs bad taste creeps in. Frankness in wearing Parisian jewelry is the one thing that makes it possible

No matter if everyone else does wear paste, do not acquire the habit. False hair and false jewels are not lovely, though "every one wears them" nowadays.

This placid acceptance of false standards-something that would have been impossible a generation ago-will undoubtedly lower the ideals of what constitutes a gentlewoman and the things she permits herself to wear.

AVOID TOO MANY CLOTHES

No Advantage in Over-Supply of Garments, No Matter of What Description.

A woman who desires to dress well on a small income, and it can be done, There is no extreme tilt or poise in must learn first of all never to have too many clothes on hand at once. Let them out, and then buy others. It is better to have one well-fitting tailormade suit, keep it rigorously pressed and in order, wear it until it shows than it is to have several inferior suits. As to large stocks of underwear, they are only an anxiety. If not looked after frequently they grow yellow or a vagrant mouse makes a nest in them. Styles, too, alter frequently in underwear as in outer garments; also human figures alter and grow fat sometimes, and the treasured articles won't fit when they are brought out. As to shoes, it is better for the feet and better for the shoes woman really welcomes gray hair; to have several changes and wear she may become reconciled to it to them in rotation, but if shoes are kept too long the leather is apt to rot.

Children's Frocks.

More and more mothers are realizing that not only good taste, but good sense insists upon simplicity in little children's clothes. Furbelows are uncomfortable, tiresome and a bother to the youngsters, mothers, and

likewise the laundress. Plain percales and galateas make very sturdy frocks, standing the knocks and rubs of juvenile, strenuous-

ness with great fortitude. Cherry and ginghams in dark, yet cheerful colorings make splendid little dresses for school and autumn wear.

SWELLING THE HOTEL BILL

Hotel Keeper's Method of Taxing Traveler Had at Least the Method of Novelty.

One of the things which help swell the traveler's expenses, both in this country and abroad, is the "extra." It may or may not be charged in the bill, but it is sure to be paid for. Probably even the most generous traveler, however, will have some sympathy for the gentleman in the following story who was made to pay liberally for a certain annoying privilege.

During his stay at the hotel the

weather had been very hot. "Charles," said the landlord to the clerk who was making out the bill to be presented to the departing guest, have you noticed that the gentleman in number seven has consulted the thermometer on the piazza at least ten times every morning during his stay

Charles replied that he had. "Well," said the landlord, "charge him the price of one dinner a day for the use of the thermometer."-Youth's Companion

AWFUL BURNING ITCH CURED IN A DAY

"In the middle of the night of March 30th I woke up with a burning itch in my two hands and I felt as if I could pull them apart. In the morning the ftching had gone to my chest and during that day it spread all over my body. I was red and raw from the top of my head to the soles of my feet and I was in continual agony from the itching. I could neither lie down nor sit up. I happened to see about Cuticura Remedies, and I thought I would give them a trial. I took a good bath with the Cuticura Soap and used the Cuticura Ointment. I put it on from my head down to my feet and then went to bed. On the first of April I felt like a new man. The itching was almost gone. I continued with the Cuticura Soap and Cuticura Ointment and during that day the itching completely left me. Frank Gridley, 325 East 43rd Street, New York City, Apr. 27, 1909." Lovemaking and Practice. The only way to become an expert at lovemaking is to practice. This was the information handed out to a handful of hearers by the Hindu philoropher, Sakharam Ganesh Pandit, in

a lecture on "The Science of Love." "Love is a divine discontent," said the philosopher, "and if you want to arouse love in others it can be done only by giving them love. How to develop the emotion of love in another is the great question of today-the art of making love. It needs a great deal of study and a great deal of prac

Weak Heart Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their hear is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken rhich has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics

The ingredients, as attested under eath, are Stone root (Collinsonia Canades als), Bloodroot (Sanguinaria Canadensis), Golden Seel root (Hydrasiis Canades als), Queen's root (Sillingia Sylvatica), Black Cherrybark (Prunus Virginians Mandraks root (Podosphyllum Pelizaum), with triple refined glycerine, prepare in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many unc fortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.
