## COUNTRY AWAKE TO DANGER

Increase of Sanatoria and Hospitals for Consumptives Is Most Gratifying.

The growth of the crusade against tuberculosis in the United States is shown to good advantage in the two directories that have been issued by the National Association for the Study and Prevention of Tuberculosis and the one in preparation. The first tuberculosis directory published in 1904, by the tuberculosis committee of the New York Charity Organization Socieity and the National Association listed 233 sanatoria and hospitals for con-

sumptives in the United States, for some of which preliminary provision I began taking Doan's Kidney Pills only has been made. The combined and soon noticed improvement. Thirty-two special dispensaries and thirty-nine anti-tubercutosis organizations summed up prac- saved me from the grave and restored tically all of the fighting force enumerated in the first directory. The second directory was prepared by the National Association for the study and Prevention of Tuberculosis and published under the auspices of the Russell Sage Foundation in August, 1908. This directory listed 240 sanatoria and | task of getting around it. hospitals, an increase of 107 from the former directory; 158 dispensaries, an increase of 126; and 195 associations, an increase of 156. The number of hospital beds listed in 1908 was 14,014.

The new directory that will be issued soon, will list over 400 sanatoria and hospitals with a bed capacity of mearly 25,000; more than 300 special tuberculosis dispensaries; and fully \$50 anti-tuberculosis associations and committees. Since the first directory was issued in 1904, the increase in the number of agencies fighting consumption aggregates nearly 500 per cent.

The National Association for the Study and Prevention of Tuberculosis would like to get in touch with all agencies engaged in the fight against tuberculosis, in order that they may about baseball or the grain business." be listed in the new directory.

The traveler, the invalid and the woman with limited space welcome always any new ideas in the way of holders for their sewing, their darning or their embroidery. A few such novel ideas are, therefore, given here. If you do much fancy work on porches or while calling, use the ribbon sewing case shown here. It has a ribbon band which fastens around the waist with hook and eye, and three ribbon hangers (the number can, of course, be increased with your needs).

The first is folded over and stitched into pockets, in each of which there is a spool of cotton or a roll of silk. A pair of scissors is attached at the end. The second is painted as a measuring tape, and has an emery at the bottom. The third is lined with canton flannel and piped with narrow ribbon, and holds a row of pins. At

# AN INTOLERABLE ITCHING

"Just about two years ago, some form of humor appeared on my scalp. The beginning was a slight itching but it grew steadily worse until, when I combed my hair, the scalp became raw and the ends of the comb-teeth would be wet with blood. Most of the time there was an intolerable itching, in a painful, burning way, very much as a bad, raw burn, if deep, will itch and smart when first beginning to heal. Combing my hair was positive torture. My hair was long and tangled terribly because of the blood and scabs.' This continued growing worse and over half my hair fell out. I was in despair, really afraid of becoming totally bald.

"Sometimes the pain was so great that, when partially awake, I would scratch the worst places so that my finger-tips would be bloody. I could not sleep well and, after being asleep a short time, that awful stinging pain

## STOPPED SHORT Taking Tonics, and Built Up on Right Food.

The mistake is frequently made of trying to build up a worn-out nervous system on so-called tonics-drugs. New material from which to rebuild wasted nerve cells is what should be supplied, and this can be obtained

only from proper food. "Two years ago I found myself on the verge of a complete nervous col-

lapse, due to overwork and study, and to illness in the family," writes a Wisconsin young mother.

"My friends became alarmed because I grew pale and thin and could not sleep nights. I took various tonics prescribed by physicians, but their effects wore off shortly after I stopped taking them. My food did not seem to nourish me and I gained

It is getting cold enough now to think of the new bathrobe that serves many women in place of a kimono in winter.

Blanket material is of course a favorite; it is cut perfectly plain, without trimming, and is fastened with a heavy cord and tassel at the waist. Gray, blue and garnet, with white or black, are popular shades.

### Chenille Caps.

Parisian women have taken with enthusiasm to the new knitted caps of chenille, mostly in red and other bright colors, very flat, and untrimmed. These are warm, light and pretty, and will be much worn this winter for skating, etc., and as traveling caps. The idea originated with a little girl who sold dolls' caps of this sort at the Paris races.

Having used Cuticura Soap merely as a toilet soap before, I now decided to order a set of the Cuticura Remedies -Cuticura Soap, Ointment and Pills. I used them according to directions for perhaps six weeks, then left off, as the disease seemed to be eradicated, but toward spring, eighteen months ago, there was a slight return of the scalp humor. I commenced the Cuticura treatment at once, so had very little trouble. On my scalp I used about one half a cake of Cuticura Soap and half a box of Cuticura Ointment in all. The first time I took six or seven bottles of Cuticura Pills and the last time three bottles-neither an expensive or tedious treatment. Since then I have had no scalp trouble of any kind. Standing up, with my hair unbound, it comes to my knees and had it not been for Cuticura I should doubtless be wholly bald.
