WANTED SATAN SENT NORTH

Good Example of Scottish Humor in Remark Made by Railroad Porter.

Scottish humor is dry rather than boisterous, and I always think there is exquisite drollery in the story of the Stonehaven railway porter and the Salvation Army "captain." To catch the hang of a little yarn readers must remember that Stonehaven lies to the south of Aberdeen. The London train had drawn up at Stonehaven on account of a slight mishap a mile or two ahead, and Andra, the old porter, had got into conversation with a Salvation Army officer who had popped his head out of the compartment to ask the reason for the delay.

"Aye aye," mused Andra, after giving the desired information, "ye'll be for Aiberdeen, I'm thinkin'?"

"Yes my man," was the reply; "I'm bound for Aberdeen-a very wicked place, I'm told!"

"What micht ye be goin' to dae there, sir, if it's as bad as a' that?" asked Andra, rather amused at the visitor's words.

"Ah," was the plous answer. "I'm going to drive the devil out of Aberdeen."

Like lightning came from the old porter the pawky retort:

"See an' drive him north, chell; haud him well to the north!"-Exchange.

Somewhat Indignant.

The two extra-specialists had pounded and sounded him, and felt of his pulse and tapped his frame till he could only lie in a cold perspiration of

"Undoubtedly it's a case of appendicitis!" said specialist No. 1, gravely. "Undoubtedly!" assented specialist No. 2.

"But would he be able to stand an operation?" pondered No. 1. "Ah, would he?" echoed No. 2.

They dug him in the ribs again, and he squealed. "Ah," remarked No. 1, "I think we

ought to let him get a bit stronger before we cut into him." "Confound your palaver!" gasped

the patient, starting up. "What do you take me for-a cheese?"

An Exciting Town.

Los Angeles is a truly exciting town to live in. To say nothing of its heavenly climate and its bombs, there is always something stimulating in the occult line going on. Just the other day a widow of the angelic city began to long for a sight of one of her schoolmates whom she had not seen for 45 years. The longing brought 4ts fulfillment. A spirit told her to look for him in Brooklyn. She obeyed, met him on the street a few hours after she arrived, and promptly married him. It is worth while to live in a city where things like this happen, even at the risk of being blown up now and then.

Easy Marks.

"Talk erbout yore easy marks," said Uncle Silas Geehaw, who had been passing a week in the city, "us rubes ain't in it with them air teown chaps."

"Did yew sell 'em enny gold bricks, Silas?" queried old Daddy Squash neck.

"Naw, I didn't," answered Uncle Gilas, "but I seed a feller peddin' artificial ice-hed th' sign right on his wagon-an' blamed ef th' chumps didn't buy it fer th' real thing, by grass!"

The Number.

"I hear your new auto made a good record on its trip." "Yes; ran over in about an hour."

"How many?"

His Specialty.

"I hear that author friend of yours is making a fine living by his pen." "Yes. He's stopped writing and gone to raising pigs."

DRINK WATER TO CURE KIDNEYS AND RHEUMATISM

The People Do Not Drink Enough Water to Keep Healthy, Says Well-Known Authority.

"The numerous cases of kidney and bladder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medicine, has been neglected.

Stop loading your system with medicines and cure-alls; but get on the water wagon. If you are really sick, why, of course, take the proper medieines-plain, common vegetable treatment, which will not shatter the merves or ruin the stomach."

To cure Rheumatism you must make the kidneys do their work; they are the filters of the blood. They must be made to strain out of the blood the waste matter and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and, most of all, you must keep these acids from forming in the stomach. This is the cause of stomach trouble and poor digestion. For these conditions you can do no better than take the following prescription: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in bottle and take in teaspoonful doses after each meal and at bedtime, but don't forget the

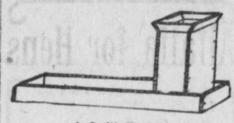

water. Drink plenty and often. This valuab'e information and simple prescription should be posted up in each household and used at the first sign of an attack of rheumatism, backache or urinary troub'e, no matter how slight.

SWILL TROUGH FOR PIG PEN

Device Illustrated That Will Save - Much Trouble and Temper-Hard Feelings Avoided.

The illustration shows a device that will save much trouble and temper, says Orange Judd Farmer. Everyone knows how much genuine pleasure it gives the hogs to jump up and spill the whole pail of feed over you, when you are reaching out at arm's length to place it carefully in the trough. This may be avoided by the simple

A Swill Trough.

tube illustrated, made from boards of den changes in temperature. a height equal to the height of pen feeder and the porkers.

SECOND GROWTH OF CLOVER

Excellent Profit in Lambs If Put on This Pasture Late in Fall-Rape Is Cheap Forage.

(By B. TAZEWELL WHITE.) There is an excellent profit in pasturing lambs on second growth clover for two months in the fall before putting them on grain rations for fattening.

Gains can be made on good pasture as low as one cent a pound in this way and that is cheap feeding.

Wether lambs can be had at reasonable prices. They can be turned into very good profit on all of the farms that have clover pasture or alfalfa. If put on second growth clover along in late August or September for two months and then fed alfalfa and corn or alfalfa alone they should put on from 40 to 50 pounds before going to than does the beef animal or the hog. the Christmas market.

Many farmers sell their lambs fat because they cut second crop way in which she had been bred and clover for seed or leave it for other stock during late fall and early winter system. months. There is certainly more money in pasturing lambs than in selling clover seed and if the second crop is kept for winter pasture about half its value is lost.

HEAVY STEER PRIZE WINNER

Hereford, Shown in Illustration, Weighed 1,470 Pounds When Only Two-Year-Old.

A Fine Hereford Steer.

years old. When shown at the International Live Stock Show he only won third prize because he was a little over fat and his appearance was somewhat lumpy. But he was a magnificent specimen of the Hereford.

Water for Hogs.

The hog that is not properly watered becomes too much constipated, which is the forerunner to many troubles and diseases. It therefore aids in keeping the bowels in the right condition to prevent constipation, which is one of the relentless foes of the feeder and must be guarded against at all times. The hog, says Swineherd, should be supplied with proper facilities for securing at all times water needed to drink and have

access to it without befouling it. Where he drinks from the stock fountain or a properly prepared chute he can be supplied with pure water in a clean state. While to quench his thirst he will drink any kind of water if he is compelled to, he greatly prefers to have it clean and pure.

In Cases of Indigestion. When indigestion is suspected have the animal clipped and its teeth attended to by a veterinarian. Then give Fowler's solution of arsenic in half-ounce doses twice a day for a week and then three times a day until in good shape, when the medicine may be gradually discontinued, but not stopped auddenly.

Costly Pork.

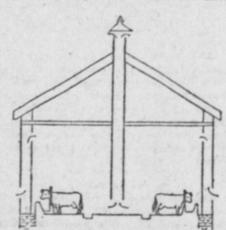

on many small places.

FRESH AIR IN MODERN BARN!

Necessary Part of Producing Profitable Live Stock That Animals Be Given Good Care.

The modern farm animal is an artificial product that has been developed by the skill and intelligence of the breeders. It is a necessary part of the operation of producing profitable live stock that suitable care be given them, but in seeking to accomplish this it is frequently overdone. In order to retain health and consequent vigor, and producing powers, whether it be of beef, pork or milk, farm animals should be so housed that they will not suffer from stress of weather on the one hand, or from lack of ventilation on the other, says the Kansas Farmer. The average farm barn is so constructed that it shuts up too tightly, and when a cold snap approaches the farmer, in his zeal to care for his profit making animals, will close the doors and windows against the blizzard, but in doing this he closes them against ventilation as well. It is difficult to understand how one could expect a cow to maintain her health and produce a full flow of wholesome milk, in a barn which is badly ventilated by reason of being closed too tightly or of being so open that it is subject to drafts and consequent sud-

Perhaps the best system of barn from feeding floors. At the top a ventilation which has ever been dehopper is built so that the feed may vised, and the only one which does be poured into same with ease. The its work perfectly, is that illustrated bottom is cut out on two sides in a in the accompanying drawing. Very half-circle, so as to allow the feed to little extra labor or material is neces flow from the tube into trough. It is sary to secure a perfect system of thus an easy matter to place this tube ventilation, which will carry away all in the trough, dump in the feed and of the foul odors of the stable and at then lift out the tube, thus avoiding the same time supply the animals all antagonistic feelings between the with plenty of fresh, wholesome air, without subjecting them to killing currents. One of the great secrets of success in live stock raising is to keep the animal comfortable. This applies with special force to the dairy

Barn Ventilating System.

Not because she needs it more but because she is more highly sensitive to discomfort by reason of the the high development of her nervous

The drawing herewith shows an air chute which reaches from the comb of the roof to within 14 or 16 inches of the concrete floor, and between the rows of cows in such manner that all foul odors are immediately carried away. The barn is sheeted on the inside with shiplap or some other suitable material, and occasional openings are made on the outside, as shown in the cut, for the admission of fresh air in such a way that it travels upward between the studding un-The Hereford steer shown in the il- til it reaches the joists of the hay lustration weighed 1,470 pounds at two mow floor. The warm air has a tendency to rise and goes up the shaft. while the cold air from the outside diffuses itself over the barn and does not create a draft. The ventilation holes in the outside weather boarding may be as numerous as desired, and of a length to cover the space between two studdings. Sliding doors are provided for each of these, so that they may be opened widely or closed entirely, according to weather. If a blizzard is raging from the northwest, these sliding doors may be closed on that side of the barn, and opened toward the sun, thus insuring plenty of ventilation and at the same time protecting the animals against the cold

heavy loads to draw.

Don't let the pigs get lousy. Spray them with kerosene emulsion while eating once every two weeks. In a horse action should be light free, easy and straight. Reject a

horse that crosses his legs in walking or trotting. In the purchase of a new horse, always purchase a mare. She will raise you some colts, which will increase

the farm profits. Be sure there are no ticks on the Pork is pretty high for "poor man's ewes. It is very costly to winter ticks od." But a couple of pigs could be and it doesn't pay. It is impossible to ought and fattened on the waster fatten a sheep infested with ticks. Look out for them.

NEWS OF PENNSYLVANIA

Altoona .- In the interests of good roads, J. C. Dysart, the wealthy Hollidaysburger, informed the Altoons Motor Club that he intended to renew his offer of \$600 in cash prizes to the township supervisors, showing the greatest improvement in the roads under their charge. He hung up this amount last fall, and there has been activity in road building all year. In a few days the judges will make their second inspection of the 302 miles of highways and award the prizes. All the townships in the county save four have signs at crossroads and Dysart has promised to supply these. In addition to giving prizes he has also performed personal work for good roads.

Pittsburg .- Mrs. Rose Fireman, an Erin street grocery proprietress, is one woman who can throw straight. She surprised a negro burglar at the cash register, and, seizing a twopound weight from the counter, she hurled it at the robber, striking him in the forehead and felling him. The negro had first begun to throw smaller weights at the woman, and for a few moments there was a veritable duel. The police came and took him

Lancaster. - Returning to her home after a dance, shortly before 12 o'clock, Miss Viola M. Spicher, 19 years, who had formerly lived at Thompsontown, Juniata county, discarded her ball dress, which she threw on the floor before retiring to bed. A piece of lace struck the gas jet and turned on the burner full head. In the morning the girl's body was found by members of her family, asphyxiation having occurred during the night.

Tamaqua. - Martin Starick, of Lansford, employed as a miner in No. 4 Colliery, walked to his death in the No. 5 Shaft. He fell 485 feet to the bottom, landing upon Alex Samenski, a miner, awaiting to be hoisted, who was also instantly killed. Caught in the rigging of the shaft at No. 6 Colliery, Clinton Weaster, aged 16, of Summit Hill, was whirled to his death.

Williamsport .- Dr. F. L. Moyer, of this city, was arrested here on the charge of being implicated with Arthur A. Dunphy in the alleged theft of \$50,000 from the Anglo-South American Bank, 69 Wall street, New York. Dunphy was arrested in Philadelphia on November 4 on a warrant from New York.

Altoona.-Captain Ephriam Gerst, aged 75, died at his home here. He served during the War of the Rebellion in the 125th Regiment, Pennsylvania Volunteers, and since then was always interested in military affairs, being for some years captain of Company C, Fifth Regiment, N. G. P.

Shenandoah,-According to the prices that coal sold at tidewater points, United States Commissioner of Labor Neill notified anthracite operators that the wages to be paid mineworkers for November would be 6 per cent. above the basis, an increase of 1 per cent, over October.

South Bethlehem .- While John George, Joseph and Alexander Kallaman, brothers, were hurrying home from work at the Bethlehem Steel Works along the railroad, a shifting engine dashed into them. John was struck and killed but his brothers escaped.

Williamsport. - When Charles Keener, a former policeman, refused to leave the office of Alderman Batzle the alderman fired a shot from a pistol at him. The bullet missed Keener and passed through a street door. Following the shot the former policeman made a hasty exit from the office.

York, Pa .- B. Frank Eaton, who was injured in the accident on the Maryland & Pennsylvania Railroad near Laurel, was brought here and died at 10.30 o'clock from his injuries. When the accident occurred it was thought he was only slightly hurt. He was 38 years old.

Reading .- Mrs. Mary J. Hanley, a visitor from Shamokin, stopped here while on her way home from Philadelphia. She dropped over unconscious and died in a few minutes. Her age was 42 years. Her husband is Fiske Hanley, of Shamokin.

Reading,-Jacob Hoffert, aged 68 years, a leading resident of Shillington, this county, was found unconscious in a gravel pit a short distance from his home and died before medical aid could be summoned. Heart disease was the cause of death.

Mahanoy City .- William H. Davis, prominently identified with the State Blacksmiths' Association, died here, aged 55 years, following a lingering

Shamokin .- Marr Klingerman, a well known resident of Shamokin township, was hurled from a conveyance by his team running away and falling under the animals was trampled on and terribly crushed. He will likely die from the injuries.

Consul Harry Conant writes that the Michigan Central tunnel from Windsor, Ontario, Canada, under the Detroit River to Detroit, Mich., was opened on September 19. Electric locomotives furnish the motive

ALMOST A MIRACLE.

Health - Completely Restored After Case Was Pronounced Incurable.

Mrs. J. Tilghman Wright, 519 Goldsborough St., Easton, Md., says: "I cannot begin to describe my suffering from Bright's disease. I constantly

felt as if I were dying. My back pained me intensely and was so weak that for weeks I could not walk across the floor. My condition became critical and physicians pronounced me incurable. started taking Doan's Kidney Pills as a last resort and

soon received relief. When I began with them I weighed only 64 pounds. I now weigh 109 pounds and feel like a new woman."

Remember the name-Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

At drug stores.

"You Americans," said the London man, "are very fond of what you call pie. But properly speaking a pie

should have meat in it." "Perhaps. But the beef packers compel us to economize."

Free Blood Cure.

If you have pimples, offensive eruptions, old sores, cancer, itching, scratching, eczema, suppurating swellings, bone pains, hot skin, or if your blood is thin or impure, then Botanic Blood Balm (B.B.B.) will heal every sore, stop all itching and make the blood pure and rich. Cures after all else fails. \$1.00 per large bottle at drug stores. Sample free by writing Blood Balm Co., Atlanta, Ga., Department B.

Little Myra Explains.

Little Myra Lee had been in school but a few days when her mother had occasion to write a note to the teacher, and signed herself Mrs. Kent. Thinking she might have misunderstood the child's name, the teacher asked an explanation. "Oh," said Myra, with a charming-

ly confidential air, "you see, my mamma got married again but I didn't."-Lippincott's.

What's in a Name?

"See here, waiter," said Mr. Grouch, growling deeply over his plate, "I ordered turtle soup. There is not even a morsel of turtle flavor in this."

"Of course not, sir" returned the waiter. "What do you expect? Shake- | \$ speare said there was nothing in a name. If you ordered college pudding would you expect a college in it? In Manchester pudding would you look for a ship canal or a cotton exchange? And tea, sir?"-Tit-Bits.

A Touch of Family Life. . When the country youth proposed to the city girl, he received the conventional assurance that she would be his sister. It happened that this youth had sisters at home and knew exactly his privileges. So he kissed her. At this juncture she availed herself of the sisterly right to call out to father that brother was teasing her. Father responded in good, muscular earnest. Then the new brother-and-sister relation was dissolved by mutual consent.

CURES RHEUMATISM. Immediate relief from pain follows use of Mexican Mustang Liniment. It soaks in to the bone. Read this positive statement:

Mr. E. C. Ford, of Rome, Ga., writes: "I was in bed three months suffering fear-fully from inflammatory rheumatism. I used everything I could think of without getting relief until I struck Mexican Mustang Lin-iment. After using three bottles I was all right. I rubbed the limiment in thoroughly and it did the work. There is no doubt what-ever as to the curative properties of this lini-ment properly and frequently applied and well rubbed in. It works equally well on man or beast."
