

DOES YOUR BACK ACHE?

Backache is usually kidneyache. There is only one way to remove the pain, you must reach the cause—the kidneys. No better kidney remedy than Doan's Kidney Pills. They permanently cure all kidney ills.

John C. Nolan, 173 K St., So. Boston, Mass., says: "I had backache, pains in my head, dizzy spells and urine scalded terribly. I doctored with physicians and finally went to C— Hospital. Instead of growing better I grew worse and left the hospital entirely discouraged. Luckily I began using Doan's Kidney Pills and was completely cured. There has been no sign of kidney trouble for five years."

AN EFFECTIVE HOME MADE KIDNEY AND BACKACHE CURE

Easily Prepared Medicine Which is Said to Regulate the Kidneys and End Backache.

To make up enough of the "Dandelion Mixture" which is claimed to be a prompt cure for Backache and Kidney and Bladder trouble, get from any good Prescription Pharmacist one-half ounce fluid extract Dandelion; one ounce Kargon Compound and three ounces Compound Syrup of Sarsaparilla. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

Those who have tried it say it acts gently but thoroughly on the Kidneys and entire urinary system, relieving the most severe Backache at once. A well-known medical authority recommends the prescription to be taken the moment you suspect any Kidney, Bladder or Urinary disorder or feel a constant dull Backache, or if the urine is thick, cloudy, offensive or full of sediment, irregular of passage or attended by a scalding sensation; or for too frequent urination during the night.

This is a real harmless vegetable mixture which could not cause injury to anyone and the relief which is said to immediately follow its use is a revelation to men and women who suffer from Backache, Kidney trouble or any form of Urinary disorder.

This is surely worth trying, as it is easily mixed at home or any druggist will do it for you, and doesn't cost much.

AFTER MIDDLE WEIGHT TITLE

Frank Klaus of Pittsburgh.

The coming middle-weight champion of the world, in the estimation of many good boxing judges, is Frank Klaus, of Pittsburgh. Klaus has come into ring prominence within the past year and is growing better every day. His friends believe that he is the logical successor of Stanley Ketchel, being a fighter along the same lines as the unfortunate Grand Rapids boxer, who fell by an assassin's bullet. Klaus is 23 years of age. He has been in the boxing game for some time, but his reputation had not spread far until recently. He stands 5 feet 7 1/2 inches and is of sturdy build. He is not especially clever but has a punch 18-carat fine and the courage of a lion. He loves to mix up things while in the ring and does not mind taking two or three blows to land one of his pile drivers. Klaus has fought good battles with Ketchel, Papke and Harry Lewis. He had no trouble defeating Jimmy Gardner. He is out after the middleweight title and stands ready to meet any of the other fighters who claim it.

YALE NOT RUNNING SMOOTH

Team is Expected to Improve Great Deal, However, Under Work of Its Expert Coaches.

Yale doesn't stand as impressively as usual for superiority on the gridiron by anything evidenced as yet this year. Captain Daly hasn't a coherent, smooth running football machine at his disposal. The team hasn't got the punch, the power to forge a swift, sure attack when it is needed. It is expected to improve a great deal, however, under the work of its expert coaches.

Enough games have been played and the season has advanced far enough to make the assertion that the chief aim of those who worked so hard last winter as members of the rules committee has been accomplished.

Yale doesn't stand as impressively as usual for superiority on the gridiron by anything evidenced as yet this year. Captain Daly hasn't a coherent, smooth running football machine at his disposal. The team hasn't got the punch, the power to forge a swift, sure attack when it is needed. It is expected to improve a great deal, however, under the work of its expert coaches.

Captain Daly of Yale.

The game is much safer and the players are open to fewer and less serious injuries. The game is less exhausting and freer from much unnecessary roughness, which more than anything else opened the way to constant unfavorable criticism. There are bound to be some injuries. It could not be otherwise, in such a strenuous sport, but the injuries up to this time have been of a minor kind, except in two or three cases.

Although Yale has suffered more than any other team by the new rules, Head Coach Ted Coy is far from knocking the new code. "Give them a chance," says the greatest of Yale players, "despite the fact that people claim there is just as much chance for injury as there was of yore, the game as it is now played is not as dangerous as before. And I believe that from a spectator's viewpoint the new game is much more interesting and exciting. Every play can be seen now, whereas before, when the old rules were in vogue, attack after attack on the line could not be fully appreciated by the spectators, inasmuch as they couldn't tell who carried the ball."

Young Sammy Smith of Philadelphia outpointed Jack Goodman of New York city in a fast ten-round bout before the National Sporting club in the latter city the other night. The fighting was furious throughout with Smith showing to advantage, except in the sixth round, which was Goodman's.

100 Mile Bicycle Record. F. H. Grubb, the English vegetarian cycling club rider, accomplished a fine performance in beating the Eastern English counties' 100 miles cycling record. Despite the wind, he covered the distance in five hours, one minute, twenty-two seconds, as against the previous best time of five hours, ten minutes, twelve seconds.

LIGHT PLAYERS IN DEMAND

Gridiron Stars Need Not Possess Great Weight, as Agility and Speed Figure in Contests.

Light, fleet-footed backs are in demand this year for all the college football teams. Under the new rules the light player has at last come into his own. This does not mean that the back field can be composed of men in the lightweight class. But the day of the ponderous, heavy backs seems to be a thing of the past. A player weighing from 150 to 180 pounds has the call for the positions this year.

The abolishment of the sturdy, catapult type of back is due to the change in the rules dealing with the old style of line plunging play. No longer is it legal for the human battering-ram to hurl three or more men as interference on an opposing line. Mass play has been effectually abolished. And so the character of the game has undergone a great change from the days of the flying wedge.

That the big college teams realize the futility of playing heavy men in the back field is shown by the number of shifts made this year. The heavy men had their try-outs early in the season and they failed to make as much headway as the lighter players. In some cases the experiment proved rather costly.

Harvard was one of the first to realize the value of light men in the back field. Evidence of this was shown when Minot, an All-American back of last year, was shifted to a place in the line. Minot's plunges through opposing lines last season netted the Crimson many big gains, but with the restrictions on this style of play this season the coaches decided he would be more valuable on the line.

Later in the year Princeton made a similar shift. Captain Eddie Hart, reckoned one of the best line plungers in the country, was taken out of the back field after the Lafayette game and placed in the line. In the game with Carlisle Hart more than won his spurs as an aggressive line man. He opened up some big gaps for the backs to tear through.

Coach Ted Coy of Yale was another football director to startle the experts when he placed Howe in at full back. Last season Howe was the choice for quarter back and it was expected he would play that position this year. He is heavy enough under the new rules, but he does not measure up in weight by many pounds to some of the old-time full backs.

Perhaps the forward pass had much to do with giving the light men their opportunity. Surely that, coupled with the necessity of end runs, has worked a big change in the complexion of the attack. To be successful the forward pass must be hurried and received by a player quick on his feet, one able to get started with the ball at top speed. While lacking in concentration of attack and a bit weak on the defense, Princeton has one of the fastest back fields in the country. Sparks, Pendleton and Ballou make up a combination hard to beat. Pendleton is counted one of the best runners in a broken field of recent years, and Sparks shows plenty of dash in his attempts to skirt the ends. Ballou is fast on his feet and at the same time an able punter. Against Houser of Carlisle he made an excellent showing, outkicking the Indian by many yards.

Nor are the Tigers without their usual drop kicker. Pendleton has acquitted himself well in the early games and seems capable of dropping the ball over the cross bar from any point almost within the 40-yard line. The list of star Princeton kickers is a long one. Somehow Nassau secures a good goal kicker almost every year.

While Harvard has been rolling up big scores on its opponents Yale and Princeton have not been doing so well. Yale was scored on by Syracuse, beaten by the Army and held to a no score tie by Vanderbilt. Princeton started off well enough by scoring 18 points on Stevens, but only managed to score 12 on New York university. Villa Nova was easy for the Orange and Black, but the Tigers barely won by a score of 3 to 0 over Lafayette. They defeated the Indians, 6 to 0.

DEATH NOT DUE TO FOOTBALL

Autopsy Reveals Real Cause of Freshman's Demise at Cornell—Died of Heart Disease.

That Lauren B. Paine of Duluth, the freshman who died at Cornell infirmary the other night, did not die from injuries sustained in football practice was made known after an autopsy upon the body by Dr. Charles A. Pentz, the Buffalo pathologist. The findings confirmed the opinion of the football coaches and others connected with the game and removes all doubts as to the playing of the balance of the scheduled year. The findings are contained in the following telegram sent by President J. G. Schurman to Franklin Paine, the boy's father:

"Dr. Bentz of Buffalo made a post-mortem examination and has just submitted to me the following signed report: 'From the findings it is my opinion that the patient died of unavoidable acute dilatation of the heart, associated with arterial disease and a gastro entero colitis. There was no evidence of anything due to football injury. The gastro entero colitis was the most important cause of the dilatation.' I should add that Dr. Bentz is a member of the department of pathology of the University of Buffalo and has made thousands of autopsies."

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult us by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.
