

CONSTIPATION

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverish it; they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope, they are soothing, healing and stimulating. They school the bowels to act without physic. Price 25 cents.

HIS VIEW.

"They call that a statue of Victory; it must have been a hot fight."

SUFFERED FIVE YEARS.

Joints Stiff and Ankles Badly Swollen.

Mrs. L. Skaggs, Louisa, Ky., says: "For five years my kidneys acted irregularly and secretions were painful and scanty. I was nervous, restless and felt constantly tired out. Dropsical swellings appeared in my ankles and my joints became stiff. Back ache made life miserable. After using other remedies without relief, I began taking Doan's Kidney Pills and continued with them until cured. Time has proven my cure permanent."

A Christmas Criticism.

Orville Wright, discussing flying in New York, said to a reporter: "The French claim to make the best machines, but our foreign order books tell a different story."

"Our foreign order books give the game away like the little Dayton boy at the Christmas treat. He got from the tree at this treat a pair of trousers, and, waving them around his head, he electrified the entire Sunday school by shouting in a loud and joyous voice:

"Oh, ma, these pants must be new. Pa never had a suit like that."

In Different Parts of the House.

Caller (to little daughter of the house)—Hullo dear? Where are you off to?

Daughter of the House—I'm just going up to watch Marie do mother's hair.

Caller—Oh, dear! Then I'm afraid we shan't be able to see your mother. Daughter of the House—Oh, yes; you'll find her down there in the drawing room.

OLD COMMON SENSE.

Change Food When You Feel Out of Sorts.

"A great deal depends upon yourself and the kind of food you eat," the wise old doctor said to a man who came to him sick with stomach trouble and sick headache once or twice a week, and who had been taking pills and different medicines for three or four years.

He was induced to stop eating any sort of fried food or meat for breakfast, and was put on Grape-Nuts and cream, leaving off all medicines.

In a few days he began to get better, and now he has entirely recovered and writes that he is in better health than he has been before in twenty years. This man is 58 years old and says he feels "like a new man all the time."

STATE CAPITAL CHAT

Harrisburg Correspondence.

\$750,000 In Six Minutes.

"The new House" busted itself for exactly six minutes on its opening day, with the task of voting itself a generous slice of \$750,000.

The job is not finished, the bill only passing second reading, but the Representatives adjourned with the understanding that they would return on January 16 and complete it, so far as the House is concerned.

Then the Senate will take up and pass the "supplemental appropriation bill" providing for the payment of salaries of Senators and Representatives and the expenses of the General Assembly for the six months ending May 31, 1911.

All this is necessary because the Legislature that met in 1909 passed a bill doing away with the old system, or lack of system, of paying the legislators a good slice of their salaries on the first day of the legislation. The law of 1909 provided that this could not be done till a specific appropriation has been made, and Attorney General Todd recently announced that the law meant what it said.

On the principle that the laborer is worthy of his hire, the members of the House will vote themselves their salaries for the session in advance, amounting to \$310,625, also \$14,000 worth of railroad mileage, and \$20,700 in postage stamps and \$10,350 worth of stationery.

Officers and employees of the House will get \$85,000 in the form of salaries and mileage to the amount of \$3,500.

There are 50 Senators, whereas there are 207 members of the House. It is only equitable that the Senate should vote itself less from the State Treasury than the House. The Senate will begin where the House leaves off, as regards the formality of reading the appropriation bill.

The Senate will vote itself \$75,125 in salaries, mileage to the total of \$2,500; for stationery, \$2,500, and \$5,000 in postage stamps. Officers and employees of the Senate will be voted \$68,000 in salaries and \$2,700 in railroad mileage.

If all goes well, the signature of Governor John K. Tener should be at the foot of the bill by the evening of January 18, or before he has fairly adjusted himself to the Governor's chair, to which he will be inducted on January 17.

Drapery On Capitol Statues.

The classic statues which George Gray Barnard executed in marble for the main entrance of the State Capitol, are to be chastely draped. This announcement was made by G. Piccarelli, head of the firm which is erecting the groups, in confirmation of statements made from Paris and New York by the sculptor, after the filing of objections to the naturalness of the figures.

Piccarelli, who comes from New York, said that rough marble would be used to drape the statues and that it would be fastened with bronze pins in such a manner as to fit the lines of the figures. He believed, however, that such treatment was marred by the beauty of the forms. He also remarked upon the fact that the Pennsylvania official idea of the human form divine was somewhat different from the ideas of European artists, and also of New York, which had nude figures on its New Custom House.

None of the figures has been erected and the drapery may not be attached until they are in place.

Guardsmen At Inaugural.

The National Guard will be represented by a provisional regiment of infantry and the Governor's Troop of cavalry at the inauguration of John K. Tener as Governor on January 18.

This plan was determined upon at a conference of State officials and members of the Inaugural Committee, and the arrangements will be worked out at once. The plan is to have the regiment composed of companies in communities which are within a few hours of Harrisburg, the organizations being drawn from the Fourth, Eighth and Twelfth Regiments and including those in Harrisburg, York, Chambersburg, Carlisle, Lewisburg, Sunbury, Lebanon, Lancaster, Reading and Allentown.

Examining Poorhouses.

The commission appointed by the last Legislature to investigate the condition and management of poorhouses in Philadelphia county and the townships of Bristol, Oxford and Lower Dublin, held the first meeting of its final lot of activities in Senator Clarence Wolf's office, Philadelphia. The meeting was behind closed doors, and was devoted to hearing witnesses.

Senator Wolf, the chairman, explained that the commission will shortly wind up its work and will then report its findings to the present Legislature. It consists of Senators Wolf, E. H. Vane, E. F. James, W. C. McConnell and M. C. Rowland.

THE CAMORRAS IN MANACLES

Thirty-two of Them at Viterbo, Italy, for Trial.

IN PRISON FOR THREE YEARS.

A Mob Of Italians Tries To Break Through the Police Cordon To Get At the Prisoners—Erricone, Head Of the Gang, Protests That the Murder Of Detective Petrosini, Of New York, Recalled—The Man He Captured.

Viterbo, Italy (Special).—Detachments of police heavily armed and carabinieri surrounded the station here Saturday at the arrival of 32 members of the Camorra, who are to stand trial for the murder of James Cuocolo, a leading member of the band, who had incurred the vengeance of the Camorristas for alleged acts of treachery. Cuocolo's body was found on the seashore near Naples in June, 1906, and the mutilated body of his wife was discovered shortly afterward in a house nearby.

Extraordinary precautions were taken to guard the prisoners and to prevent any attempt at their release. They have been in close confinement for more than three years, and hundreds of their friends and relatives gathered at the station here Saturday. Police detachments were stationed at various points, and when the train arrived from Naples there was a scene of riot and disorder.

It was known that nothing would be left undone to effect a rescue, and stringent orders had been issued to the police and carabinieri to put down any such attempt by whatever means necessary.

The prisoners descended from the car in groups of five chained together. They comprised all varieties in the social scale, from dandy to last-rate. Chief among them was Erricone Alfano, better known as Erricone, head of the Camorra, who was arrested in New York in April, 1907, by Detective Petrosini. He was wrapped up in heavy furs and seemed hardly able to stand.

The prisoners shook their manacled fists and raised their voices almost as loudly as their protesting friends and relatives. The wife of Mandriere, known also as DeMarinis, the most prominent Camorrist at Erricone, struck at the Carabinieri, shouting:

"May you all be killed! May you all go to the dissecting table of the hospital!" Erricone protested earnestly, saying: "We are murdered innocents. The Viterbo jury will take revenge on us. Thus Italy will be disgraced before the world."

It is believed that evidence will be brought out at the trial of these men which will throw light upon the murder of Detective Petrosini at Palermo in March, 1909, whether he was sent by the New York Police Department to secure information on Italian criminals.

ANOTHER POISON CASE.

G. M. Strobaker, a Pittsburg Man, Ill From Strychnine.

Pittsburg (Special).—Pittsburg has developed a case of poisoning which may become sensational. While her husband, G. M. Strobaker, superintendent of the Morton Grain and Hay Company, is lying in the South Side Hospital ill from strychnine poisoning, Mrs. Mary Strobaker, his wife, was Sunday evening detained by the police and orders given that no one, not even counsel, be permitted to see her.

Chief of Police McQuaid says the department has enough evidence to show an attempt at poisoning. That enough strychnine was placed in the food of Strobaker Saturday to kill 25 men, is the assertion of physicians who have been called in on the case and the question now to be answered is, "Who put the poison in the food?"

Mrs. Strobaker before being detained by the police asserted that her husband had enemies among the foreigners who worked in the elevators with him, and that some of the more spiteful had evidently put the poison in his food.

Fatal Rear-End Crash.

Waco, Tex. (Special).—H. D. Reynolds, Pullman conductor, and Dr. King, of Dallas, were killed, when the Missouri, Kansas and Texas flyer, No. 6, ran into flyer, No. 8, at Abbott, 27 miles north of here. Heavy fog obscured the lights on No. 6, the rear sleeper of which was telescoped. The other passengers were only slightly shaken.

Woman and Babe Die.

Philadelphia (Special).—Mrs. Mary Trainer, a young married woman, and her four-month-old baby were suffocated by smoke when the bed upon which they lay was destroyed by fire. The police say that the blaze followed a party at the woman's home. It is believed that a lighted cigar was thrown upon the straw-filled bed. Five children of another family on the floor below were rescued by firemen.

COMMERCIAL

Weekly Review of Trade and Market Reports.

R. G. Dun & Co.'s weekly review of trade says:

"After a satisfactory retail holiday trade, business in nearly all branches is quiet, with the usual end of the year adjustments. The outlook while not as promising for immediate activity as might be desired, contains, none the less, many elements of strength. The iron and steel trade is still confronted with a consumption of only half of the producing capacity and the dry goods business, with the problem of costs, but there is an absence of demoralizing speculation and of overstocked shelves in all mercantile lines, while the agricultural prosperity of the past year and the general feeling of conservative confidence make conditions better than the trade statistics indicate.

"It was a seasonably quiet week in the primary dry goods markets, with values well maintained, but still generally close to or below the cost of production. In cotton goods curtailment of production is generally believed to be inevitable after the turn of the year, when present contracts expire. The firmness in wide gray goods is maintained and there has been a very fair business in staple prints for spring delivery, while bleached goods are firm, but with business light. Overcoatings for fall 1911 are being ordered very liberally from the largest producers, who have made prices exceptionally low. Yarns rule steady but quiet."
