

MOTHERS OF THEN AND NOW

Conditions Are Only Different, No Matter What Sentimental Writers May Assert.

The "popular" writer who bewails what he assumes to be the fact that the "old-fashioned" mother is no more is liable to defeat his own purpose if that he is inciting in children the highest possible regard for their parents. It is a danger which even the quantitative theory of literature or space rates cannot justify.

The mother of the past, of course, was different from the mother of the present, as different on the whole as the conditions of life then and now, but since her daughter is the mother of the present there must be some points of similarity. All the good in our mothers and grandmothers certainly could not have vanished. It will be paying scant tribute to those dear, good women who have laid down their precepts and examples and passed on to say so. And, of course, this writer does not mean to do that, yet he comes very near doing what he does not intend.

The fallacy of the whole sentimental notion that because things and people are not like they used to be they are not as good, lies in the patent fact that they cannot be alike, and if they were it would simply be because of the present generation being so much inferior to the past that it was unable to do no more than stand still.

TRIPLE LYNCHING BY MASKED MEN

They Storm the Jail at Shelbyville, Ky.

TWO HANGED AND ONE IS SHOT.

All the Men Lynched Were Negroes, One Of Whom Had Been Sentenced To Hang For the Murder Of a Negro Woman, and the Other Two Were Charged With Insulting White Women—Story Told By Jailer's Deputy.

Shelbyville, Ky. (Special).—Fifty masked men early Sunday stormed the Shelby county jail, seized and lynched three negroes, two of whom were charged with insulting white women, while the third was sentenced to hang for the murder of a negro woman.

The bodies of two of the negroes, Gene Marshall and Wade Patterson, were found later, but that of the third, James West, is still unaccounted for, although he was seen in the hands of the mob with a rope about his neck.

According to Ernest Hornback, deputy jailer, the mob within an hour and a quarter surrounded the jail, broke down a door and took the three negroes away, leaving 14 others in the same cell from which the three were taken.

The two bodies recovered were found about a quarter of a mile apart. That of Marshall was found hanging to a bridge over the Eminence pike, near the jail, while that of Patterson was found in Cedar Creek. Patterson, it is said, attempted to escape from the mob, and was shot. His body was thrown into the creek.

According to Deputy Jailer Hornback, Jailer Edward Thompson hid the jail keys when the mob appeared and later when the mob entered Hornback let the men into the jail edifice.

"They said there were three niggers we're going to get or else blow the jail up," Hornback said. "They kept yelling for the dynamite, while some of the mob started to beat on the cell locks with a sledge hammer. About 12 men had their guns pointed at me, demanding the keys. I insisted I did not know where they were. Finally, they broke the cell door open and took out West, Marshall and Patterson."

Patterson, it was charged, insulted two white women during the holidays and knocked both of them down. West's alleged crime was more recent and it is said that he had often been seen throwing kisses at white women. He was a chauffeur. Marshall was sentenced to hang for beholding a negro woman more than a year ago.

FOOD PRICES WILL DROP.

Cold Storage Stuff To Be Least Cost On Market.

Chicago, Ill.—Hundreds of millions of pounds of cold storage butter, eggs, cheese and poultry, some of it as much as five years old, are about to be thrown on the market and sacrificed at whatever price they will bring, as the result of the collapse within the last few days of the Food Trust, which by steady aggressions during the past half decade has priced prices of provisions up to their present exorbitant figures.

The smash, it was predicted Sunday, will be one of the most spectacular for a long period of time. Prices, now 33-1-3 per cent. higher than they ought to be, are about to drop in a sudden slump to their normal levels. Chicago, as the center of the cold storage industry of the country, is to be the vortex of the wholesale unloading. Failures among commission men and a general financial stringency in the butter, egg and poultry trades are effects, it was stated, that are likely to follow.

Although the collapse of the "corner" is likely to be felt most keenly by the cold storage men of Chicago, the pinch will be felt in many of the important shipping centers of the East and Middle West. Chicago, New York, Philadelphia, Omaha, Kansas City, St. Louis and Minneapolis were spoken of today as the points where most of the unloading probably would be done.

Saved From Lynching.

Dothan, Ala. (Special).—Joel Aycock and Alto Barefoot, two white farmers of Geneva county, who were arrested Thursday on the charge of having assaulted the 15-year-old wife of a 17-year-old Geneva county boy, were Sunday removed from the county jail here on the order of Judge Pearce, to prevent a possible lynching.

Boy Falls Sixty Feet.

Ithaca, N. Y. (Special).—Howard Mente, a 15-year-old boy, slipped from a path along Cascadilla Gorge and fell 60 feet to the creek below. He had been carrying laundry bags and they fell under him breaking the fall sufficiently so as to save him from death. A party of Cornell students secured a rope which was lowered into the gorge and three of them made the perilous descent along the side of the cliffs. Mente was hoisted back to safety and hurried to the hospital. His condition is critical.

COMMERCIAL
Weekly Review of Trade and Market Reports.

R. G. Dun & Company's Weekly Review of Trade says:

There is little or no change in the state of the larger trades. Contraction of output continues in iron and steel, but the outlook for the new year is regarded as encouraging.

In the month of December, 27 additional furnaces were blown out and the daily rate of production fell from 63,659 to 57,252 tons, or nearly 28,000 tons less than in the corresponding period of 1909.

Retailers of dry goods the country over are pushing sales of white goods and domestics, while jobbers are busy bringing out their new lines of spring goods for house display. Buyers are showing increased activity in the markets. There has been a little more trading in specialties, wash goods and ginghams and somewhat greater interest in early showings of blankets and napped goods, but drills and sheetings have ruled quiet.

The footwear market continues quiet and unchanged. New England producers have but a small reserve for spring cutting, but buyers generally are known to be carrying meager stocks and an improved business is looked for by the latter end of the current month. There is a somewhat firmer tone to the market on domestic hides and this is especially noticeable in cow and bull hides.

SKIN TORTURED BABIES SLEEP AND MOTHERS REST

A warm bath with Cuticura Soap, followed by a gentle anointing with Cuticura ointment, is generally sufficient to afford immediate comfort in the most distressing forms of itching, burning and scaly eczemas, rashes, irritations and inflammations of infants and children, permit sleep for child and rest for parent, and point to permanent relief, when other methods fail. Peace falls upon distracted households when these pure, sweet and gentle emollients enter. No other treatment costs so little and does so much for skin sufferers, from infancy to age. Send to Potter Drug & Chem. Corp., Boston, for free 32-page book on the care and treatment of skin and scalp troubles.

Children's Food.

Certain little suggestions are always to be followed when planning the diet of the little ones. To keep healthy little stomachs in the nursery never serve hot stewed fruit to the children. Plenty of stewed fruit and baked apples they should eat, but they must invariably be cooked the day before and dished up cold. The nursery potatoes should always be baked or boiled in their jackets. Stewed and fried potatoes or potatoes boiled without their skins supply starch, with a loss of all the wholesome potash salts that the skin gives out during the process of cooking into the white part of the vegetable.

Needed Assistance.

A poor old cast-down hobo started to knock the paint off of a back door the other morning, and when he tearfully told the lady who appeared that he had a sick wife at home and a dozen hungry kids, she gave him a couple of home-made biscuits. Daintily the hobo handled them, and once more he glanced up wistfully.

"What's the matter," indignantly demanded the housewife, "aren't you satisfied with the biscuits?"

"Yes, dear lady," replied the tramp-like one, "but I thought perhaps you would be so kind as to loan me a nut-cracker for a few minutes."

The Inevitable.

"You don't resent that successful candidate's proud and haughty manner?"

"Nope," rejoined Farmer Cornstossel. "The fact that he's in politics is all the guarantee I want that sooner or later he'll meet with some kind of a terrible finish."

Doesn't Seem Natural.

TAKE A LESSON FROM VENUS

Moral That Writer Has Drawn Is Not Without Some Points of Worthiness.

Miss Venus is a lovely girl; not one time has she muttered; against her pale, illumined life not one word has she uttered. Just think, she's been without her arms for many dusty ages, and yet she never drops the brine or rants in hopeless rages. She has to stand a bunch of guff from art bugs down to draymen, and yet she never once comes back and grills the heathen layman. When some low-brow of brutal men starts merrily to panning and says her face is worse than wood and that her hair needs canning, or that he has a waitress friend who jerks a coffee jigger could give her many, many leagues and beat her out on figger, she never even looks at him, that rank untutored sinner, but holds her tongue and pedestal, O Venus is a winner. She's on the job both day and night, she hears man knock or flatter and women not of classic mold get madder than a hatter. She suffers long and quietly with calm and placid manner; in cold no mits to reach a quilt, in heat, no hands to fan her. She is a lesson in herself—a fruit for daily picking. Just spare the world your trouble tales and scratch the useless kicking.—G. S., in Chicago Tribune.

A Lesson for Diplomats.

Elihu Root, at the luncheon in Providence preceding the dedication of the John Hay Memorial library at Brown university, said of John Hay: "His diplomacy was gracious, and it was prudent as well. I remember, in an argument about a certain international complication, how very warmly and aptly he once insisted on prudence."

"It was the Christmas season, and he said that we might learn a lesson from a little girl who was naughty in the early part of December."

"Dear me," her mother said, "if you're going to be naughty I'm very much afraid Santa Claus won't bring you any presents."

"The little girl frowned. 'Well,' she whispered, 'you needn't say it so near the chimney!'"

A Deadly Error.

Dr. W. B. Cannon of Harvard, discussing anti-vivisection literature at a dinner in New York, said with a smile:

"This literature, in part at least, is as flagrantly erroneous as the medical department conducted by a young college girl in a weekly paper. A sample reply in this department ran: 'Bereaved.—The reply given last week was a mistake. It should have been ten drops of laudanum, not tea-cups of laudanum. Yes, we advocate cremation rather than the old-fashioned burial.'"

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.
