HOUSE NO. 3

Eggs For Hatching, Day-old Chicks, Incubators and Brooders
A full line of Feed of the best grade—same as we use with great success

YOUR SUCCESS with poultry depends largely upon the feed you use and your method of feeding. We have been receiving from our hens, since Sept., eggs in large quantities every day, zero weather or otherwise. This shows that our feed and method of feeding is right, as it has brought excellent results. Most farmers feed too much corn. With our SCRATCH FEED and EGG MASH you have a balanced ration that will bring the eggs. Our feed is manufactured by a firm in Buffalo that has been in business since 1858 and received Gold Medal at Pan-American Exposition in 1901 for purity, cleanness and excellence. They are fixed for mixing it thoroughly and understand the proper proportion of each of the many grains which compose our Scratch Feed.

Prices and our method of feeding furnished upon application. We keep a full line of everything in the poultry line. We deliver the above as well as the following to your nearest freight station:

120-Egg Chas. A. Cyphers New Buffalo INCUBATORS,	\$12.00
240-Egg " " " " " "	\$16.00
360-Egg " " " " " "	\$20.00
100-Chick Out door Colony BROODER	\$12.00

These are no "middle price" machines, which means middle grade goods, but are FIRST GRADE GOODS—no better to be had at any price.
