THE BOY AND THE GUN.

Each season brings its own sport or pastimes, game or fad for the boys. The autumn and winter are the seasons when many boys hunt or shoot a great deal, says the Omaha Bee. This should be the time, then, for the reiteration of that old warning about the "I-didn't-know-it-was-loaded" accident. Boys should be careful with their shooting irons, and never fail to know whether they are loaded or not. Two boys were out shooting a few days ago and one, thinking his gun was empty, aimed it at the other and pulled the trigger. The other dropped dead. "I didn't know it was loaded." wailed the one who killed him, echoing the wall of scores of others who had at sometime been as criminally negligent as himself. No boy or man has a right to aim a firearm at another person, and when he does it, whether harm comes of it or not, he should be made to feel that he has done something he should not. Parents can well afford to deny guns and pistols to their boys until they have reached such ages as will make them capable of realizing their dangers. If they must have guns, they should be cautioned against careless use of them. It sometimes seems trite to speak of warning boys against such things, but if they were warned often enough such distressing accidents would be fewer.

Pittsburg is growing at a fairly rapid rate, but wants to increase still more swiftly. That smoky town has an ambition to reach the 1,000,000 mark in population, and is bending every effort in that direction. For one thing. Pittsburg is pushing the project for a ship canal from that city to Lake Erie, by which it is hoped to increase still further the already great industrial activity of that district. Other schemes include a big rapidtransit system, with subway attachments, bringing various points into easier reach; educational and other expansion, and numerous improvements designed to increase the attractiveness and convenience of the city and its environs. And Pittsburg seems to have sufficient public spirit to carry out the great work suggested.

The census figures continue to give interesting results. Mention has been made of the fact that there are now in

from the miners' union. The vote on roll call followed a standing vote of 446 to 344 taken in the morning, which favored adoption of the amendment.

Following the completion of the roll call and before the vote was announced, a telegram from John Mitchell, who had been informed of the standing vote of the convention, was read by Secretary Perry.

The text of Mitchell's telegram was:

"I am advised that, by amendment of constitution. I am deprived of my membership in the United Mineworkers of America unless I relinquish my membership in the National Civic Federation.

"While I regard this action as a cruel injustice, following, as it has, an overwhelming vote of confidence on the part of the miners of the country, as evidenced by my election as a delegate to the American Federation of Labor, and coming at a time when the enemies of labor are exerting their every influence to New York .--- Agents of the Du Pont have affirmed by the Supreme Court

Magazine Publisher and Writer of Alleged Libeious Article, Because of Which Corporation Brought Suit, Declare They Were Mistaken.

New York .- In the matter of the libel suits brought by the Standard Oil company for \$250,000 damages against Hampton's Magazine and for \$100,000 damages against Cleveland Moffett, the former the publisher, and the latter the writer, of an article in the February issue of the magazine which defamed the company in connection with the sale of glucose and candy in Philadelphia, the following retractions have been signed in the office of Shearman & Sterling, the Standard Oil company's lawyers in the case, and have been issued from the company's offices at No. 26 Broadway:

"Hampton's Magazine, 66 West Thirty-fifth St., New York.

"Jan. 31, 1911. 'Standard Oil Company, 26 Broadway, New York.

"Dear Sirs: In the February issue of Hampton's Magazine there was published an article written by me, entitled, 'Cassidy and the Food Poisoners.' In that article I referred to the investigation of Mr. Cassidy, with respect to the manufacture and sale of impure candies in Philadelphia, and made the statement that your company manufactured and sold impure material which went into these candies and that, when the various dealers were arrested and fined, at the instance of Mr. Cassidy, your company paid the fines.

"Upon investigation, I, have ascertained that your company was in no way connected with the transactions referred to and I hasten to retract in the fullest manner all charges made against your company and to express my sincere regret that I should have fallen into this serious error. Yours truly, Cleveland Moffett."

"Jan. 31, 1911. Standard Oil Company, New York City.

"Dear Sirs: Referring to foregoing letter of Mr. Cleveland Moffett to you, we beg to state that we are convinced that Mr. Moffett was in error in his statements with reference to your company. We greatly regret that these errors should have been made. It is the desire of Hampton's Magazine to be accurate and fair in all things. In our March number we will

publish this letter and the foregoing

the United States 50 cities with a population of 100,000 or more, a notable gain in ten years, as there were but 38 such citles in 1900. Now the census bureau, having compiled the returns, announces that there are in this country 19 cities with a popula tion reaching or exceeding 250,000. In 1900 there were 15 towns included in that class. From this it appears that, while there has been marked gain in many cities, large and small. the proportion has been greatest among municipalities of moderate size
