Red-Letter Grange Day.

Saturday was another red-letter day for Progress Grange, for at a regular session forty-two applicants for membership were voted, on, and were accepted.

In the evening State Master W. T. Cressy gave a talk on Grange work in general, and also touched on a number of topics being discussed by the agricultural classes, politicians and consumers.

The occasion was also enlivened by music conducted by George H. Emerlock, and a choir made up of members of the order.

CUTTING HIS PANTS.

A Funny Man's Criticism of the Sartorial Artist's Efforts.

When a tailor puts you on the measuring box, with a man guarding the door so that you can't get away and another making a book on the game, he reels off something like this as he goes about you with his measuring tape: "13-2-11-16-8-4-3-11-46-Gee, you're beginning to get a front, ain't you?—64-17—side and two hips, Jimmie—33 1/2-36—Can you come in tomorrow or Friday?—10-6—House or a flat, did you say?—28—Custom of the house to have a deposit on all orders—16—What was that last, Jimmie, did I say? Oh, make it 7; in the middle—What did you say your name was, mister?"

Now, nobody can make any combination of the foregoing figures which will spell anything like a decent pair of pants. But the tailor cares nothing whatever about the figures which he calls out to Jimmie and indeed makes no reference to them in his later operations.

Having selected from the mass of papers on his desk a set of figures which suits him, he goes behind his counter, yawns, looks in the glass, smooths down his hair, hunts for the place where he left his cigar and at last picks up a thing which looks like a board rule, with a curve in the corner like a hockey stick.

What the tailor is thinking of as he begins to make chalk marks in a piece of blue paper, using this rule as a straight edge, is the "joy ride" he is going to have with Marie in his new auto that evening.

The tailor goes on making several cute little pictures on the blue paper by aid of this curved thing, which has numbers scattered along it here and there. He draws in several isosceles triangles, converging at more or less the same point; but, not liking the looks of these, he rubs out some of the lines and tries over again.

In 1800, when the combined armies of Victor Emmanuel and Garibaldi attacked Gaeta, Queen Sophie of Naples conducted the defense, her husband, Francis II, being utterly unnerved. Most of her time was spent upon the ramparts, where she remained during the hottest fire.

"Oh, George, dear," she whispered when he slipped the engagement ring on her tapering finger, "how sweet of you to remember just the sort of stone I preferred! None of the others was ever so thoughtful."

"Where were you born?" asked the judge of election.

"Yes; that's the law."

"Well, sir, I was born in th' steerage, if ye've got t' know."—Chicago Tribune.

"What's all this trouble about the long and short haul?" demanded the secretary of the woman's club.

"It's this way," explained the treasurer. "Some dressmakers say a train ought to be six feet in length. Others say three feet is enough."—Washington Herald.

The principal difference between a genius and a fool is that the genius is able to get people to take up his ideas and make fortunes out of them.

The man who combats himself will be happier than he who contends with others.

On Thursday evening of last week friends and relatives of Mr. and Mrs. Foster Frazier gathered at their home for the purpose of celebrating Mrs. Frazier's birthday.

ANY GOOD LIFE INSURANCE company is a safe custodian for your money. But the same discrimination should be used in this as in any other business deal. The question reduces itself to just this: Are you willing to trust to chance in buying life insurance, or will you assure yourself of getting the best to be had. The 20 per cent. Allotment policy of the Royal Union gives more value for the money than any policy you can buy. It is not only the best policy at the price, but the best at any price
