WILL REDUCE LONG SCORING

Barney Demarest Will Introduce New System of Starting Harness Races This Season.

Barney Demarest, well-known trainer and driver of trotting horses, is going to introduce a new system of starting harness races this year, with a view of eliminating the prolonged scoring which mars so many meetings. Believing that better control of the drivers is necessary to accomplish this end, and that such control cannot be obtained when the starter is in the budges' stand, 100 yards away from where the scoring begins, he intends to work from a position fifty yards up the stretch and close by the inside rail. If the horses are bunched and all going level at that point he will give the word "Go!" and the race will be on, though the time will, of course, be taken from the judges' stand. If the horses are not well together he will call them back before they have scored more than about onehalf as far as is usual at present.

A great many horses nowadays trot more than an eighth of a mile at their utmost speed in scoring for each heat, thus often exhausting them before the race has begun. Mr. Demarest is confident that this new system will reduce the scoring in races fully fifty per cent.

THINKS FOOTBALL IS SAFER

President Lowell of Harvard Univer sity Declares Revised Rules Have Eliminated Much Danger.

President A. Lawrence Lowell of Harvard declares that the revised football rules have reduced the chances of injuries. The statement was made in connection with his annual report to

President Lowell

the board of overseers of the university. In part he said: "The feeling that intercollegiate games of football were too dangerous to life and limb has resulted in an effective revision of the rules. These have not, perhaps, been in operation long enough to produce their ultimate results. It would seem that the teams in some of the colleges have not yet become accustomed to them, but the changes have certainly not made the game a less interesting spectacle, and among the Harvard players, at least, the injuries have been greatly reduced."

Nationality of Players.

Nationality cuts but little figure in the ability of a pitcher. For instance, Addie Joss is a Swiss, Bender an Indian, Walter Johnson a Swede, Walsh an Irishman, Reulbach a German, Coombs a Yankee, and Christy Mathewson is of Scotch descent.

And take it through baseball: John Kling is a German, Billy Sullivan, Ira Stevens and Larry McLean, Irish, and Chief Meyers, a full-blooded Indian. Then an all-star infield could be formed of Konetchy, Greek; Lajole, French; Wagner, German, and Devlin, Irish.

SLOW BALL HARDEST TO HIT

Clark Griffith, Manager of Cincinnati Reds, Is Ready for Argument With

Clark Griffith, manager of the Cincinnati Reds, takes exception to a recent statement by Christy Matthewson that the slow ball pitcher would not be so effective today as twenty

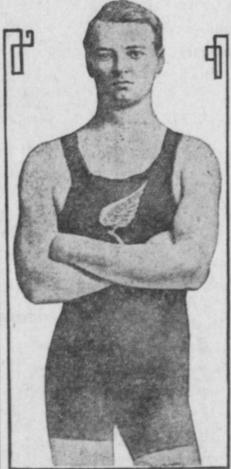

"is a slow ball pitcher himself, so his criticism that the tossers of 'teasers' wouldn't be as effective today as they were twenty years ago is not true, Matty's fcdeaway and curves are typical slow balls. He also has a fast ball, but if he depended on smoke to win his games he would be knocked off the rubber four games out of five. "I agree with Matty that there are

no good slow ball pitchers, but the great artists of the past, like Win Mercer, Red Donahue and yours truly (Clark Griffith) would now fool batters easier than we did twelve years ago, when there was only one 8-club league.

"I maintain that the slow ball is er, past or present."

New York Athletic Club's Expert Adds One More to His Aiready Long List of Victories.

Chas. M. Daniels, the New York Athletic club's aquatic expert, added another world's record to his already long list in a 200-meter swim in the club's tank the other day. Starting

CHARITY AND CHEWING GUM

Disparity That Hardly Seems Creditable to the Generous Instincts of the Race.

According to a statement before a meeting of the Women's Foreign Mismeeting of the Women's Foreign Missionary society of the Presbytery of Washington an interesting statement regarding the money spent for chewing gum and that given to charity was made. The speaker was Miss Mary W. Kerr of Harrisburg, Pa., in connection with the topic of "Frenzied Finance in Missions." In urging the society to be more liberal in its contributions to charitable work, she said: "For every \$3,000 contributed to charity, \$17,000 is spent for chewing

The statement passed almost unnoticed except by a few, who saw the pertinence and logic of the remark.

The Wretchedness of Constipation

Woman's Power

Over Man Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakmess and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses

her good looks, her attractiveness, her amisbility and her power and prestige as a woman. Dr. R.V. Pierce, of Buffalo, N.Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's allments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.
