

Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

Remarkable Coincidence in Sum of Money That Rastus Had in His Pocket.

Rastus was on trial, charged with stealing seven dollars and eighty-five cents. He pleaded not guilty, and, as he was unable to hire an attorney, the judge appointed Lawyer Clearman as counsel. Clearman put up a strong plea in defense, and Rastus was acquitted.

Counsel and client met a few minutes later outside the court room. "Now, Rastus," said Clearman, "you know the court allows the counsel very little for defending this kind of case. I worked hard for you and got you clear. I'm entitled to much more money than I'm getting for my valuable services, and you should dig up a good-sized fee. Have you got any money?"

"Yes, boss," replied Rastus, "I done got seven dollars and eighty-five cents."

Triumph of Courage.

Courage and the "power of the human eye," saved Walter Sergeant, a prosperous rancher, in the Redwood district, San Jose, when he was confronted by a hungry mountain lion the other evening. Sergeant was driving a herd of cows to his home in the foothills when he noticed the big cat stalking him. As it crouched for a spring, Sergeant turned and fixed the beast with his eye. Man and lion remained as immovable as statues for a few seconds and then the animal turned and trotted away.

His Destiny.

"I wish Willie had been born a girl!"

"Why?"

"Oh, he is such a cry baby! I wish I could do something to stop his sniveling at everything that comes up."

"To stop it? Encourage it, you mean! Nature evidently intended that boy for a United States senator."

Aroused Suspicion.

Old Rockey—Why did you quarrel with the count, my dear?

COFFEE CONGESTION
Causes a Variety of Ails.

A happy old lady in Wisconsin says:

"During the time I was a coffee drinker I was subject to sick headaches, sometimes lasting 2 or 3 days, totally unfitting me for anything. To this affliction was added, some years ago, a trouble with my heart that was very painful, accompanied by a smothering sensation and faintness.

"Dyspepsia, also, came to make life harder to bear. I took all sorts of patent medicines but none of them helped me for any length of time.

"The doctors frequently told me that coffee was not good for me; but without coffee I felt as if I had no breakfast. I finally decided about 2 years ago to abandon the use of coffee entirely, and as I had read a great deal about Postum I concluded to try that for a breakfast beverage.

"I liked the taste of it and was particularly pleased to notice that it did not 'come up' as coffee used to. The bad spells with my heart grew less and less frequent, and finally ceased altogether, and I have not had an attack of sick headache for more than a year. My digestion is good, too, and I am thankful that I am once more a healthy woman. I know my wonderful restoration to health came from quitting coffee and using Postum." Name given by the Postum Co., Battle Creek, Mich.

"There's a reason," and it is this. Coffee has a direct action on the liver with some people, and causes partial congestion of that organ preventing the natural outlet of the secretions. Then may follow biliousness, sallow skin, headaches, constipation and finally a change of the blood corpuscles and nervous prostration.

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

WITH THE STATE LAWMAKERS

Vetoed By Governor.

Two House bills were vetoed by the Governor, both being disapproved on the ground of not being necessary. The Gans bill to make it a misdemeanor for any one in a first-class city to permit any substance to flow into an inlet, drain or sewer, which would form a deposit tending to obstruct, was vetoed on the ground that the subject is one which can be dealt with by the municipal authorities by ordinance.

The other bill to meet executive disapproval appropriated \$5,000 for quadrennial inspection by the Department of Internal Affairs of boundary line monuments.

Approved By Governor.

Governor Tener approved nine bills, including the McNichol Senate bill making it a misdemeanor for any person to give any dramatic, theatrical, operatic or vaudeville exhibition or show any fixed or moving pictures of a "lascivious, sacrilegious, obscene, indecent or immoral nature," under penalty of a fine not exceeding \$1,000 or imprisonment for not more than a year, or both.

Another bill signed was the McInerney House bill to enable counties to issue bonds and appropriate money to construct and maintain canals in conjunction with other counties, the State or other States or the United States.

Bill To Impeach Judges.

The passage by the House of the Sherman bill, providing for and regulating investigations when charges are preferred against a judge of any judicial district, has given rise to many rumors and caused more discontent among the members of the House than any other piece of legislation passed thus far in the session. The procedure adopted and the incidents which surround it were not only peculiar, but unique, and gave the new members of the House a lesson in legislative procedure which they may have read of, but have never had the opportunity of seeing put into actual practice.

Dershem Pension Bill.

At a conference of Senators and Representatives interested in pension bills, it was determined that preference should be shown in the Senate to the bill presented by Mr. Dershem, Union, to grant pensions at the rate of \$5 for those who served for three months; \$6 for those serving less than a year, and \$7 for over two years. The Dershem bill has passed the House and the Gray bill, which provides for pensions for the emergency men who served for less than three months, is looked to pass. There are three pension bills in the Senate.

Inspect 50,000 Dairy Farms.

More than fifty thousand dairy farms in Pennsylvania are now being carefully inspected by officers of the State Department of Health in furtherance of the campaign which State Health Commissioner Dixon is waging to give the people pure milk. This is the seventh inspection of its kind that the department has made and each one has been productive of greatly improved sanitary conditions on the dairy farms as shown by the reports of the health officers. The inspections are made at stated periods throughout the year. They extend not only to the premises producing milk wholesale and retail distribution, but also to every farm producing milk for sale to creameries, to butter-making establishments, cheese factories, condensaries, etc. The cleanliness of the cow, the sanitary condition of the stable, the cow yard and the milk house are all carefully investigated and rigidly reported. The cleanliness of the persons who do the milking receives particular attention.

In its dealings with the dairymen the State Department of Health has from the first endeavored to make the farmer understand that it was vastly to his benefit to keep his dairy in a sanitary condition.

New Position for Hauser.

N. E. Hauser, of Hawley, Wayne county, was elected secretary of the State Board of Public Grounds and Buildings. He succeeds Henry D. Jones, of Montrose, who resigned. Mr. Hauser is chief clerk to the Auditor General.

New Bills in the House.

The following bills were introduced in the House:

Mr. Shreve, Erie—Regulating registration of corporations chartered in other States.

Mr. Schofield, Warren—Prohibiting the sale of pheasants and other game birds except under restriction of law.

Mr. Caldwell, Northumberland—Providing \$100 fine as penalty for imitation of commercial feeding stuffs when manufacturers comply with State law requiring printing of composition on label.

Mr. Freeman, Lebanon—Providing that suits against State treasurer for recovery of unclaimed bank deposits shall be brought in Dauphin County Court.

Mr. Whitman, Venango—Requiring county treasurer to deposit county funds in banks offering best rate of interest at public letting.

COMMERCIAL

Weekly Review of Trade and Market Reports.

Bradstreet's says: "Trade and industry are quiet, disappointingly so in most sections, considering the nearness of Easter, and collections are backward, but weather conditions, which have been partly responsible for this, have been, on the whole, beneficial to agricultural interests. It is to be noted that the long decline in most farm products, which are now 24 to 40 per cent. below a year ago, is credited at a few points with being a retarding influence upon trade.

"On the other hand, a few days of good weather and the recent price revisions are credited with helping the cotton goods trade slightly. Still the difficulties in that situation are well illustrated by the statement that some large printers who are also manufacturers have bought quite freely of cloths in the open market, where, it is claimed, they have obtained goods cheaper than they themselves could produce and sell them. In the leading industries there is not much new to note.

"Business failures in the United States for the week ending April 6 were 236, against 260 last week, 240 in the like week of 1910, 227 in 1909, 258 in 1908 and 194 in 1907.

"Wheat, including flour, exports from the United States and Canada for the week aggregate 2,143,043 bushels, against 3,576,864 bushels last week and 1,777,086 bushels this week last year. Corn exports for the week are 1,616,045 bushels, against 1,725,286 bushels last week and 635,624 bushels in 1910."

IN OBEDIENCE TO ORDERS

French Boy Caused Merriment by Taking the Order of the Court Too Literally.

A droll incident is reported as having taken place in one of the provincial appeal courts in France. A boy, about 14, was summoned to give evidence, and his appearance was such as to move the whole court to laughter. He wore a long redingote, peculiar to the Basque country, and immense boots. His trousers, collar and hat were unquestionably those of a man. The court was convulsed, and the president asked the boy how he dared to treat the court in such a manner. The boy seemed as surprised as the president, and taking out the citation from his pocket, read the formula inviting him, "Comparaître dans les affaires de son père." (To appear in his father's suit.)

THE ALARMING PREVALENCE OF ECZEMA

Finds Victims Among Every Race, Age and Condition.

Of all the diseases of the skin and scalp which torture and disfigure mankind, three-fourths are eczematous. Millions are born with eczema, and it is the only thing other millions have left when they die. Neglect in infancy and childhood, irritating conditions affecting the skin, ignorance of its real nature, improper remedies and many other causes that might be mentioned have created an eczema which, with varying severity, has afflicted countless numbers during their entire lives. Eczema is a skin disease. It is not regarded as hereditary, nor contagious, and is impartially distributed among the rich and poor, the high and low. The agonizing itching and burning of the skin, causing loss of sleep, is usually the most distressing symptom and is caused by the bursting of little vesicles filled with an acid fluid, which burns as with fire the denuded skin. New vesicles form, fill and burst, scales form upon scales, and crusts upon crusts until disfigurement is added to torture.

One of the most successful treatments for eczema, whether applied to the youngest infant or the oldest person, is hot baths with Cuticura Soap and gentle anointments of Cuticura ointment. For more than a generation, these pure, sweet and gentle emollients have proved the most efficient agents in the speedy and permanent relief of all forms of eczemas, rashes, itchings and irritations of the skin and scalp. Although Cuticura soap and ointment are sold by druggists and dealers everywhere, in order that those who have suffered long and hopelessly and who have lost faith in everything may make trial of them without charge, a liberal sample of each will be mailed free to any address, together with a 32-page pamphlet, giving a description and treatment of the various forms of eczema, as well as other affections of the skin, scalp, hair and hands—send to "Cuticura," Dept. W, Boston.

Character Told in Greeting.

Joseph Simms, M. D., in "Physiognomy Illustrated," says: "The man who gives you a warm, cordial, hearty grasp, looks you straight in the face, with a pleasant, open smile, and shakes your hand up and down, withdrawing his after a second earnest grip pressure, is almost without an exception an honest, earnest and true friend. The man who gives you the wagging, horizontal, mill hopper shake, and lets slip your hand as if it were greasy or oily, will almost certainly be found to be a selfish, cunning and deceitful man, ready to sell you the moment he can realize a dollar."

"Will you promise to support my daughter in the style in which she is accustomed if I consent to your marriage?" demanded old Skinfint, when Dobby made his formal proposal.

"Well, I—I'll promise to be tolerably close with her, Mr. Skinfint," said Dobby, "but you know, I'm a soft-hearted cuss, and I'm afraid she'll be able to wheedle a few things out of me that you were strong enough to refuse her."—Judge.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and SO GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.
