William Brouse, who for quite a number of years was employed at the planing mill at Oak Hall, was obliged to give up the work on account of failing health. Out-of-door work was suggested by his physician. He is now getting around the country gathering produce for W. Ferree, at Oak Hall.

Mrs. Eunice Campbell, who spent several weeks with her mother, Mrs. Hannah Woomer, departed on Tuesday for Nevada, Ohio, whither she has gone to be of some help and comfort to her brother, John Woomer, who is mourning the death of his wife which occurred four weeks ago. Three children were left homeless, the eldest being twelve years of age. Mr. Woomer has been greatly afflicted during the past year, having suffered a sunstroke last spring, then his right hand became sore, causing blood poison which spread through his system. He had been farming near Ashland, Ohio, but not being able to work he disposed of his farm stock and moved to Nevada. His right arm and hand are entirely helpless. With his left hand he is doing light work in a creamery. Mr. Woomer was born in Boalsburg where he grew to manhood, having been employed on a number of farms in this vicinity. He always proved to be a reliable helper. The people of this place greatly sympathize with him.

When Murray & Bittner Want Every Person in Centre Hall to do.

When Murray & Bittner, the enterprising druggists, first offered a 50 cent package of Dr. Howard's specific for the cure of constipation and dyspepsia at half price, and guaranteed to return the money if it did not cure, they thought it probable from their experience with other medicines for these diseases that they would have a good many packages returned. But although they have sold hundreds of bottles, not one has been brought back.

To those suffering with dizziness, headache, poor digestion, constipation and straining, Dr. Howard's specific offers quick relief. It is an invaluable boon to all who feel uncomfortable after eating, and is today the popular dinner pill in all the large cities.

Lewisburg and Montandon will be connected by trolley within a few weeks. The cars will run on the L. & T. tracks.

Rearick's Furniture Store offers a few more bargains at their wholesale price sale. This is the last offer. See advertisement.

SERMON ON TUBERCULOSIS.

Rev. Bieber Talked on That Subject Sunday Afternoon.

In response to a request by the tuberculosis congress Rev. B. F. Bieber, pastor of the Lutheran church, delivered a sermon on sanitation, with special reference to tuberculosis.

When it is recalled that tuberculosis causes about one-third of the deaths that occur between the ages of twenty and fifty years it becomes at once apparent what an enormous influence the suppression of this one disease must exercise upon the development and progress of society. The eradication of tuberculosis is among the chief ends to be accomplished by all the agencies which are striving to uplift human society and to make its individual units more efficient and self-sustaining. Hence the conquest of tuberculosis becomes the proper field of endeavor for the statesman, legislator, physician, minister and layman.

Speaking on this subject, President Taft says:

"We have an agricultural department, and we are spending \$14,000,000 or \$15,000,000 a year to tell the farmers by the results of our research how they ought to treat the soil and how they ought to treat the hogs, cattle and horses, with a view of having good hogs and good cattle and good horses. There is nothing in the constitution especially about hogs or cattle or horses, and if out of the public treasury at Washington we can establish a department for that purpose it does not seem to be a long step or a stretch of logic to say that we have the power to spend the money in a bureau of research to tell how we can develop good men and good women. Some of our enthusiastic conservators of national resources have calculated how much the life of each man and each woman in the community is worth to that community. I do not think it necessary to resort to that financial calculation in order to justify the saving of human life, such as can be accomplished by the results of research and advice that will proceed from a properly established bureau of health."

The graduation exercises of the Centre Hall High School will be held in Grange Arcadia, Tuesday evening, May 9th. The class is composed of five members.

The general appropriation bill to be passed by the Pennsylvania legislature carries with it between thirty-three and thirty-four million dollars—not a mean sum.

The graduating class of the Centre Hall High School cordially invites you to be present at the commencement exercises to be held in Grange Arcadia, Tuesday evening, 9th inst.

The dwelling house recently purchased by James Reish has undergone extensive improvements during the past two months. This week it was painted, thereby adding much to the appearance of the same. A barn has also been erected by the Lucas carpenters.

Messrs. E. M. Huyett and A. R. McNitt, members of the firm of McNitt-Huyett Lumber Company, on Monday started on a trip to West Virginia and Kentucky to look over some lumber operations in which the firm is financially interested. Both gentlemen have been over most of the territory heretofore. They will be gone ten days or more.

"Heart of Oak," 2:17 pacing, has produced speed from common mares, and a horse with speed inheritance like his should produce speed from most any mare. Gambetta Wilkes, his sire, has two hundred and thirteen in the standard list, eighteen of which are 2:10; his dam has produced six in the list, two better than 2:37. This horse stands at the stable of J. H. Detwiler, east of Centre Hall. See his advertisement in this issue.

A heavy charge of dynamite exploded in the quarry being operated by the Millheim Pike Company, between Millheim and Coburn, which resulted disastrously. Elias Stover, a farm hand employed by Marcus Saukey, was hauling coal for the company, and with a team was at the quarry at the time the charge exploded. Mr. Stover was knocked from the wagon, and received slight injuries. One of the horses was hit by a flying stone, and knocked down, and its mate was thoroughly shaken up by the jar.

People Who Are Interested

in what is done, are generally also interested in how it is done. We are going to tell you. Interest rates in the West have always been higher than in the East. For many years to come, they will be from 1 1-2 to 2 per cent. higher. Look at these figures:

\$1 invested annually for 20 years at 6 per cent., \$38.99.

\$1 invested annually for 20 years at 4 per cent., \$30.97.

Difference in favor of 6 per cent. on \$1 per year, \$8.02.

If you are investing \$100 per year, the difference in favor of western securities would be \$802. It is no wonder that the best returns are secured in the
