

# Hood's Sarsaparilla

Cures all humors, catarrh and rheumatism, relieves that tired feeling, restores the appetite, cures paleness, nervousness, builds up the whole system.

Get it today in usual liquid form or chocolate tablets called Sarsatabs.

Is afflicted with sore eyes, use Thompson's Eye Water

## ARMY DELAYS.

The Adjutant-Inform Corporal Stripes that his application made some time since for a furlough has been granted by the war department.

Sergeant—I'm sorry to say, sir, that Corporal Stripes died some six weeks ago, sir.

## Strange Children.

George Bancroft, the historian, used to relate with gusto a joke that he caught while trotting to school along a Massachusetts-country road. It was about old Levi Lincoln, says Percy H. Epler in "Master Minds at the Commonwealth's Heart."

The old gentleman was nearly blind. A flock of geese was being driven gobbling up Lincoln street. Leaning far out of the carriage, the fine old aristocrat, thinking they were children, threw out a handful of pennies, graciously exclaiming: "God bless you, my children!"

## Appalling Excuse.

"This is the fifth time you have been brought before me this term," said the judge, frowning severely upon the prisoner at the bar.

"Yes, your honor," said the prisoner. "You know a man is judged by the company he keeps, and I like to be seen talkin' to your honor for the sake of me credit."

"All right," said the judge. "Officer, take this man over to the island and tell them to give him a credit of 30 days."—Harper's Weekly.

## Very Select.

The landlady was trying to impress the prospective lodger with an idea of how extremely eligible the neighborhood was. Pointing over the way at a fine mansion, she said in a hushed whisper:

"Young man, over there across the street there's seven million dollars!"

## Getting On.

"Well, little boy, did you go to the circus the other day?"

"Yes'm. Pa wanted to go, so I had to go with him."

## BUSINESS WOMEN A Lunch Fit for a King.

An active and successful young lady tells her food experience:

"Some years ago I suffered from nervous prostration, induced by continuous brain strain and improper food, added to a great grief.

"I was ordered to give up my work, as there was great danger of my mind falling me altogether. My stomach was in bad condition (nervous dyspepsia, I think now) and when Grape-Nuts food was recommended to me, I had no faith in it. However, I tried it, and soon there was a marked improvement in my condition.

"I had been troubled with faint spells, and had used a stimulant to revive me. I found that by eating Grape-Nuts at such times I was relieved and suffered no bad effects, which was a great gain. As to my other troubles—nervous prostration, dyspepsia, etc.—on the Grape-Nuts diet they soon disappeared.

"I wish especially to call the attention of office girls to the great benefit I derived from the use of Grape-Nuts as a noon luncheon. I was thoroughly tired of cheap restaurants and ordinary lunches, and so made the experiment of taking a package of Grape-Nuts food with me, and then slipping out at noon and getting a nickel's worth of sweet cream to add to it.

"I found this simple dish, finished off with an apple, peach, orange, or a bunch of grapes made a lunch fit for a king, and one that agreed with me perfectly.

"I thrive so on my Grape-Nuts diet that I did not have to give up my work at all, and in the two years have had only four lost days charged up against me.

"Let me add that your suggestions in the little book, 'Road to Wellville,' are, in my opinion, invaluable, especially to women." Name given by Postum Co., Battle Creek, Mich.

Read "The Road to Wellville" in pigs.

"There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

# LIVE STOCK

## KEEP FEEDING PAILS CLEAN

Farmers Do Not Pay Enough Attention to Sanitary Condition of Vessels Used for Feed.

(By M. J. THOMPSON.)

One of our institute lecturers told us last winter that we ought to rinse out the pails after feeding the hogs, every time. This seemed to me rather far fetched at the moment, but the more I think of it the more I believe he is right. We do not pay enough attention to the sanitary condition of the vessels in which milk and other feed for the hogs is kept. The hog is a cleanly animal when it can be, and more than that pork is made for men, women and children to eat. It should be as sweet as possible and free from any disease producing element. It cannot be if we feed the hogs from vessels that contain left over feed that has become sour and rancid from heat and exposure to the air. We sold 14 pigs that averaged 170 pounds to the local butcher last winter and when he came out to look them over he remarked that they were the cleanest lot of pigs he had bought for months. He also complimented us on the clean feeding pens and their surroundings, and taking advantage of his evident satisfaction we had no trouble in getting a nice toppy price for the lot.

## MAKE CONCRETE WATER TANK

One in Use at the Michigan Agricultural College Is Made of Ordinary Hollow Blocks.

To water the large herd of stock kept by the Michigan agricultural college a big concrete water tank was built. This is made out of ordinary

Water Tank for Stock Farm.

hollow concrete blocks of standard size, which were cast for a silo. They are well cemented on the inside to make the tank waterproof, says the Farm and Home.

A novel arrangement on the tank is a device for heating the water in winter. A 12-inch tile extends to the center of the tank, while a 4-inch pipe leading up from this furnishes the necessary flue. A grate is fitted in the tile to allow for a suitable draft, and in the door which closes it is an opening which can be opened or shut at will. The braces which hold the top in place also serve to support the hinged doors, which are closed down in cold weather.

## ODD FUNCTION OF HOG'S LEG

Escape Pipes for Discharge of Waste Matter Not Used in Economy of Body Placed There.

The hog's legs perform a function not known to any other animal, and that is an escape pipe or pipes for the discharge of waste matter or sweat not used in the economy of the body. These pipes are situated upon the inside of the legs, above and below the knees in the forelegs and above the hams in the hind legs, but in the latter they are very small and the functions are light. Upon the inside of the forelegs they are, in the healthy hog, always active, so that moisture is always there about and below these orifices or ducts in the healthy hog. The holes in the legs and breathing in the hog are his principal and only means of ejecting an excess of heat above normal, and when very warm the hog will open the mouth and breathe through that channel as well as the nostrils. The horse can perspire through all the pores of its body, such as a man, and cattle do the same to a limited extent, but the hog never. His escape valves are confined to the orifices upon the inside of his legs. People often wonder why it is that the hog dies so suddenly when he runs rapidly or takes quick and violent exercise by fighting. But when you consider the few escape pipes, their small capacity and remoteness from the cavity where the heat is generated, the wonder is not that he dies quickly when overheated, but that he lives as long as he does when heated up.

## Remedy for Swollen Legs.

Many of the swellings on the limbs of horses can be prevented by the proper amount of exercise. Do not keep the horse standing in the barn without exercise and expect it to remain free from swollen limbs.

## Missouri Mule.

The 1,400 pound Missouri mule is becoming a popular draft animal on the thoroughfares of New York city. He is tough, eats less than the horse of the same weight, and if sound will sell for \$300 or better.

## SORE NECK ON FARM HORSES

Usually Preceded by Sunburn Coming on Top Where Collar Fits—Should Be Treated at Once.

A sore neck is usually preceded by a bunch coming on the top of the neck where the collar comes. If this is left and the horse worked it soon becomes a deep-seated sore, causing no end of trouble. If this bunch is noticed the first day it appears it can be entirely removed and the horse worked continually, if the lump is treated with oil, of spike every night and morning. It pays to look after the welfare of the horse, as he is our main dependence during the rushing work of summer, and a horse with a sore neck cannot do his work easily nor as satisfactorily as though he were sound. It never pays to overdo a horse when the weather is excessively warm, as he is almost sure to get sore shoulders or a sore neck, no matter how well his collar fits, if his blood gets overheated. It will often pay to give a horse a pail of water between meals in very warm weather. It may mean some work; but it will pay in the long run to not neglect anything that will add to the comfort of the hard-worked animal.

## PRACTICAL HOG HOUSE PLAN

Partitions Between Pens Made Removable So That Two or More Can Be Made Into One.

The following plan for a hog house and the accompanying illustration was submitted to the Homestead by Mr. Martin N. Hanson, Iowa county, Wis.

The building is 22x36x7, outside walls constructed of brick (double wall), partitions made of planks fastened to 2x4s and 4x4s. Partitions between the pens to be removable so that with little work two or more pens can be made into one. The size of each pen is 6x8, all doors one row on wall, one window for each pen on south side and a continuous row of two feet high window sashes on south pitch of roof, the rafters on the north side to be sufficiently long to project far enough to allow room for windows between edge and south slope of roof; about two windows on each end of house.

It will be best for the doors

Floor Plan.

to be made so as to slide in through center of wall except the doors leading to alley, which will be hung on hinges. The building should run east and west with windows on south side.

# LIVE STOCK NOTES

A dairy farm of a dozen cows can maintain a flock of 15 or 20 sheep almost without expense.

The real value of a sheep cannot be determined, particularly as a breeder, until it is one year of age.

It is common sense that a mature sow will produce larger and more perfect pigs than a very young one.

Horses that are clipped dry off fast at night, which is to be preferred to standing in a heavy wet coat of hair.

Do not attempt to raise fall pigs without having first prepared a perfect system of housing for the winter.

If a ewe keeps her lamb in fine fat condition up to the time of weaning, be sure she is a good mother, and keep her.

Free range for hogs does not mean that they should be allowed to run in the highways and through the neighbors' fences.

Some people claim that a hog is a scavenger by nature, but he certainly thrives better on clean feed and decent surroundings.

Remember that colts which are highly fed and growing fast need daily exercise to keep their limbs and joints in proper condition.

Do not change the work horses from grain to grass too suddenly. Fact horses on heavy work every day should have very little grass.

## FORMER NEW YORK IDOL TO COME BACK

Mike Donlin, Who May Return to Baseball.

The former idol of the Giants and one of the greatest players of the game is tiring of his stage life and negotiations are now under way to complete a deal which will make Donlin a member of the Boston Doves. Manager Tenney of the Doves has been conferring with Donlin and terms between him and the star outfielder have been reached. All that remains is to close

## JOE JACKSON MAKING GOOD

Young Recruit on Cleveland American Team Is Hitting Ball Hard and Constantly.

Napoleon Lajoie has a rival on the Cleveland team.

In the years gone by any time the fans commented upon his appearance at the plate, they wondered at his gracefulness in the field. But this year Lajoie isn't attracting all the attention.

One Joe Jackson, a recruit, is dividing it with him. Much has been written about this young fellow. He came to the Naps at the tail end of the season, touted as few ball players have been. He proceeded to make good immediately. In the few weeks that he was a member of the Cleve-

Joe Jackson.

land team he made pitchers look sorry. Apparently it didn't make a particle of difference whether they were right-handed or left, he hit the ball.

And the pitcher has not yet been found who could make him look like a bush leaguer. For Jackson has been hitting. He clouted 364 in the first few days of this season, and so far he has been one of the two men on the Nap team who have played baseball. Lajoie, of course, was the other.

Jack O'Connor, former manager of the Browns, has just returned to St. Louis from Arizona where he has been for his health since last February. He is much better, but refuses to talk baseball.

A Philadelphia habit that Manhattan fans never acquired is that of giving automobiles to players and managers. Within a year Horace Fogel, "Red" Doan, "Connie" Mack and "Eddie" Collins have been given automobiles.

Pitcher Mullin has a growth in his nose and has been told that an operation will be necessary. He doesn't want to go under the knife lest his winning streak be broken. That's better than having his breathing streak broken.

Japanese ball players show that the subjects of the mikado will be formidable opponents for Americans within a few years. With fewer advantages than the American high school boy, they put up a surprisingly good article of ball.

The Washington team does not think much of the pitching of Lefty Russell, the \$12,000 pitcher. Connie Mack has added to his staff this year. He was trounced easily by McAleer's men even though they were almost disrupted by injuries.

the deal with McGraw which now is pending. Donlin says he will be ready to redon his spangles in a fortnight, as he has been practicing all season and practically is in shape.

Cincinnati Wants Hess. Cincinnati is said to be dickering with New Orleans for Pitcher Otto Hess.

league and topped the field with a batting average of .346. With Savannah he led with .358 and with New Orleans he was the pacemaker with .354. Last year, with Cleveland, in 20 games he led the American league, beating out Cobb and Lajoie with .357 per cent.

As long as Mathewson and Raymond are in shape the New York Giants are not going to slide down any in the National league race.

Ingerton is doing so much heavy artillery work with the Boston team that Chance is beginning to think that it was a mistake to let the youngster go. In a recent game with Boston the Yankees scored four runs on four hits and made four errors and eleven assists, winning the game 4 to 3, 4-11-44.

Cunningham, the young second sacker with the Senators, is doing good work at the keystone bag and McAleer believes that his worries are over for some time to come about that position.

Jack O'Connor, former manager of the Browns, has just returned to St. Louis from Arizona where he has been for his health since last February. He is much better, but refuses to talk baseball.

## IT DOES ON HOUSES.

Wise—Do you see that striking looking woman with the veil.

Howe—Yes.

Wise—Do you know why she wears the veil?

Howe—No. Homely?

Wise—No; she's afraid the sun might blister the paint.

## THREE CURED OF ECZEMA

"When a child, I suffered eight years with eczema. I could not sleep at night, and had sores all over my chest. We had doctors and none could do any good, until my mother saw the advertisement of the Cuticura Remedies in the paper. We used the Cuticura Soap, Ointment and Resolvent, and they cured me of eczema. I also used them on my five children. Two of them had eczema very badly. When my children had eczema, I was not worried at all, as I knew the Cuticura Remedies would do their work. They had sores all over their heads, their hair would fall out, and they would scratch all night and day. They had it on their heads, face, and in back of the ears so that I thought their ears would drop off. I washed their heads and bodies with Cuticura Soap and they are as clean as the driven snow. Cuticura Soap and Ointment also cured my children of ringworm. I would not be without the Cuticura Remedies. They are wonderful." (Signed) Mrs. Violet Cole, 26 S. Redfield St., Philadelphia, Pa., Oct. 29, 1910.

Cuticura Soap and Ointment are sold throughout the world. Send to Potter Drug & Chem. Corp., sole props., Boston, for free book on skin and scalp diseases and their treatment.

## An Astonished Boy.

In February of this year a Wisconsin farmer took his twelve-year-old boy to a village for the first time, and there the lad saw a train of cars. He was so astonished at the sight that he lost the power of speech for three weeks.

If that youngster is ever taken to a circus or a zoological garden he'll surely be struck dumb for the rest of his life. His father's farm must be hidden away in a hole in the ground.

## Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Chas. H. Fletcher* in Use For Over 30 Years.

Children Cry for Fletcher's Castoria

Hypnotic.

Margaret—I think Mr. Baker could easily hypnotize people.

Katherine—Why do you think so?

Margaret—He often holds my hand till it falls asleep.—Puck.

## TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM

Take the Old Standard GENUINE TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malarial and the iron builds up the system. Sold by all dealers for 50 cents. Price 50 cents.

## Best in the World.

Maud—What excuse have you for doing such an unmaidenly thing as proposing to Jack?

Ethel—The golden rule.

## FOR COLDS AND GRIP

Block's CAPSICUM is the best remedy—relieves the aching and feverishness—cures the cold and restores normal conditions. Its liquid effects immediately 10c, 25c, and 50c. At drug stores.

To save a man, give him good friends or bitter enemies; these by love and those by their hate to keep him from evil doing.—Antisthenes.

## Eye Salve to Aseptic Tubes

Prevents Infection—Murine Eye Salve in Tubes for all Eye Ills. No Morphine. Ask Druggists for New Size 25c. Valuable Eye Book in Each Package.

The happiness of our lives depends much less on the actual value of the work done than on the spirit in which we do it.—Prince Leopold.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Sugar-coated tiny granules.

Agreement among good men is friendship, among bad men conspiracy.—Sallust.

Garfield Tea corrects constipation by arousing the digestive organs to their intended activity. Composed of Herbs.

Who hath not known misfortune never knew himself or his own virtue.—Mallet.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

Isn't it about time to bury the dead languages?

Garfield Tea regulates a lazy liver.

It's difficult to discourage a girl who can't sing.
