Freight Train of Track.

The freight train going east Tuesday morning spread the track at a point a short distance below the landing at Old Fort. The engine carried nine cars off the rails. The train had passed over a high embankment, but where the wreck occurred there was an abundance of room to permit the cars to leave the track without toppling over. A few of the trucks were damaged but not to any great extent. Wreck trains were dispatched to the scene, and with the derricks the engine and cars were lifted to the track, and Wednesday morning the track was clear for traffic.

THE WELD THAT HELD
and why

THERE ARE MANY REASONS WHY YOU SHOULD USE THE ONLY ELECTRICALLY WELDED FENCE MADE.

"Pittsburgh Perfect" Fence

FOR FIELD, FARM, RANCH, LAWN and POULTRY PURPOSES

Scientifically constructed and unlike any other, no wraps, clamps, ties or twists. All wires electrically welded makes our fence as strong at the joint as at any other point, which adds years of life to the fence and it makes it superior to any other. Stay same gauge as intermediate line wires, the point that counts for lasting strength and service.

Made of OPEN HEARTH WIRE, near like old time iron wire, conceded far superior to Bessemer Steel, and galvanized by our own improved process.

FRIEND FARMER: If you are in need of a good farm tool, either tillage implement or haying or harvesting machines, it will pay you to look my lines over. I can sell you an implement of first quality for the same price you would pay elsewhere for one of ordinary quality. I don't boost our tools, but I boost QUALITY and can furnish the goods.

BUCHER & GIBBS IMPERIAL PLOWS make friends everywhere used because they are built right from handle to clevis; so also are their spring tooth and spike harrows and land rollers.

THE CAMBRIDGE REVERSIBLE PLOW combines more features of practical utility than any other plow on the market.

THE KRAUS PIVOT-AXLE CULTIVATOR is the I X L of them all. This was the first cultivator making possible simultaneous sidewise movement of the gangs and wheels.

I also handle the **AMERICAN SEEDING MACHINE CO'S SUPERIOR PRODUCT GRAIN DRILLS AND CORN PLANTERS** (the name tells a true story), and the **EVANS POTATO PLANTER**.

THE SUPERIOR CORN PLANTER is stripped of all check-rowing technicalities and is as simple and strong as it is possible to make them. Superior Corn Planters are furnished with both flat and edge drop plates, and both are yours for the one cost. Superior Automatic Marker Lift, either Disc or Runner Furrow Opener.

If you are in need of any implements, step in and let me show you this splendid line.
