

DEATHS.

At the age of fifty-eight years, nine months and twenty days, Mrs. Adam P. Maize, died of cancer at her home in Millheim Saturday evening. Mrs. Maize was twice married, her first husband being a Mr. Musser. Two children were born to this union, both of whom survive, namely, Ezra Musser, of Millheim, and Mrs. Henry Taylor, also of Millheim. To the second union a son—Frederick—and a daughter were born. The latter died in infancy. Her second husband, Adam P. Maize, survives with the three above mentioned children. Burial was made at Millheim Wednesday morning, the officiating minister being Rev. W. J. Dice, assisted by Rev. J. Max Lantz.

Mrs. J. M. Yeager died at her home at Yeagertown, aged seventy-two years and a few days. Mrs. Yeager was twice married, her first husband being Will John Brisbin. Two children born to this union survive, namely, William Mann Brisbin, of Yeagertown, and Dr. Charles H. Brisbin, of Lewistown. In 1874 Mrs. Brisbin married J. M. Yeager. One child survives—Mrs. Charles Rice, of Reedsville. The deceased's maiden name was Anna Mann, daughter of William J. Mann, founder of the Mann Axe Works in Lewistown.

LOCALS.

A number of families in and near by Centre Hall picnicked on Nittany Mountain on Saturday.

Daniel Wion, who has been seriously ill during the past few weeks, is not improving. His condition is very alarming.

The hotel guests and some of the young people in Centre Hall had a corn roast on Monday evening at one of the springs at the base of Nittany Mountain.

Cutting oats is the program among farmers in Penns Valley this week. From Boalsburg westward much of the oats was cut last week, and is now being housed.

J. H. Moyer and son Cyrus, of Colyer, came to Centre Hall on Tuesday to meet Miss Annie Renninger, of Spring Mills, who will visit at the Moyer home for short time.

A contract was let in Huntingdon for a new Lutheran church to be built of Hummelstown stone. The contract price is a little under \$30,000, but this does not include excavations.

A well known Des Moines woman after suffering miserably for two days from bowel complaint, was cured by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all dealers.

Howard Bricker, the Boalsburg grocer, was in Centre Hall between trains on Monday afternoon. One of his objects in coming here was to engage space on Grange Park during the Grange Encampment and Fair.

The large creamery and ice cream plant at Dewart, the property of Charles Sheffer, well known in Centre Hall, was recently totally destroyed by fire. There was some insurance, but not nearly enough to cover the loss.

Mrs. J. Emory Hoy, of Philadelphia, came to Centre Hall on Thursday of last week, and for several weeks will be at the home of her parents, Mr. and Mrs. W. B. Mingle. Her daughter Elizabeth is also here, having come here several weeks ago.

Misses Erma Rutter and Emma Wilks, of Lorain, Ohio, are guests of their uncle and aunt, Mr. and Mrs. P. H. Luse, near Centre Hall. The mothers of the young ladies are sisters of D. F. and A. P. Luse, and half sisters of the Mr. Luse first mentioned.

Farm wagons of every description will be found in our ware houses. Come and look them over. They are made of the best material obtainable, are neatly built and ironed; well painted, and run like a top not like a log—J. H. and S. E. Weber, Centre Hall and Oak Hall Station.

Miss Mary Shlegal, of Spring Mills, has selected to become a trained nurse, and by the middle of this month will enter upon a course in the Lock Haven Hospital. She and her father, D. H. Shlegal, were in Lock Haven last week and made definite arrangements for her to enter the institution named.

One of the Sunday-school classes of the Reformed school, at Spring Mills, on Friday evening will give a play in the school house in that place entitled "Brother Joshua." The admission is ten and fifteen cents. The class holding the entertainment is taught by Dorer Emerick, and those who have been assigned parts are making every effort to please the audience that will be before them.

Rev. and Mrs. W. W. Lane, of Milo Center, New York, are at the home of the former's uncle and aunt, Mr. and Mrs. W. H. Stiver, of Centre Hall. Rev. Lane is pastor of the Methodist church in his home town, and the county (Yates) in which he is located has the distinction of being the only dry spot in the whole of New York, having twice voted anti-wet. Mr. and Mrs. Lane have been married but a year, and this is her first trip to the beautiful hills and valleys in Central Pennsylvania and she is showing her appreciation of it.

Mr. Cunningham Withdraws.

BELLEFOUNTE, PA., July 31.
Editor of the Reporter
Dear Sir:—
I wish to notify you that I have this day withdrawn as a candidate for the nomination for treasurer of Centre county, and you will, therefore, discontinue my announcement in your paper. I have been contemplating this action for several weeks, and my withdrawal is caused by important business which requires my close personal attention.
I wish to take the opportunity at this time to thank all my friends in the county for their kindly interest in my behalf for the nomination for treasurer, and I also hope for the success of our party at the polls next fall.
Respectfully,
J. M. CUNNINGHAM.

Marriage Licenses.

Linden Hall.
Mrs. Jerome Wilkins returned home from the Bellefonte hospital on Monday.

After spending a week with her mother and sister in this place, Mrs. Robert Morrow returned to her home in Sinking Valley.

Mrs. Curt Musser and sons, Alvin and Paul, and daughter Alicia returned to Altoona after spending some time at the home of J. E. Ross.

A number of men are being employed by Miss Martha Tressler in putting new roofs on the stable and other buildings on the place occupied by A. J. Cummings.

Mr. and Mrs. F. E. Wieland and daughter Mildred, and Mr. and Mrs. Frank McFarlane went to Reedsville Saturday in the former's Ford car. The trip was made over the mountain and when they returned went by way of Huntingdon and Alexandria.

Unclaimed letters in Centre Hall post office, August 1st, 1911: Mr. J. H. Huff, Howard Krape, Mr. Meyers, teacher in the High School of Newark, N. J.

William M. Houser, of near Pleasant Gap, reports deer frequenting his fields on Nittany Mountain almost every day.

Realistic.
The Author—Well, how did you like my play?
The Critic—Oh, it was very nice.
The Author—Didn't you think the church scene realistic?
The Critic—Intensely so. Why, a great many of us actually went to sleep while it was on.—London Tit-Bits.

Her New Role.
Patience—Do you remember my sister who was on the stage?
Patrice—Oh, yes.
"Well, she's married."
"Oh, got a speaking part at last, has she?"—Yonkers Statesman.

LAWS OF WARS.

The Code Now in Use Among All the Civilized Nations.

The "laws of war" as at present formulated by the civilized nations forbid the use of poison against an enemy; murder by treachery, as, for example, assuming the uniform or displaying the flag of a foe; the murder of those who have surrendered, whether upon conditions or at discretion; declarations that no quarter will be given to an enemy; the use of such arms or projectiles as will cause unnecessary pain or suffering to an enemy; the abuse of a flag of truce to gain information concerning an enemy's positions; all unnecessary destruction of property, whether public or private.

They also declare that only fortified places shall be besieged; open cities or villages not to be subject to siege or bombardment; that public buildings of whatever character, whether belonging to church or state, shall be spared; that plundering by private soldiers or their officers shall be considered inadmissible; that prisoners shall be treated with common humanity; that the personal effects and private property of prisoners, except their arms and ammunition, shall be respected; that the population of an enemy's country shall be considered exempt from participation in the war, unless by hostile acts they provoke the ill will of the enemy.

Personal and family honor and the religious convictions of an invaded people must be respected by the invaders and all pillage by regular troops or their followers strictly forbidden.—New York Herald.

KEEPING TAP ON THE CROPS

The Way the Agricultural Department Gets Its Information.

The details of the comprehensive system employed by the department of agriculture in gathering the crop information from all over the country are interesting. There are 30,000 township correspondents scattered all over the Union, whose duty it is to go carefully over the territory and submit each month concrete information as to the condition of all kinds of crops. In addition to this branch, 3,000 "county correspondents" send in separate reports from those of the township men. A state agent makes a further report direct from his agents, and an organization in direct communication with the department, comprising seventeen traveling "field agents," go about the country and make separate reports for groups of states. Special cotton correspondents are also employed to furnish accurate information concerning the cotton yield. Five different reports are sent to Washington each month by five different sets of correspondents. This safeguards the government crop reports for accuracy in local crop reports and keeps the great crop account and cost estimates for the millions of American farmers. These records are sent to the agricultural department. Officials of the bureau of statistics and a board go over all the five reports from five distinct groups of correspondents, and from all the figures a crop report estimate is distributed to 70,000 post-offices throughout the country every month.—National Magazine.

The Electric Fan.
Back in the early eighties Dr. S. S. Wheeler, an electrical engineer of New York, was experimenting with a small electric motor. In the course of his experiments the doctor conceived the idea that steamboats might be run with electricity if the propellers could be directly connected to high speed electric motors, doing away with all the gears then in use in steam propulsion. With this idea in mind he had a small screw propeller constructed and fastened it to the armature shaft of his small motor. To his surprise the experiment resulted in a fine breeze of cooling air which more than delighted the experimenter, for the day was decidedly hot. It is needless to add that the experiments with screw propellers ended right there, and the engineer took up the study of the electric fan, with the result that he soon perfected the device until it was a commercial success.

Bonnyclabber.
New drinks have sometimes a glorious and brief popularity. Lord Stratford, writing to Lord Cottingham in 1635, extols "bonnyclabber," which he says "is the bravest, freshest drink you ever tasted. Your Spanish don would, on the heats of Madrid, hang his nose and shake his beard an hour over every sop he took of it and take it to be the drink of the gods all the while."
No one, however, seems to know the exact composition of the seductive "bonnyclabber," although from an allusion to it by Ben Jonson it would seem to have been a mixture of beer and buttermilk.—London Chronicle.

Tuesday, August 22nd, has been the date set for the Business Men's picnic on Hecla Park.

THERE IS NO PLOW SUPERIOR TO THE SYRACUSE RIDING PLOW

It plows the same depth the whole day long; sticks to the ground in stormy soil; can be well handled on rocky hillsides. It leaves no dead furrows to wash; will throw the soil up hill better than any other plow made; it is strong enough to do its work, yet not clumsy. It is made for two or three horses.

NEW IDEA MANURE SPREADER Does its Work To Perfection

There are many of them in use, and every machine is giving satisfaction. The draft is light, yet no other spreader will do the work as well. The wear and tear has been reduced to the minimum in the New Idea.

THE "OLDS" GASOLINE ENGINES

have many superior qualities. The cut here represents the 4-A Hopper Jacket Engine. From the material that enters into it to the smallest detail, the engine is superior in quality. The Olds engines are built in all sizes. Ask for a descriptive catalog.

There is no FARM MACHINE OR IMPLEMENT that we do not handle

THINK THIS OVER

You say you can make more from your surplus than a life insurance policy will make for you.
How much comfort of mind will your "increased earnings" bring you when you are ill and face the question of your family's needs?
Mental worry and illness combined speeds death.
Mental ease contributes to longevity.
A Royal Union policy is the greatest balm in the world for that feeling of uncertainty about your family's future if you are no longer here to provide for them, and for the time when age will impair your activity. No policy is better secured or yields a better return than the one issued by the Royal Union.
