While passing through Centre Hall, on Monday evening, in a Buick touring car, William Dapp, accompanied by a lady, had the misfortune to break a rear axle. The break was repaired the next day by Messrs. Henney and Harper. Mr. Dapp came from Connecticut, having made a run from Wilkes-Barre on the day the accident occurred.

He will return to Sunbury, and continue his employment with J. C. Packer, his work being the care of race horses.

Mr. and Mrs. W. V. Gotchall came to Centre Hall on Monday, and since have been making preparations for their departure for Porto Rico, where, as stated heretofore in these columns, Prof. Gotchall had an offer to become a professor in one of the institutions of learning. The position, after investigation, proved an agreeable one, and has been accepted, and Mrs. Gotchall and the children will accompany the professor, starting from Centre Hall Thursday of next week.

From Kansas come wonderful stories of success with alfalfa, and here is the gist of an article in the Kansas City Star forwarded to D. K. Geiss in Centre Hall by his brother Jacob K. Geiss, of Beloit, Kansas. The item tells of an alfalfa farmer who from eleven acres harvested one hundred and seventy-eight bushels of alfalfa seed, an average of a trifle over fifteen and one-half bushels per acre. The farmer, Wiley Alcorn, of near Iona, refused \$8.00 per bushel for the seed, or a total of \$1,424.50. Of course, this is not the total yield from these eleven acres, since at least one, and perhaps two, crops of hay had previously been cut this season. This ought to inspire Pennsylvania farmers, but then the Old Keystone State does not have a Kansas climate in which to grow alfalfa seed, and was to him who tries to follow the Kansas style.
